Giving COVID vaccine to kids under five does not 'make sense' in most cases, says Dr. Makary

Makary says most children 'already immune' through past infections

By Fox News Staff | Fox News

Dr. Makary on COVID vaccines for young kids: 'We're talking about immunizing those who are already immune'

Fox News contributor Dr. Marty Makary discredits the White House's push to vaccinate young children against COVID-19, citing that most have already contracted the virus.

Fox News contributor Dr. Marty Makary pushed back against White House COVID response coordinator Dr. Ashish Jha's calls for [children under age five to be vaccinated](#) against COVID-19. Makary told ["Fox & Friends First"](#) host Todd Piro Monday it "does not make sense" for most kids and that giving vaccinations to this age group would mean immunizing 80 to 90 percent who are already immune to the virus.

BIDEN ADMIN SAYS COVID VACCINE MAY BE AVAILABLE TO CHILDREN UNDER 5 BY LATE JUNE

DR. MARTY MAKARY: *For kids with a special medical condition, I would say it's a good idea [to get vaccinated] [if they've not had COVID](#) in the past, but for the vast majority of healthy kids, the case may be there, but it's certainly not compelling. If you look at the fact that 75% of kids had COVID as of a CDC study back in February and Omicron has been ubiquitous since then, 80 to 90 plus percent of kids have already had COVID. So we're talking about immunizing those who are already immune for a lot of people. That just does not make sense.*

Only makes sense if the goal is to make a child's innate immune system ineffective the rest of their life.

A child is born with an immature immune system. It needs exposure to virus' to strengthen. *(Edited)*

Giving the covid vaccine to anyone now does not make sense. The virus has morphed into less dangerous types that the vaccine does not prevent.

Why inject your kid with poison? The vaccine never worked. I know so many people vaxxed and boosted that have had Covid twice post vaxx. Tell me how it's effective? With a 99% survival rate, there is no need for a vaccine. The unvaccinated members of our family have only had it once.

Covid is DONE. All you are doing is making the vaccine makers wealthy and the politicians taking money from them.

Giving a Covid vaccine to any healthy person under the age of 65 doesn't make sense, given it doesn't really work.

These people even thinking about giving this bio weapon to children need to be arrested for crimes against humanity. Pharmaceuticals creating and making this bio weapon needs to be arrested. We need justice against this insanity.

This is all about money. The more vaccine Pfizer sells the higher there stock price goes. Every politician in Washington is heavily invested in Pfizer stock.

Bernie would be proud if this Ponzi scheme!

The last thing anyone needs is any experimental mRNA gene therapy jab, and especially not children!!! The strong delusion that has gripped the nation & now world is miraculous. No doubt, we are living in the last days as predicted by Jesus.
