# Tierney's REAL News (1/11/22)

Project Veritas has obtained documents from a report written by DARPA, a decades old agency which operates allegedly under the U.S. Department of Defense, which was hidden in a top secret shared drive. DARPA is in charge of facilitating research in technology with potential military applications.

Additionally, Project Veritas has obtained a separate report to the Inspector General of the Department of Defense written by U.S. Marine Corp Major, Joseph Murphy, a former DARPA Fellow.

Project Veritas leaked DARPA documents which were already published months ago by the Intercept. They got a former DARPA staffer to comment on them. So this is not new news - but maybe it will get attention this time! What is DARPA and how was it formed?

FORBES: The Defense Advanced Research Projects Agency, better known as DARPA, has been dubbed the Pentagon's 'department of mad science.' Set up in response to the Soviet Union's surprise launch of Sputnik, the first satellite, in 1958, DARPA carries out research and development beyond the cutting edge.

The agency has driven such world-changing innovations as the internet, self-driving vehicles and stealth technology, and more recently research into mRNA-based vaccines and other technologies to fight COVID-19. DARPA is shrouded in secrecy and manages a mass of classified programs, and few outsiders appreciate how it really works.

There are roughly a hundred program managers at DARPA, in six technical directorates known as Offices. One is the Strategic Technical Office. Others include the Biological Technologies Office, the Microsystems Technology Office and the Tactical Technology Office. All of them give program managers more or less total autonomy in what they do and how they do it. They generate the ideas, they execute their program activities, overseeing them. But the actual research work is conducted outside DARPA.

President Dwight Eisenhower founded DARPA way back in 1958 in order to develop cutting-edge technologies for the United States. Originally known as ARPA (same meaning, but without "Defense") - it was created as a response to the Soviet Union's successful launch of Sputnik, which signaled that "a fundamental change was needed in America's defense science and technology programs." On July 11, 1953, Eisenhower gave presidential approval for Operation Ajax, the very first CIA coup and gave free rein to covert CIA operations — there would be 170 of them during his two terms. Later, realizing he had unleashed unbridled power, he warned about the potential excesses of the military industrial complex.

Since then, it's been involved in several technological milestones; for instance, it developed an early networking system that went live in 1969 called the ARPANET - that eventually led to creation of the internet, which, suffice it to say, changed the world. Love Siri or Cortana? You can thank DARPA for those virtual assistants, too, as its Speech

Understanding Research (SUR) program in the 1970s played a key role in advancing speech recognition technology widely in use today.

Despite being part of the Pentagon, DARPA operates independently from the Defense Department's military research division.

In 1994—the same year the Highlands Forum (the CIA venture capital investment firm) was founded under the stewardship of the Office of the Secretary of Defense, the ONA, and DARPA—two young PhD students at Stanford University, Sergey Brin and Larry Page, made their breakthrough on the first automated web crawling and page ranking application. That application remains the core component of what eventually became Google's search service. Brin and Page had performed their work with funding from the Digital Library Initiative (DLI), a multi-agency program of the National Science Foundation (NSF), NASA and DARPA.

So the DoD, CIA & DARPA run hedge funds to fund their covert operations. In other words, the Deep State has penetrated DARPA and was trying to use it to destroy America. Everything President Trump is doing is an attempt to circumvent, delay, reverse and correct their nefarious plans.

DARPA, The Pentagon's Defense Research Advanced Projects Agency, was behind the creation of DNA & RNA vaccines, funding early R&D by Moderna Inc. & Inovio Pharmaceuticals at a time when the technologies were considered speculative by many scientists and investors.

PROJECT VERITAS: "Military documents state that EcoHealth Alliance, an NGO funded in part by the DoD, approached DARPA in March 2018 seeking funding to conduct gain of function research of bat borne coronaviruses. The proposal, named Project Defuse, was rejected by DARPA over safety concerns and the notion

that it violates the gain of function research moratorium. EcoHealth funneled Fauci's federal grant money to the Wuhan lab for coronavirus research."

What is EcoHealth? EcoHealth has a long and profitable relationship with the Pentagon, receiving over \$50 million in awards since fiscal year 2008. Founded under the name Wildlife Preservation Trust International in 1971 by British naturalist, author, and television personality Gerald Durrell, it became The Wildlife Trust in 1999. In the fall of 2010, the organization changed its name to EcoHealth Alliance to focus on health. They are aligned with Oxford University.

EcoHealth Alliance's funding comes mostly from U.S. federal agencies such as the Department of Defense, Department of Homeland Security, and U.S. Agency for International Development.

According to the documents, the NIH and NIAID, under the direction of Dr. Fauci, went ahead with the research in Wuhan, China and at several sites across the U.S - even after DARPA rejected it.

Dr. Fauci has repeatedly maintained, under oath, that the NIH and NIAID have not been involved in gain of function research with the EcoHealth Alliance program. But according to the documents obtained by Project Veritas which outline why EcoHealth Alliance's proposal was rejected, DARPA certainly classified the research as gain of function.

Major Murphy's report goes on to detail great concern over the COVID-19 gain of function program, the concealment of documents, the suppression of potential curatives, like Ivermectin and Hydroxychloroquine, and the mRNA vaccines.

Project Veritas reached out to DARPA for comment regarding the hidden documents and spoke with the Chief of Communications, Jared Adams, who said, "It doesn't sound normal to me," when asked about the way the documents were shrouded in secrecy. "If something resides in a classified setting, then it should be appropriately marked," Adams said. "I'm not at all familiar with unmarked documents that reside in a classified space, no."

In a video breaking this story published on Monday night, Project Veritas CEO, James O'Keefe, asked DARPA:

"Who at DARPA made the decision to bury the original report? They could have raised red flags to the Pentagon, the White House, or Congress, which may have prevented this entire pandemic that has led to the deaths of 5.4 million people worldwide and caused much pain and suffering to many millions more."

Dr. Anthony Fauci has not yet responded to a request for comment on this story.

Remember that it wasn't just Google - Mark Zuckerberg of Facebook was the "boy genius" of Harvard's social media project (funded by DARPA & the CIA) & IBM and the international "public-private" The Highlands Group. Groomed from the beginning...

Remember that Dr. Malone worked with DARPA and the CIA - so there are plenty of ties on all sides. The trick is to figure out who are the good guys and who are the bad guys.

Remember that Charles Lieber, the Harvard scientist and Chinese spy, who invented a virus sized transistor that can enter a cell, is tied to the Wuhan lab, Epstein, DARPA, the DoD, Fauci and Gates. IT IS ALL CONNECTED.

Today, DARPA is working on creating an implantable microchip that would monitor the human body for signs of the coronavirus. A new DARPA program aims to develop an implantable neural interface able to provide unprecedented signal resolution and data-transfer bandwidth between the human brain and the digital world. The goal is to achieve this communications link in a biocompatible device no larger than one cubic centimeter in size, roughly the volume of two nickels stacked back to back.

Wuhan scientists planned to release "skin-penetrating nanoparticles containing novel chimeric spike proteins" of coronaviruses into cave bats in Yunnan, China - 18 months before the pandemic. They also planned to create chimeric viruses, genetically enhanced to infect humans more easily and requested \$14 million from DARPA to fund the work.

USMC Major Joseph Murphy - COO of a DARPA project - warned the NIH under Fauci and Peter Daszak of the threat that EcoHealth's venture posed to the world. His warning was ignored & Wuhan's lab received Carte Blanche.

DARPA said it was too dangerous and refused to fund it. Fauci & the NIH went ahead anyway.

Fauci not only lied under oath - he asked DARPA for \$14 MILLION to fund his project.

DARPA rejected a \$14.2 million funding request from EcoHealth in 2018 because DARPA worried that the coronavirus experiment funding request could "potentially involve [gain-of-function] research" and "could have put local communities at risk."

Document from the DOD shows DARPA rejected the proposal from Ecohealth Alliance to study bat born coronaviruses in Wuhan that was later approved by Dr. Fauci's NIH because they feared it violated the gain of function moratorium.

**REJECTION OF DEFUSE PROJECT PROPOSAL**

---

Proposal Title: DEFUSE - Defusing the Threat of Bat-borne Coronaviruses (2018)  
 Proposal Identifier: HR001118S0017-PREEMPT-FP-019

Amounts Requested by EcoHealth Alliance:

Phase I	\$8,411,546
Phase II	\$5,797,699
<b>Total:</b>	<b>\$14,209,245</b>

---

**RESULT**

The DEFUSE proposed project by EHA was **rejected by DARPA**, although "if funding became available", certain components of particular interest could have gone ahead, subject to a clear contractual Dual Use Research of Concern (DURC) risk mitigation plan that includes a responsible communications plan.

I find it interesting that the end goal of the Ecohealth Alliance funding application to DARPA was to create an aerosolized "vaccine" for bats in caves. Is Omicron that product but for humans? **Did the good guys at DARPA release Omicron in an aerosol format to serve as a REAL vaccine for COVID and shut it down for good through**

**natural immunity? That's my guess. Omicron was likely Trump's military's vaccine they had been working on for four years.**

An application to work at the Wuhan Institute of Virology reveals that candidates must “support the leadership of the Communist Party of China” and be “willing to serve the socialist modernization.” Yet, Fauci sends American research grant money there!

DARPA awarded Pfizer \$7.7 million in 2013 to develop a new vaccine technology platform. DARPA awarded Moderna \$25 million for mRNA research and development in 2013.

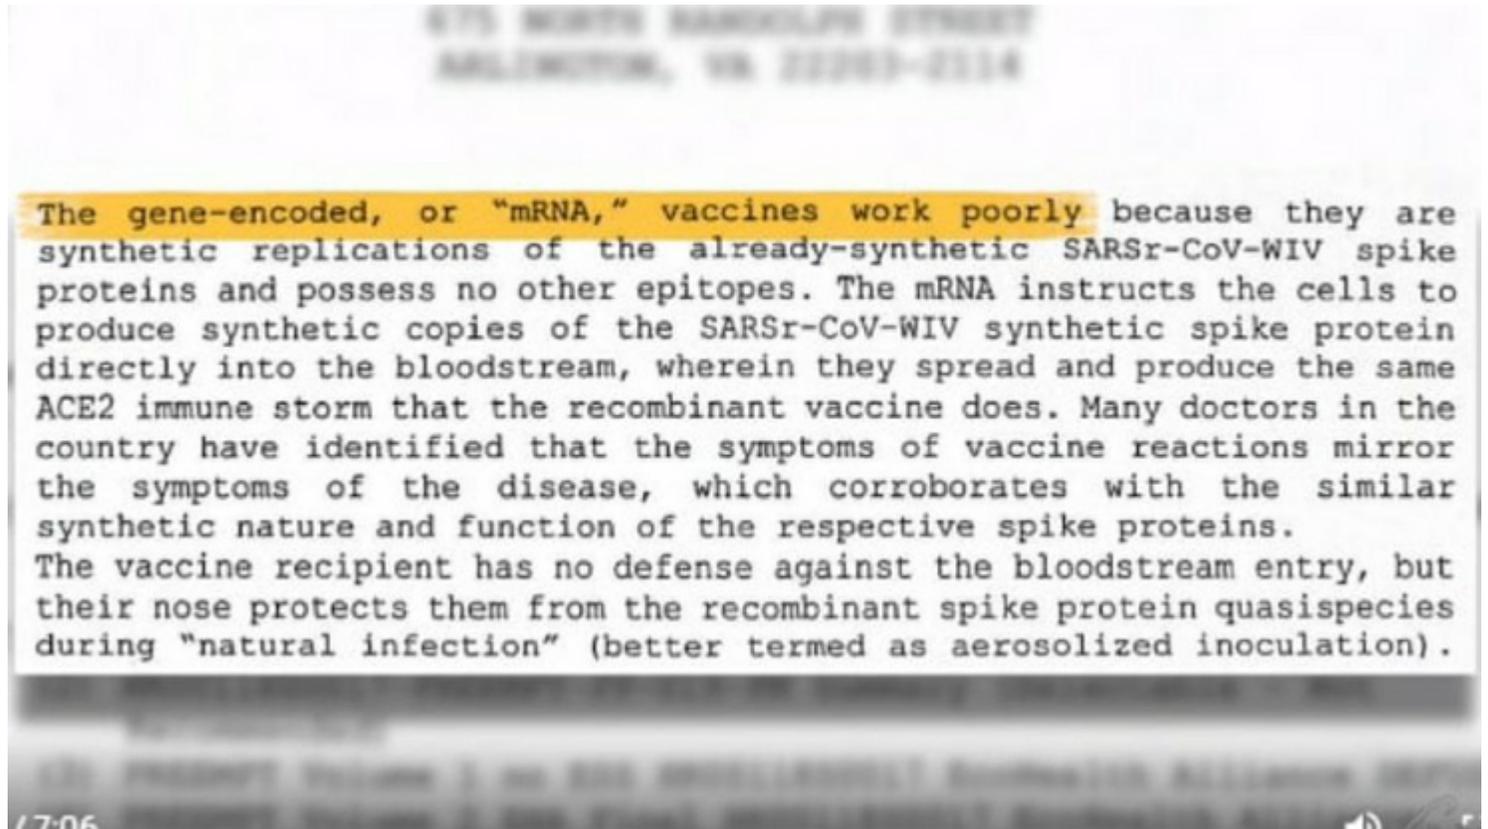

## **DARPA – Advancing mRNA therapies and vaccines for biodefense**

In October 2013, DARPA awarded Moderna up to approximately \$25 million to research and develop potential mRNA medicines as a part of DARPA's Autonomous Diagnostics to Enable Prevention and Therapeutics, or ADEPT, program, which is focused on assisting with the development of technologies to rapidly identify and respond to threats posed by natural and engineered diseases and toxins. This award followed an initial award from DARPA given in March 2013. The DARPA awards have been deployed primarily in support of our vaccine and antibody programs to protect against Chikungunya

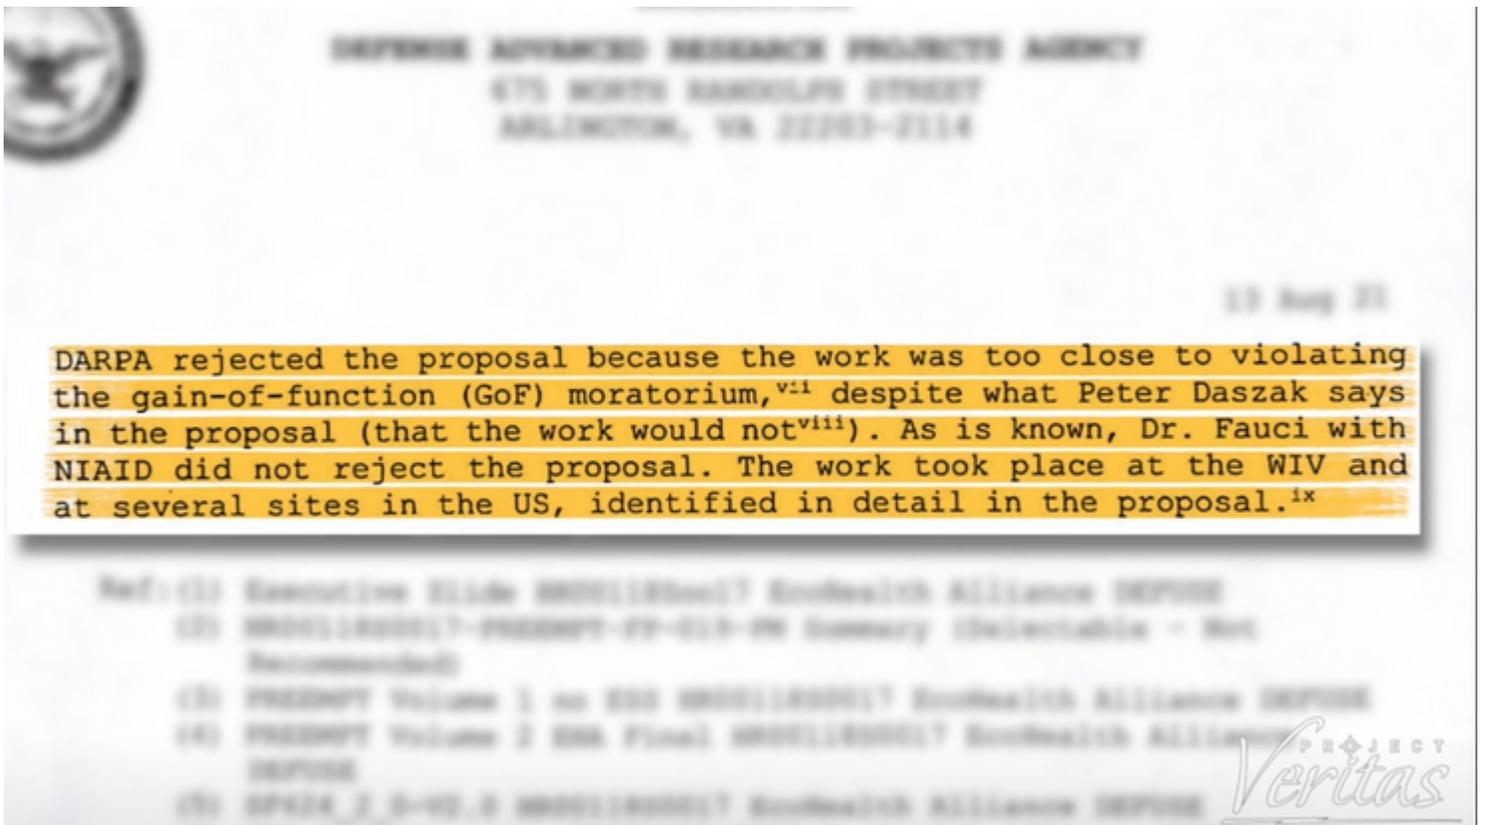

infection.

DARPA reported in 2019 that the mRNA vaccines work poorly against COVID - Fauci knew this. That's because COVID wasn't really a virus! It was an incomplete vaccine DESIGNED FOR BATS...

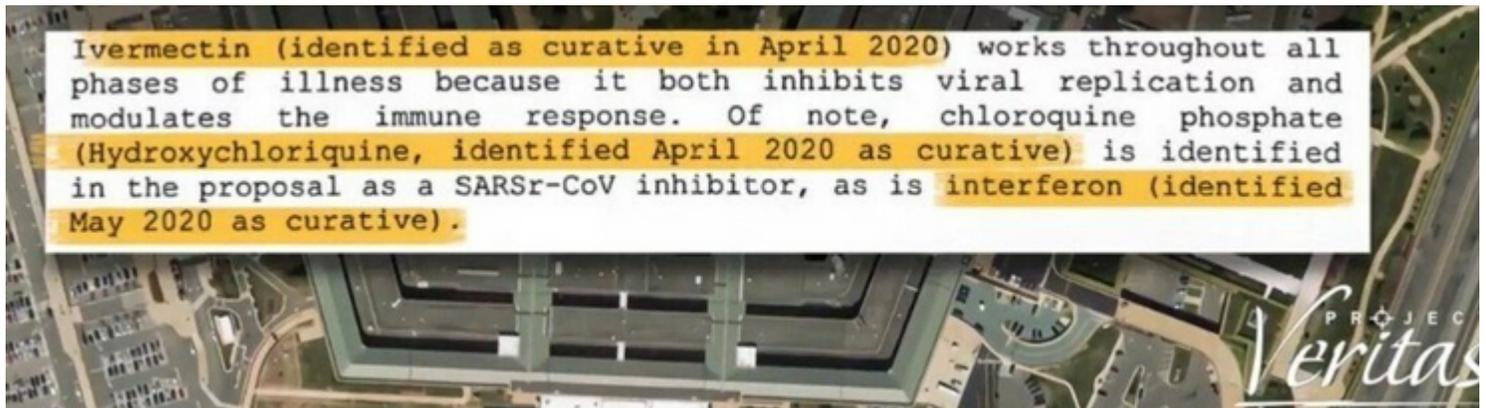

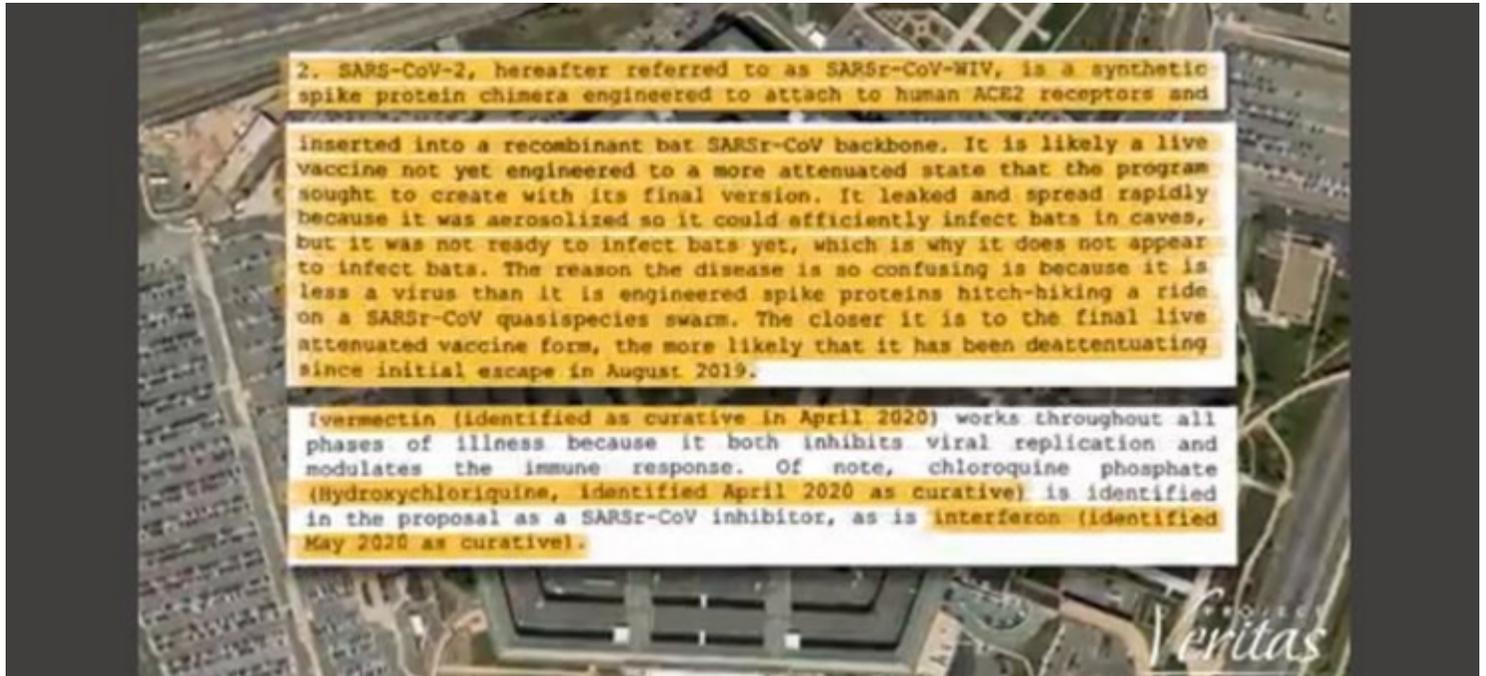

DARPA rejected coronavirus research at the Wuhan lab because it was "gain of function" - but Fauci funded it anyway...in Communist China and the United States.

DARPA said COVID is a synthetic spike protein vaccine (not really a virus) engineered to hitchhike on a virus and attach to human ACE2 receptors. It spread rapidly after it was leaked in August 2019 - because it was aerosolized. It is less a virus than a weak vaccine - LITERALLY designed for bats. That's the reason it is so confusing.

DARPA reported in April 2020 that Ivermectin, HCQ & Interferon work to stop viral replication in COVID.

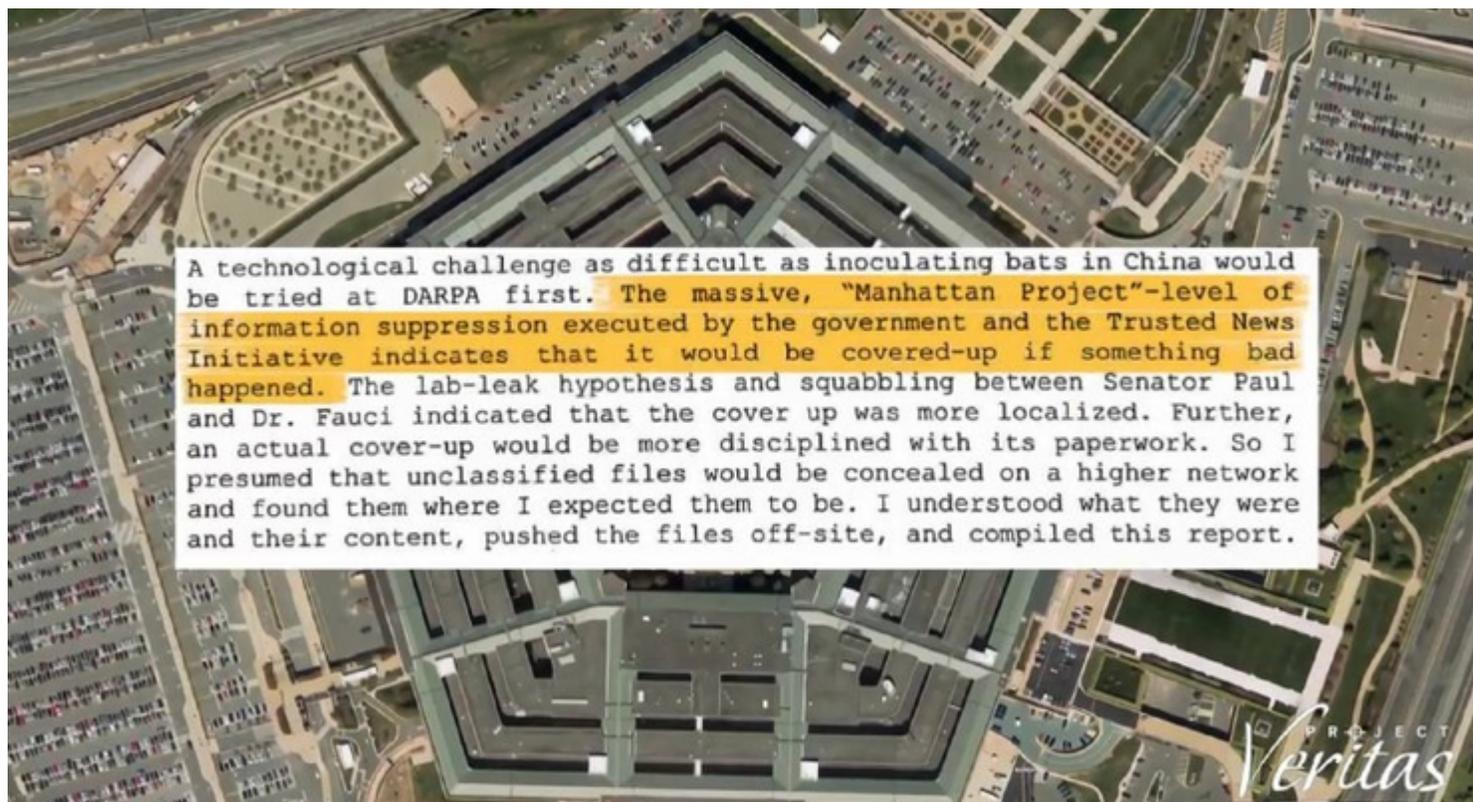

The Project Veritas report shows 'The Trusted News Initiative' or TNI would be activated "if something bad happened." The TNI included the BBC, Facebook, Reuters, AP, the Financial Times, Google, The Hindu, and The Wall Street Journal - among others - and they ALL agreed to censor the truth about COVID on a global scale.

BTW - I was the first to tie Fauci, Gates, Epstein, Obama, Lieber and the NIH to COVID and the Wuhan lab and explain that it was a scheme to push lockdowns to enslave us and cheat-by-mail to dump Trump and allow Communist China to invade Taiwan.

I published those predictions on March 8th, 2020. NOBODY else did. Nobody in the fake news would publish my work or even look further - even though it was all documented in public sources. I sent it to 300 news sites - over and over again. The TNI came after me!

Why was no one in the fake news interested in the truth? My report had over 1.5 MILLION views on Tierney Real News. This is one reason why I trust NO ONE in the media - they are all in on it. Now, many of them say - I knew this from the beginning. NO, you did not!

After Project Veritas' announcement, the GOP Oversight Committee released never before seen emails of NIAID Director Dr. Fauci showing he may have concealed information about COVID originating from the Wuhan lab & intentionally downplayed the lab leak theory.

Newly released US Government e-mails show internal beliefs that COVID was engineered. Anthony Fauci and NIH Director Francis Collins were informed that the natural origins of the virus were "highly unlikely." Then Fauci and Collins made sure to shut down that debate.

Dear Secretary Becerra:

We write to request a transcribed interview of Dr. Anthony Fauci, Director, U.S. National Institute of Allergy and Infectious Diseases (NIAID). Excerpts of emails we are making public today (see enclosed Appendix I) reveal that Dr. Fauci was warned of two things: (1) the potential that COVID-19 leaked from the Wuhan Institute Virology (WIV) and (2) the possibility that the virus was intentionally genetically manipulated. It is imperative we investigate if this information was conveyed to the rest of the government and whether this information would have changed the U.S. response to the pandemic.

Despite Dr. Fauci claiming otherwise on multiple occasions, he was, in fact, aware of the monetary relationship between NIAID, the U.S. National Institutes of Health (NIH), EcoHealth Alliance Inc. (EcoHealth), and the WIV by January 27, 2020.<sup>1</sup> Dr. Fauci also knew that NIAID worked with EcoHealth to craft a grant policy to sidestep the gain-of-function moratorium at the time.<sup>2</sup> This new policy, designed by EcoHealth and agreed to by NIAID, allowed EcoHealth to complete dangerous experiments on novel bat coronaviruses—with very little oversight—that would have otherwise been blocked by the moratorium.<sup>3</sup> In January 2020, Dr. Fauci was also aware that EcoHealth was not in compliance with the terms of its grant that funded the WIV.<sup>4</sup> EcoHealth was required to submit an annual progress report to NIAID by September 30, 2019, and had not yet done so.<sup>5</sup> The Committee subsequently learned that EcoHealth failed to submit these reports presumably to hide a gain-of-function experiment conducted on infectious and potentially lethal novel bat coronaviruses.<sup>6</sup>

By January 27, 2020, Dr. Fauci knew NIAID had funded EcoHealth, the WIV was a subgrantee of EcoHealth, and EcoHealth was not in compliance with its grant reporting, in particular a grant that NIAID knew had gain-of-function potential on novel bat coronaviruses. It

As we suspected, the mRNA Covid vaccine was a TEST RUN for using gene therapy to cure cancer and other genetic diseases. There is no way people would have taken it without the COVID "emergency."

I studied to be a genetic researcher 20 years ago as they were trying to perfect this technology. I learned back then, that in the WRONG HANDS, it has the potential to destroy mankind.

Excerpts of emails we are making public today (see enclosed Appendix B) reveal that Dr. Fauci was warned of two things: (1) the potential that COVID-19 leaked from the Wuhan Institute Virology (WIV) and (2) the possibility that the virus was intentionally genetically manipulated. By January 27, 2020, Dr. Fauci knew NIAID had funded EcoHealth, the WIV was a subsidiary of EcoHealth, and EcoHealth was not in compliance with its grant reporting, in particular a grant that NIAID knew had gain-of-function potential on novel bat coronavirus. It

authored a paper entitled "The Potential Origin of SARS-CoV-2" and sent a draft to Drs. Fauci and Collins.<sup>7</sup> Prior to final publication in *Nature Medicine*, the paper was sent to Dr. Fauci for editing and approval.<sup>8</sup> It is unclear what, if any, new evidence was presented or if the underlying science changed in that short period of time, but after speaking with Drs. Fauci and Collins, the authors abandoned their belief COVID-19 was the result of a laboratory leak. It is also unclear if Drs. Fauci or Collins edited the paper prior to publication.

On April 16, 2020, more than two months after the original conference call, Dr. Collins emailed Dr. Fauci expressing dismay that the *Nature Medicine* article—which they saw prior to publication and were given the opportunity to edit—did not address the lab leak hypothesis and asks if the NIH can do more to "put down" the lab leak hypothesis.<sup>9</sup> The next day—after Dr. Collins explicitly asked for more public pressure—Dr. Fauci cited the *Nature Medicine* paper from the White House podium likely in an effort to further stifle the hypothesis COVID-19 leaked from the WIV.<sup>10</sup>

Rather than be transparent with the Committee, HHS and NIH continue to hide, obfuscate, and shield the truth. By continuing to refuse to cooperate with our request, your agencies are choosing to hide information that will help inform the origins of the ongoing pandemic, prevent future pandemics, respond to future pandemics, restore the United States' current national security posture, and restore confidence in our public health experts. HHS and NIH's continued obstruction is likely to cause irreparable harm to the credibility of these agencies. The emails released today raise significant questions, including but not limited to:

- 1. Did Drs. Fauci or Collins warn anyone at the White House about the potential COVID-19 warning about WIV safety?
- 2. Would this warning have changed the early response to the COVID-19 pandemic?

These questions are vital to understanding this and future pandemic responses. Unfortunately, thus far, HHS and its subordinate agency have hidden behind redactions to shield these emails from public scrutiny. We call on you to immediately lift these redactions and produce the email communications to Congress. Further, considering the import of the above questions, we request Dr. Anthony Fauci be made immediately available to sit for a transcribed interview. Please respond by January 18, 2022 to confirm.

Thank you for your attention to this important matter.

T-cells from common colds can help protect against COVID. We know this. They know this.

People with high levels of T cells from common colds are less likely to catch COVID, according to a new peer-reviewed study. That means if you've had a cold in the past - caused by a coronavirus (one third of colds) - you have always been immune to COVID!

But they won't give us a test for this - because then we'd be wise!

Remember, DARPA isn't just working on viruses & vaccines. They fund climate change and social media. The military and DARPA have admitted that they can control the climate. It's NOT a conspiracy theory. HAARP can heat the air above a region. Imagine if you did that if a massive cold front was coming. You could create massive tornadoes or hurricanes. Just saying...

All this research is a GOOD thing if it protects Americans. It's a BAD thing in the wrong hands. That is the point everybody is missing.
