

And that's exactly what's happening with the non-stop media coverage of the war in Ukraine involving Russia.

As Americans remain fixated on and mesmerized by the war coverage, things are happening here at home under the radar.

The globalists and their technocrat partners in the private sector are working like busy beavers to set up the infrastructure for a universal digital ID system in line with what the United Nations has wanted for years.

It's called the SMART Health Card, and 21 states have already either adopted it or are well down the road toward adopting it.

It will be an app on your cellphone at first, with a QR Code that can be scanned to verify your identity and your vaccine history. Have you received one shot, two shots, three or four? The app will hand over your personal health information within seconds to whoever scans it. The system was developed in cooperation with MITRE, the quasi-military organization that **LeoHohmann.com alerted you to back on Nov. 3, 2021.**

“While the all-distracting war rages in Ukraine, technocrats at home are sneaking in a system of national vaccine passports with the disingenuous carrot that ‘Having digital access to personal health records empowers the individual,’” **writes Patrick Wood**, editor in chief of Technocracy.news and an expert on global technocracy and privacy issues.

Of course it's all lies.

“The polar opposite is true,” Wood said. “The data collectors are empowered while those from whom the data is extracted are tracked, analyzed and manipulated.

“It is likely not state legislatures letting this in, but rather the state governors and their respective health departments.”

And it's not just blue states embracing this “show your digital papers” technology, which will eventually be required to travel on a plane, a public bus or subway, or enter any store or entertainment venue.

SMART Health Card Accessibility by State

States that have rolled out SMART Health Cards

Coming Soon SMART Health Card

Created with Datawrapper

As you can see in the above graphic, Republican states including Utah, Mississippi, West Virginia, South Carolina, Oklahoma and Louisiana are all jumping on board with this global beast system. As an **article in Forbes Magazine** informed us last week, more red state governors are expected to join the pack, probably after they get past this year's elections in November.

This is the same beast system advocated by Klaus Schwab and the World Economic Forum, which has been working for over a year with MITRE and other tech companies on a universal system that could be recognized by every nation in the world.

Below is an excerpt from the Forbes article, which makes this system sound like the best thing to hit the world since sliced bread.

From Forbes Magazine

Even as the omicron variant loosens its grip on the world, destinations continue to require travelers to show proof of vaccination. And, increasingly, a paper CDC vaccination card is not cutting it.

While the United States government has not issued a federal digital vaccine pass, a national standard has nevertheless emerged. To date, 21 states, the District of Columbia and

Puerto Rico offer accessibility to the SMART Health Card, a verifiable digital proof of vaccination developed through the Vaccination Credential Initiative (VCI), a global coalition of public and private stakeholders including Microsoft, Salesforce, Oracle, the Mayo Clinic and other health and tech heavyweights.

And very soon, at least four more states will be rolling out access to SMART Health Cards. “We’ve seen a notable uptick in states that have officially launched public portals where individuals can get verifiable vaccination credentials in the form of SMART Health Cards with a QR code,” says Dr. Brian Anderson, co-founder of the VCI and chief digital health physician at MITRE.

There is already an impressively widespread availability of SMART Health Cards in the U.S. More than 200 million Americans can now download, print or store their vaccination records as a QR code. When the QR code is pulled up, only the individual’s name, date of birth and vaccination information is visible. No other medical information or personal data is shared. This code is also digitally signed to ensure that the card was issued from a verified location and to prevent forgery.

SMART Health Cards Ease Travel

For individuals, the benefits of having access to personal digital vaccine record is three-fold. First, it’s a huge plus for travel in the U.S. and abroad.

Many indoor cultural attractions and performance venues in the U.S. require proof of vaccination. “We believe it gives people peace of mind when the folks around them are unlikely to be contagious,” says Gus Warren, CEO of Bindle, a health verification app that allows venues to verify the vaccination status of patrons.

Bindle’s growing list of clients spans more than 30 states, from blue strongholds like California and New York to red leaners like Texas, Florida, Arkansas, Missouri and Georgia. At the Kennedy Center in Washington, D.C., for example, there’s a Bindle lane that offers fastpass-like efficiency in scanning QR codes from a number of vaccine verification platforms used around the world.

“The SMART Health Card is such an important development and the Vaccine Credential Initiative has been phenomenal in getting this out there,” says Warren, noting that while Bindle recognizes several interoperable standards, the SMART Health Card has emerged as the most important. “Absolutely, it has become the standard across the U.S. and North America.”

“And at an international level, we are continuing to see intense interest in a coordinated international approach,” says Anderson. “And that has not diminished at all. I think quite the opposite.”

To wit: Every Canadian province has now adopted SMART Health Card verification, as has Aruba, the Cayman Islands, Singapore and Japan. And in Africa, the SMART Health Card has rolled out in Kenya and Rwanda, just the first of 32 African countries in the “Smart Africa” alliance to adopt a digital-first approach to healthcare records.

The Case For Red States

The second argument for adopting a digital vaccine verification system is the one swaying red-state governors: Having digital access to personal health records empowers the individual.

More than a dozen states have launched their own SMART Health Card-based portals. At least seven others – including Arizona, Mississippi and West Virginia – have turned to a third-party, MyIRMobile, to issue SMART Health Cards. Minnesota has chosen Docket, another third-party option.

Most right-leaning states offering SMART Health Cards do it quietly, without any fanfare. But big red South Carolina expects to roll out a portal for SMART Health Cards by the end of March, reports Politico.

“This isn’t a passport,” South Carolina’s director of immunizations told *Politico*. “This is essentially a Covid card that people get at their convenience because it’s their record.”

They plodded along for decades, and now suddenly the globalists are hell-bent on getting their technocratic controls in place as quickly as possible. Why the hurry?

Our fiat-based currency won't hold out much longer is my guess. We would have to deal with it either way, but the “free world leaders” want their golden parachutes. The system cannot be saved, but they hope to save their positions on top.

Another system is our only hope. This is a battle of banks. Not bullets or ballots.
Yes, it is spiritual, but the Bible orders us to work. Pray and labor too. 2 Thessalonians 3.

Why the hurry? Because satan knows his time is short. He fills and controls unsaved
globalists and they are doing his will.

Rev 12:12

Therefore rejoice, you heavens and you who dwell in them! But woe to the earth and the
sea, because the devil has gone down to you! He is filled with fury, because he knows
that his time is short.”

While everyone is distracted with the Ukraine—here are some bills before the Canadian Parliament going even further into tyranny with digital IDs and may be copied by the US Congress or some fed bureaucracy. Beware! Recently Homeland Security has redefined “domestic terrorists” as anyone who doubts the government narrative on covid vaccines, election fraud, etc. That’s probably not the end of the story.

And there you have it. They will not stop, until they are stopped. I’m reminded of that scene from the Terminator where Reese is explaining the situation to Sarah Connor:

It's to soften us up for Gates's crypto currency (which measures movements of the human body) linked to that so-called vaccine he has waiting "that will be visible as a patch on your hand or forehead."

Thanks Leo!....I had a "CELL" phone from approx 2010-2012....That's been it and I'm NOT getting another one! (Remember Mr. Obama before he left was giving away Cell-phones like pancakes for signing up with his "ObummerCare?...Now we know why!)... Screw their QR Codes and Con vid piss ports and shove all their mandates and womandates and I'm now popping my popcorn getting ready to watch grampa stutter box drool over his podium trying to sound good reading his teleprompter... All before he poops his pants again!

RE: Horrifying. How do we stay out of the system?

Monica, in simple child-like faith in your Father's infinite love for you, trust and obey His Gospel's life-saving commandments (i.e. Luke 9:23-; Revelation 18:4-; Philippians 2:12-13). Repentant from being the Beast's digitally-marked property, by coming out of Socialism's abominable Security System.

I live in a town with lots of amish people, what do you think will happen to them?

★ Like

john shaphat

March 2, 2022 at 4:03 pm

Amish people do not have birth certificates or social security cards. This is because Amish babies are born at home and within the Amish community so they see no need for either of these Socialist documents. In 1965, Congress passed a law giving certain Amish and Mennonite religious orders the Biblical right to opt-out of Social Security, Medicaid, and a host of other Marxist Beast's government benefits.

The Amish are smart to keep themselves free of the government socialist welfare systems. And they pay cash for their medical treatments. However, our government still taxes them and harasses them in other ways. Nobody is completely free from the government oversight.

“This isn’t a passport,” South Carolina’s director of immunizations told Politico. “This is essentially a Covid card that people get at their convenience because it’s their record.”

Ah yes, what a wonderful attempt at doublespeak director. Of course it’s just a “Covid card”, albeit a digital one, that will be required to buy, sell, etc.

They really believe we are all fools.

Any state within Socialism’s Security System that agrees to the Marxist Beast’s SMART Health Card is a sellout to its digitally-identified (SS#) citizens; especially for red states that claim to stand for individual humanist rights. It’s digital slavery for us dependent-wards, who are secured from cradle to grave, within the globalist biomedical security state of the Beast’s eugenic welfare system.

Fight the future

March 7, 2022 at 12:41 am

Just remember one thing: tyranny isn't done by psychopaths at the top, it's done by your neighbors. A plan is just a plan until the dumb sheeple start following it then it becomes powerful and can be forced down everyone else's throats. If everyone told them to buzz off with the jabs then the passport thing wouldn't work. If everyone pulled their money out of banks and stopped using credit cards then we would have power not the banks. If everyone cancelled FB and twitter they would go out of business. It's your neighbors that are the problem. They are too dumb/lazy to do the right thing. George Carlin said it best: "the public sucks".
