I wish people would focus on congress and staff exemption to vaccine. Where is the class action against special people status? what really pisses me off is I wrote congress people about adding me to their staff as an unpaid person so I would have that exemption but no one could bother to reply.

This is a mass brainwash op. It is so successful, most everyone I know that I had considered to be a bright thinker has tossed all common sense out the window in believing in the jab/mask theory. They won't even consider any alternatives and when you show facts to them, they still do not believe or see the indisputable truth in front of them. I am feeling more discouraged everyday. I am used to people calling me a conspiracy theorist from when I tried warning people Obummer was a socialist and a dangerous man, but this is a whole other level of denial. The facts are there but they will not be swayed from the narrative, I would call that brainwashed to say the least. I find that if I am to keep these relationships, I cannot talk about the elephant in the room or the conversation quickly falls apart. I would say this experiment has been amazingly successful and I never would have believed so many would have blindly bought into the BS.

Medical Review Boards and licensing boards hold the power to prevent certified practitioners from continuing their vocations. This is happening NOT just to MD's but to radiologists, nurse practitioners, beauticians, barbers, physical therapists, masseurs. Anyone who needs a license to earn a living and it has to STOP NOW.

This is the inevitable result of Gov interference in the Medical Field.
If (and this is a BIG if) there are no nefarious or financial influences in the Gov administration of medicine,
what happens if the gov "experts" are simply wrong?
With Centrally Controlled Medicine (or anything else for that matter) deadly incompetence is

forced upon us all
and we the people end up paying the price.
In this case, with our very lives...

The stats from the dod documents should be front page news across the world. This hearing should be shown on every network. Of course MSM is trash and not showing people vital information. Which is why most people see them as the enemy according to a Rasmussen poll. Where's project veritas on this? Maybe they did the story and I missed it. The fact they can continue this experiment, double down on it shows just how bad things really have gotten.

I give credit to everyone on the panel and everyone fighting in any way they can. At work or whatever the case may be, keep fighting and standing up. The truckers and medical freedom protestors, I thank you!

I have a friend who has an autoimmune problem who asked his Doctor and she said the same thing...I don't think you should take it, but if I give you an exemption I'll be fired. All she could add was that many of her patients who she felt should NOT get the vaccine had been vaccinated without complications. He had to be vaxed or lose his job 3 months from retirement..which would have reduced his retirement by thousands per month. Such BS.

I wonder what would happen if all those doctors stood up together for the sake of mankind and let themselves get fired? The health system would collapse, this whole scheme would collapse. It is the doctors in corporate settings who are threatened into silence and compliance, and it is exactly those big corporations who bought up independent doctors

and clinics. If those doctors all stood up and refused, the money flow would stop and their employers would be begging them to come back in no time. The pharmaceutical companies and the corporate bureaucrats aiding in their agenda are dependent on them to do their work.

Dr Aaron Kheriaty nailed it right when he stated that Doctors and Hospitals have compromised their ethical standards and put profit over principles. This is indeed corruption and companies like Pfizer need to be held accountable especially being a company who previously had to settle one of the largest lawsuits In US history for unethical behavior!

Buncha chickenshit doctors in California. You do what's right because it's the right thing to do. You don't do what's right because of the consequences of doing what's right make you feel like you did something wrong.

If every doctor in California did what's right and then every doctor lost their medical license to practice medicine, California is going to have a bigger problem of doctor shortages overnight.

The degree to which primary care physicians can be replaced by physicians assistants and nurse practitioners is astounding. It's already happened based on cost. It could be greatly accelerated based on ideology. Compliance with insurance reporting has already made it all but impossible for a doctor to truly be in a private practice. Large healthcare management corporations have the staff and software to comply with the reporting requirements and many of these are owned by the insurance companies that put the requirements in place that destroyed private practice physicians. The cabal of government, Big Pharma and insurance companies run US healthcare now.

These are the fraction of 1% who have been fighting the anti-science medical tyranny for the last two years the best they can. Losing their credentials to practice medicine would discredit them and they'd be unable to fight. Your ire is justified but should be directed to the 99+% of doctors who went along with the nonsensical tyranny to protect their careers and income. Many more doctors should have banded together. This is just an indication of how bad things are in the US healthcare system. Doctors are largely taught cookbook pill prescribing, so the establishment medical practitioners who are in Big Pharma sales aren't going to rock the boat. Like media and most people, they accept the "vaccines" on face value, based on their trust in the system.

This isn't about healthcare or the sanctity of life. This is about assimilation to Marxist globalists edicts. It's a proven fact the "vaccine" is a poison, ineffective, and can cause serious health issues including death. The proven cheap therapeutics are effective, have almost zero side effects, and save lives.

It's absurd that the people that have the authority to call out Fauci and to hold him accountable do nothing. Their inaction puts the blood of millions on their hands as well. We don't yet know the long term health effects of this "vaccine" poison. That blood is on their hands too.

What bullshit that is.

The social security funds go straight into the general treasury.

And we are 30 trillion in debt to the federal reserve.

That means there is no solvency anywhere.

And congress passes bills using more money than comes in every year to continue increasing the debt.

The government has the same choices individuals have.

Increase income, decrease spending, pay off the debt,

or file for bankruptcy

and start over.

The only other option is to abolish the federal reserve.

Which is what I expect they will do when they establish their global digital currency.

There are no funds anymore. I remember a huge uproar in Germany in the eighties when the government used funds from their Social Security fund to cover debt and said they would pay it back.  They are using threats and intimidation to stop doctors from practicing medicine
 And doing due diligence for their patients.
 The only thing they can do is a class action lawsuit.
 They must all stand up and say this is wrong.
 All of them.
 Those who threatened their license MUST be held to account.
 The cdc, the fda, and the nih are corrupt to the bone.
 They must be abolished.
 Its far better for the states to each have these kind of agencies than one central entity.
 And the government must stop granting funds for experimentation.
 The medical industry has lost its integrity. They can thank Anthony fauci for their debauchery.

They are ridiculously spinning anything that might not uphold their leftist agenda – so I knew she had become toxic – Similarity, we have entered the threshold – the people are not with yahoo, twitter, etc. It's one thing for them to absorb a few large accounts they take down but when everyone is turning to rumble, etc., the ole' capitalists heart comes out. The medical community was taken over by John D. Rockefeller when he discovered his oil could be used to make medicines. He gave birth to the AMA, Johns Hopkins and many others. Do the research.

The magnitude of this is simply stunning. Think of other demographic groups in the country who have been mandated to get vaxxed. Police, teachers, local government workers, ALL employees of ALL companies in cities with feckless mayors and city councils, education commissioners, and on, and on. This story is about just one demographic, albeit a large one, but still, if you step back and look at the forest... you can see it burning!

Just remember that a forest burns to regrow, we just have to get rid of the evasive Marxist species that threatens to take over the soil left behind.

Government imposed tyranny has created this scandemic. If doctors were allowed to practice medicine without restrictions, hundreds of thousands of lives would have been saved, the pandemic would be over, Trump would still be President, the GOP would control Congress, the economy would be thriving, inflation would be low, we would still be energy independent, life would be good. Big Pharma, Big Tech, and MSM have conspired to destroy our independence. Suck on that.

FDA Pulls Authorization for Antibody Treatment, Refuses to Answer Questions

“Because data show these treatments are highly unlikely to be active against the omicron variant, which is circulating at a very high frequency throughout the United States, these treatments are not authorized for use in any U.S. states, territories, and jurisdictions at this time,” it continues. “In the future, if patients in certain geographic regions are likely to be infected or exposed to a variant that is susceptible to these treatments, then use of these treatments may be authorized in these regions.”

the spread of variants proves the vax ineffective, but you have to take the jab . . .

09/14/2021 Biden’s team tightens grip on state use of Covid antibody treatments
Federal health officials plan to allocate specific amounts to each state under the new approach.

The Biden administration is imposing new limits on states’ ability to access to Covid-19 antibody treatments amid rising demand from GOP governors who have relied on the drug as a primary weapon against the virus.

Sep 20, 2021 — The federal government is in charge of distributing monoclonal antibody therapies because it owns much of the supply.

The Marxist XoeBama\$oro\$ Democrats have no problem with aborting babies and selling their body parts for profit so why would they have any problem allowing people to die in order to push the unsafe "emergency use " vaccine for profit and power. One acceptance of evil always leads to another.

"Courage is contagious. A critical mass of brave leaders is the foundation of an intentionally courageous culture. Every time we are brave with our lives, we make the people around us a little braver and our organizations bolder and stronger."

Face the evidence, there is a global Deep State at work and it is exercising its power to manipulate you. Even though they do not know how to contain or stop the WuHan Virus (Covid) they must act as if they are successfully managing the Virus. The mask, the restrictions and the vaccinations are all they can come up with. So, they must do this in order to not lose control over you.

Watched the video and found out, apparently most physicians are cowards. Just like cops worried about getting fired and supporting Nazi like measures, doctors are putting their own ability to have their job above their patients health.

If the government starts mandating euthanasia many of these same doctors who won't write Covid medical exemptions for people who desperately need them, many of them will line up to give the shots. I wish every coward physician out there being controlled the same way would read this, so you at least know there are some of us, many of us, that know you are cowards.

I still would not want to go to my local hospital or any hospital for that matter. Too many are still towing the party line. I don't feel like I would get the proper treatment. They're still clinging to their "covid protocols", which is to say, crappy treatment and biased treatments.

FDA Pulls Authorization for Antibody Treatment, Refuses to Answer Questions

"Without a shred of clinical data to support this action, Biden has forced trained medical professionals to choose between treating their patients or breaking the law," Gov. Ron DeSantis (R) said in response to the FDA's decree. "This indefensible edict takes treatment out of the hands of medical professionals and will cost some Americans their lives. There are real-world implications to Biden's medical authoritarianism – Americans' access to treatments is now subject to the whims of a failing president."

It's the other way: The companies engaged in the WEF took control over governments and it was planned long ago. They buy whom they need to have in power. The pharmaceutical companies have all the power right now. They dictate the path.

how many times has the market crashed, bankers robbed us, have those in charge been jailed? how many times have they been caught supporting drug cartels, influencing precious metals markets, etc? who in government oversees these crimes and puts a stop to it? oh, that's right, it's a crime to trade on insider information, but congress does it anyway, with the corporations knowing they're breaking the law too. they aren't here to care or help/protect us, America, our economy, the constitution.
