Steve Bannon recently interviewed an ex-BlackRock investment executive who has discovered disturbing evidence from the CDC's own data. (The [full interview is here.](#)) The BlackRock executive — Edward Dowd — “brought the receipts” as the saying goes.

Steve Kirsch has reviewed Edward Dowd's data in a wonderful Substack post that you simply must read.

### Ed Dowd: "Millennial age group, 25 to 44 experienced an 84% increase in excess mortality"

Overview Someone sent me this article: Edward Dowd on Future Recession, Shocking Findings in the CDC Covid Data and Democide which describes his appearance on War Room. That article says: "And the money chart is really Chart 4, which shows that the...

This might help explain why healthy 25 year old women are being hospitalized with blood clots in the brain — or why elite athletes are collapsing on the field every week on TV. Over 100 soccer players have suffered heart-related events in the last 12 months — as the lone voice of sanity in the soccer world, Matt Le Tissier, has highlighted.

You know the reason why this is happening. You're just not allowed to say it.

You're also not allowed to report about it if you're a journalist. That's because nearly the entire corporate media took money from the Biden Administration to push the vaccines to their audiences without disclosing it. Years from now, this will be remembered as the unforgivable sin of America's corporate media. This is why you lived through a vaccine telethon every day for almost two years in America. This is why journalists and TV anchors and TV executives sold their souls to Big Pharma and turned into drug pimps demanding that you get jabbed.

Kudos to the journalist Chris Pandolfo at Blaze Media for discovering this unprecedented breach of media ethics and reporting it:

In response to a FOIA request filed by TheBlaze, HHS revealed that it purchased advertising from major news networks including ABC, CBS, and NBC, as well as cable TV news stations Fox News, CNN, and MSNBC, legacy media publications including the New York Post, the Los Angeles Times, and the Washington Post, digital media companies like BuzzFeed News and Newsmax, and hundreds of local newspapers and TV stations. These outlets were collectively responsible for publishing countless articles and video segments regarding the vaccine that were nearly uniformly positive about the vaccine in terms of both its efficacy and safety.

You don't have to wonder why you don't see any American media outlets reporting on vaccine injuries, on heart inflammation in young kids, on athletes suddenly dying on the field, or the 55,000 pages of clinical data the FDA was forced to release on the Pfizer vaccine recently. They all just got caught taking \$1 billion dollars of taxpayer money from the Biden regime to lie about the efficacy and safety of experimental DNA-altering drugs. Trust me: they are not going to do any "investigate journalism" on themselves. Journalism is dead in America — and it's the corporate journalists who killed it.

Just read Pandolfo's list of media outlets again. This is not a partisan issue. The supposedly "conservative" TV news networks *colluded with the Biden regime for money too*. That's how conservative they really are. That's how much they care about you. They sold out — and *they sold you out*. It's time to turn them off forever. It's time to cancel them. If you continue to watch TV networks that do such things, then you deserve all the consequences.

Who is left to tell the truth? Who is discussing it? People like [Steve Kirsch](#) and [Igor Chudov](#) on Substack are doing real journalism. People like Dr. Naomi Wolf are leading the charge — she's organizing groups of volunteers to read through the FDA's document dump. We are all beginning to understand that a vast criminal conspiracy has ruined the lives of millions of people around the world.

Edward Dowd told Naomi Wolf [@DailyClout](#) when one party has defrauded a contract, then forms of immunity such as indemnification on biologic product safety become null and void. Independent of govt or media involvement, the entire program will go down as a matter of legal course.

The heroic Dr. Robert Malone is also reading through the FDA's 55,000 page dump of clinical trial information for the Pfizer vaccine, and he too sees a ray of light for millions of people injured by the new vaccines:

“What this [the FDA data dump] documents is the government has been well aware that they are not fully safe and has hidden this information from us. How that really matters for Pfizer is that the indemnification clauses require that Pfizer disclose known adverse events and this documentation demonstrates they didn't do so. So, a lot of the lawyers are licking their chops over this, because it seems to indicate a break in the veil, that may allow legal action, basically due to fraud and concealment of these risks from the general public.”

Let us hope and pray that it's true. Let's hope that we live to see Fauci and Collins and Birk arrested. Let's hope that we live to see Gates and Schwab and Bourla and Bancel brought to justice. Millions of people around the world are going to get sick and die early deaths in the coming years — and there's absolutely no doubt who's responsible.

We knew since the start that the "vaccines" were a Fraud - didn't we? - The "KillerJabs"

Pfizer makes \$54 Billion/year - literally to KILL people. Fauci is the 21st Century Joseph Mengele - except: much worse than Mengele. Klaus Schwab, the WEF, Joe Biden, all the Western governments are all in this Fraud, this Mass Murder operation: US, Canada, AUS, NZ, UK, Germany, France.

We need a Nuremberg Trials 2.0 and give all those who are responsible for this Genocide the deserved PUNISHMENT (as in the Nuremberg Trials of 1945).

One question remains: why Trump has been pushing these Killer"Vaccines" all along? - I would like to have a convincing answer on this. It is very disturbing.

To those questioning Trump's position on vaccines from their comfy hindsight armchairs, who are only responsible for their families, pets and MAYBE a couple of employees, not 330 million people: Remember the Gnome and Scarf Lady advising Trump AT THAT UNPRECEDENTED CRISIS TIME, with everyone assuring him of their brilliance. Trump did his best with, as we see now, a corrupt incompetent bureaucratic public health care system screaming in panic for PPEs and lockdowns. He is ONE man, people. ONE man. Expand your blame gaming.

I call this statement a "just musing" troll: "Mmm, wonder why Trump isn't denouncing the Jab? Because of pride? (You really mean "azzwhole.")"

Trump's personal experience with vaccination has not been illness and death. Neither has mine. Every inoculation has side effects. VAERS stats on the Jab are real and frightening. Trump has REPEATEDLY stated that each person needs to make their own decision on the Jab in conjunction with their doctor. Trump has been subjected to the same lies from Pharma, the CDC, WHO, NIH, BARDA etc as we all have and did his best despite the deafening panic and insubordination surrounding him.
