Dr. David Martin Exposes the Names and Faces of the People Who Are Killing Humanity
Red Pill Expo, November 19, 2021

If you thought the last Dr David Martin talk was exciting, this one, which he gave at the Red Pill Expo is positively electrifying.

He says that this is “final” speech but that we will be hearing from him, only it will be a new version: No more Mr Nice Guy. We get to see a bit of that in this presentation. He is angry.

David has put the names and faces of all of the major players in the theater of the COVID War onto one slide, which he says is important, because “We energize the forces of darkness when we anonymize them and when we see their faces on a screen, we realize that they’re merely individuals that have lost the social contract with humanity.”

The purpose of this talk is to de-mystify the "they" of the COVID War.

THE COVID PRIVATEERS

"How many of you are familiar with the company, Anser? I love having this moment. Do you know they are the single largest contractor in the entire COVID terrorism campaign?..."

"The companies on the right, that you think are the ones running this show [Pfizer, Moderna, Johnson & Johnson, Merck Ridgeback, Gilead Sciences], are in fact a front [for the companies on the left, Anser, Fors-Marsh, Palantir, Publicis Sapien].

"And you know what a front organization is? They're the ones that are supposed to take the flack and take the heat. The ones on the left are the ones that actually got the money. Operation Warp Speed went to Anser.

"You didn't know that, because you were told by the media that it went to Pfizer, Moderna, Johnson & Johnson and all that kind of stuff. That's not true. The prime contract of Operation Warp Speed went through Anser, a company none of you had heard of!

"And you didn't hear about them because the contract was signed by ATI, a company based in South Carolina, a company whose history has been government defense contracts for the purposes of propaganda! I wish I made that up. The prime contractor selected to run Operation Warp Speed was a propaganda expert for the US Department of Defense...

"Anser is the way for the Federal Government never to be liable for the criminal conspiracy they know they ran. They are now one of the top ten Federal Contractors in history, below Lockheed-Martin, Raytheon and all those guys.

"Those names you know. You don't know Anser, the single company that, by COVID rose – the highest-ranked rise in the history of federal contracting; the highest single-year rise, ever was Anser – and none of you know who they are!..."

"Anser Corporation, they're the ones running Operation Warp Speed and they've been set up to shield these manufacturers from ever taking the financial liability for their willful misconduct. And one day, everybody's gonna go, 'Let's sue Pfizer! Let's go sue everybody else! And the only problem is when we go to sue them, they say, 'Hey! It wasn't us!' And they're right and all of us were asleep. And I'm talking to a woke crowd, here and all of you were asleep.

"Don't tell me you're awake if you're still sleeping, because if you didn't know who Anser is, you're still asleep!

IT GETS WORSE...

"It gets worse. Fors-Marsh, anybody know Fors-Marsh?...They're the branding agency that branded COVID. They're the ones who make sure we find hospitals that are overrun with people. They're the ones who find kids that died of COVID right before the FDA needs to vote on giving kids injections. They're the ones that go around the world, making sure every message is always the same: 'We will not return to normal until we have a vaccine.' Thank you, Justin Trudeau! Where'd you get the script? From Fors-Marsh! And how many of you knew that? None of ya!

"How about Palantir? Hey, that's a weird one, isn't it? Peter Thiel, who has successfully run a company that has lost \$200 million plus, every year for about seven or eight years, goes public in the middle of COVID. Isn't timing interesting? Isn't it fascinating that a company that's done nothing but lose billions

of dollars goes public in the middle of the worst economic cycle we've had? Isn't that funny? And did you actually go back and read their public offering? Hah! Funny! I know you didn't, because there really wasn't one, that's why you didn't read it!

"Because they went public in this very bizarre, backdoor way of actually selling founder's stock into the market, so we got personally-enriched – personally-enriched – using the public market as the laundering facility. Isn't that brilliant?

"But let's look at what they did for our COVID scandal. They actually came up with a thing called Gotham Data Tracking...you know what that does? That's making sure that every time you turn your phone on, when you get off the plane, when you cross the state line, it gives you a little tag that goes, 'Hey, do you want a COVID alert in your neighborhood?' You know why? Because you are being monitored. Your phone is being monitored. Your transactions are being monitored, your credit cards are being monitored, your health behavior's being monitored, your vaccine status is being monitored and it's all done under the contract run by Gotham Data Sciences, the company that went public during COVID – and none of you knew about this.

"And you've been to Red Pills! And you still haven't taken the Red Pill! And by the way, I'm not even to the good slide, yet. So be depressed! 'Cause it's getting worse!

"Publicis Sapien, the Health and Human Services' IT contract. Have you ever wondered how the data never seems to add up? Somebody always has allegedly the same reportable data?

"Publicis Sapien has the Health and Human Services' IT contract to consolidate all of the data, so guess what happens? Everybody has the same number of COVID cases to report, when somebody from the media calls and says, 'Hey, how many cases do we have?' 'Oh, 40,000'. 'Oh, round number, 40,000'...

"When, in the course of human history has a round number involving the word 'thousand' ever happened? There's never been a 10,000 heart day, there's never been a round number day – until you actually control the Department of Health and Human Services' entire IT platform and not one of you knows that that's a single contract, run by Publicis Sapien...

"You've been focused on the right hand side the whole time and the left hand side is doing the dirty work.

THE COVID PIRATES

"Now, why do I call them 'privateers'? How many are familiar with the difference between a pirate and a privateer? Pirates go rape and marauding and stealing and...a privateer is the same thing, that has permission to do it by a government that's gone corrupt. That's what these are (points to the slide of COVID contractors). They're the privateers. But hey, since we have privateers, it feels only appropriate that if we have a world of privateers, we should also...have a world of pirates. And here's our pirates."

New slide shows the universities who've been involved in the COVID War: UNC Chapel Hill, Vanderbilt, Emory, Johns Hopkins, University of California System, MIT, NYU Langone, DZIF, Imperial College, IHME, Erasmus Medical Center.

"Pirates. UNC Chapel Hill, I talked about that. That's the guy who actually made the weapon, Ralph Baric. Since 1999, \$100 million to weaponize the particles of coronavirus. Over \$100 million. You've heard about \$3.7 million going to Wuhan – ohhhh – 3.7 million, that feels like a bad number.

"And how 'bout \$28 billion of that coming from DARPA for their bioweapons initiative? Anybody heard

of \$28 billion that went through Anthony Fauci at NIAID? Anyone hear about the \$20 billion that went directly to UNC Chapel Hill, that weaponized spike protein?

"You haven't heard about that, you haven't heard about that because we've been talking about \$3.7 million going to Wuhan. Stop being distracted by the cover story!...Because the distraction is where the interesting thing is.

"UNC Chapel Hill, Vanderbilt, Emory, Johns Hopkins and University of California: those are the pirates that have made the most money on federally-granted, disclosed money going into the university sector. I'm calling them 'pirates' for a very good reason. They justify all of this in the name of science and education...

"I don't even care whether these people pretend to hide behind the 'It's an academic research project' to try and get out of the bioweapons definition. The bioweapons definition says that if you enable a foreign entity to build something known to harm humanity, you have already created a felony, you are going to jail for the rest of your life and you are liable for \$100 million penalty.

"So guess what? Welcome to Hell, all five of these universities! Because they're all felons! All of 'em!

"And how 'bout the right hand side? MIT, New York University Langone – hey, by the way, Langone? Where did that name come from? Ken Langone? Anybody? Oh! I'm not supposed to say that name out loud, Ken Langone, except I just did, didn't I? Ken Langone...

"They're actually putting their name on the letterhead and you don't know who to look for! You're still being told, 'Oh, it's the Rothschilds and it's the Rockefellers!

"No, it's not! It's the guy who put his name on the facility! How many of you know who Ken Langone is? Guess what? Look it up! Because that's a pretty big thing that you should be aware of and unfortunately, you're not aware of it, for a very good reason because he hid it in plain site, on the name of the medical center. New York University Langone, like that's a really hard thing to find.

"DZIF Charité...you've heard of Dr Christian Drosten, the Crazy-in-Chief in Germany who's kind of Anthony Fauci and Ralph Baric's evil stepchild, Imperial College, the criminal conspirators who came up with the fear porn of how many people were going to die, IHME, the University of Washington program, but the one I want to bring your attention to is the one at the bottom, Erasmus Medical Center.

"Bart Haagmans...In 2002, Bart Haagmans was an interesting dude, because he actually figured out a way to build a bunch of patents around the vaccines for the coronavirus. Mysteriously, the European Union in 2012 started giving him massive, massive grants to run a thing called Zapi.

"And Zapi was the zoonotic disease transmission laboratory for the European Union. And Bart seemed to always get the money. Now, this is fascinating because Bart was also the one who decided to patent MERS. The Middle Eastern Respiratory Syndrome, remember that one? The one that never really happened but kinda happened in 2012-13? Bart was the one that patented MERS...

"Erasmus Medical Center, actually, in their public statement, when they were confronted with the lie, where they said that they hadn't filed a patent on the actual genome – kinda like the CDC said in 2007 – when confronted with the lie, they said in public – and you can't make this sh:t up, People, it's so funny! They said, 'Well, what we said was not entirely false in all jurisdictions in the world.'

THE COVID ORCHESTRA

"But this, Ladies and Gentlemen is the slide you wanted to see. This is actually the names and faces of

the people who are, in fact killing humanity. And that's ALL of them. Now, here's the bad news: There's a lot of people on that slide, aren't there? Here's the better news...I'll actually give you all this slide, because why not? Lets make sure that we don't ever forget the names and the faces of the people who decided to kill us..."

Here is a list of all the people in that slide:

- Mukesh D. Ambani, Chairman, Reliance Industries
- Peter Brabeck-Letmathe, Vice-Chairman of the Board of Trustees WEF
- Mark Carney, UN Special Envoy for Climate Action
- Chrystia Freeland, Deputy Prime Minister and Minister of Finance, Canada

- Robert Mercer, Renaissance Fund
- Larry Page, Google
- Al Gore, Environmentalist

- Christine Lagarde, President, European Central Bank
- Peter Maurer, President, Red Cross
- Patrice Motsepe, Chairman, African Rainbow Minerals
- Julie Sweet, CEO, Accenture
- Heizo Takenaka, Economist

· Dustin Moskovitz, Open Philanthropy

David continues, "I want you to have some looks on there. Some are kind of interesting, like cellist Yo-Yo Ma. Did you hear me say that? Cellist, Yo-Yo Ma.

"How about the head of the Wellcome Trust? Not surprising, there, right? How about Princess Rania of Jordan? Ooh, that's weird.

"How about the woman who happens to be sitting at the helm of the leadership of the government of Canada but conveniently out of sight but running 100% of the money for the government of Canada.

"How about all of these interesting people like, Jim Hagemann Snabe, how about Zhu Min, Chairman of the National Institute of Financial Research in China?

"And what makes these individuals interesting is that when you look at them, you find out something very important. Almost none of them have sought public visibility. Isn't that funny? Which makes me pick on one of them. The guy I have here, at the bottom corner. And I have to give him credit. He has done so much to stay out of sight.

"I've got 12 minutes left. I've got to spend a couple of minutes on the guy who's paid every search engine optimization to keep his name out of search engines and I'm doing it so that it costs him sh!tloads to keep all of you silent.

DUSTIN MOSKOVITZ: EDITING THE HUMAN GENOME

"So let's get really clear on Dustin Moskovitz. Shall we, Dustin Moskovitz?...You little piece of sh!t! Let's talk about him for a minute. The Co-Founder of Facebook that you've never heard of...also the guy who founded Open Philanthropy, who was the actual check-writer for Event201. You were told that it was the World Economic Forum. You were told it was the Bill and Melinda Gates Foundation. You were told it was Johns Hopkins University. But the actual check that cleared for the program was signed by none other than Dustin Moskovitz...

"Now, I'm picking on him for a good reason. He's a felon, he's a criminal. He is one of the most sociopathic, psychopathic, crazy people walking the planet and he's paid to keep his name in private. So guess what? Don't let him! The reason why I want to give you this slide is because I want every one of them named. I want them all publicly named.

"Because it's time that we start going through the reality of saying, 'We the People are not going to let mass-murderers get away anonymously mass-murdering people. We are not going to allow that to happen! Not on our watch! And that's why you have this slide...

"But let's go back to Dustin. Isn't it interesting that Dustin conveniently decided to shroud this entire public health crisis in a self-serving, self-interested investment objective? He owns Sherlock biosciences. Sherlock Biosciences happens to be the company that owns the CRISPR technology that is the joint venture between the United States and China on gene editing the human genome...

"Dustin Moskovitz knew that if he actually tried to take this technology into the public, nobody would be willing to do it, particularly, given the fact that it's a JV [joint venture] between him and the government of China. That's the reason why we'd have a problem with it. Because it feels like eugenics. You know why it feels like eugenics? Because it is eugenics, that's why it feels like it! That's why it feels like Cold Spring Harbor Labs...

"The only way we could get gene editing technology approved was with an Emergency Use

Authorization. Not surprisingly, once everybody was distracted on vaccines and everybody was distracted on RTPCR and everybody was distracted on everything else, Sherlock Biosciences slipped their Emergency Use Authorization application into the FDA – and got it. In other words, using the cover of COVID, which all of us are pretending to talk about, the editing of the human genome was approved and not one of us said a thing.

“Now, if you were going to edit the human genome, do you think you’d need a good cover story to actually hide what you’re really doing? You’d probably find the guy who has the biggest financial interest in doing it and make sure, that while everyone is looking over at coronavirus and COVID and trying to figure out these Lab Leak Hypothesis – there’s no Lab Leak Hypothesis, because there’s no lab leak!

“So stop taking about lab leaks! there is no lab leak. This is the willful weaponization of a spike protein, that’s what it is. It’s an act of war, it’s not a leak. We need to start calling it what it is. It’s an act of war. It’s an act of war against humanity.

“We stop pretending to take their bait and follow their stupid rabbit trails and follow stupid rabbit trails into stupid rabbit holes and wonder why there’s a bunch of pee and piss and poo that smells like rabbit warrens. Well, it smells like it because that’s what you find at the end of a rabbit trail.

“We need to be focused on the point and people like Dustin Moskovitz and this slide is going to be shared with everyone in this room, because it is incumbent on you. Now you know. Now you must act. Because when we talk about the ‘they’, we empower the ‘they’.

“But when we talk about the names of people, we humanize the sociopathic behavior. We humanize the fact that there are individuals and organizations that are willfully murdering the humanity that we know and love and we cannot let that hapen on our watch. It is incumbent on all us to get those words out.”

Watch the full presentation below:

THE COVID CONSPIRING STATES

The next slide shows the countries of the US, Canada, UK, Germany, South Africa, China and Australia and the logos of the following corporations: BlackRock, AXA, HSBC, International Monetary Fund, United Healthcare, Insurance Corporation of British Columbia.

David says, “The most important part of this slide is what I put in the Atlantic Ocean, because the real nation-state isn’t a nation-state. Listen!...The Treaty of Westphalia, the stupid idea of drawing lines on maps and calling them countries has long been dead.

“The real control is that,” (points to the slide), “what I call the ‘Atlantic Coalition of Doom.’ The Atlantic Coalition of Doom: BlackRock, AXA, the International Monetary Fund, HSBC, ICBC and you guessed it, United Healthcare...”

“United Healthcare is a corrupt organization. It is a corrupt organization. It must be called what it is. It is actually the most manipulative corporate structures known to humanity, because what it does is it matches life insurance and insurance products with the delivery of healthcare, so they can so what? Manage your health? Oh-ho-ho no! Bet against the timing of your death.

“That’s the internal arbitrage. It is the wet dream of the Lloyd’s of London syndicate. They would have loved to have had this opportunity. But guess what? They didn’t. United Healthcare did. They put two things together, which means they get to manage your life so they can time your death, so they can profit on both.”

The truth is, Canada is owned by the US \$ hegemony. Canadians are caught in this trap because most ALL Canadian politicians, corporations, banks, etc. are directly involved in the US Financial Market.

The Canadian govt is fully corrupt and has always been, but with Trudeau it is the worst it has ever been. I do believe he is one of those "useful idiots" Yuri Bezmenov spoke of, who will soon, no longer be of value to the global order he serves and will be devoured. Dr. Martin you are a lifeline for humanity. I look forward to all the is coming from you through fullyliveacademy.com and "We the People" must take responsibility for what we have allowed these evil murderers to do and continue to get away with. Our eyes are wide open. We must take action to stop them. I look forward to learning how.

Why wouldn't he? Are you really so deluded? Do you want me to remind you who signed "operation warp speed"? The initiative that brought weaponized injections on the market? Give me a break. Trump would do this with no hesitation, he wouldn't even blink. If you think he's any better you're being naive like a 10 years old child.

Mr T hasn't stopped talking about Operation Warp Speed. He's very proud of it. He signed some Executive Order. Some of those Universities were involved in Gain-of-Function experiments during his Presidency in an alliance with Dr Fauci. Why didn't we see Dr Fs name on that list? During his Presidency he took \$1M from the WHO & gave it to GAVI to research the vaxxes made. Why is he always telling people GLOBALLY to get the shot, long after VAERS & other data bases and Alternative Newsers & Podcasts gave out 100s of 1000s of CV Vaxx deaths and disease injuries? IF Mr T was referring to HCQ or any other remedy as a form of Vaxx, no one would've known that. Many times he encouraged the vaxx, no other remedy was mentioned at all. How many people who listened to him went out & got the shot, but they're now dead or maimed because they heard Mr T tell them to get the shot? Don't see how he's going to be able to avoid Nuremberg Trials 2.0. The list of "States" involved that incl. USA, Canada, UK, Sth Africa & Australia, but didn't include New Zealand. How so? Saw the black stamp shape of NZ on that slide though? The NZ PM (J. Ardern) is on a list of 10,000 who have attended the WEF Globalist Leaders Class. As of Dec 3rd NZ launches a new Traffic light system - the 3 colours getting different restrictions for different provinces ONLY FOR THE VAXXED. THE UNVAXXED ARE EXCLUDED. it won't be long before the unvaxxed are rounded up by Military trucks & sent to Quarantine/ concentration camps. She wrote on FB ..."and they may never come back out"...you know...how globalists have to tell you first, then they do it if no one stops them.

I agree what globalist agenda proponents are ordering is very concerning, and the people need to step up to rise above this. Gain-of-function research was conducted long before Trump's admin. Look into Chapel Hill and other BSL-4 labs in the US.

Trump surrounded himself with Deep State and criminals. He just has an awful knack for selecting cads. He was quickly roped into their agenda. He campaigned about starting an official vaccine inquiry project but shortly after taking office, Bill Gates, who was worried about it, talked to Trump and Trump decided to not do the vaccine inquiry after all.

Trump kept Fauci and all the leftists around him, never fired them, and allowed them to take much of the control, and he went along with them, and soon became a cheerleader for the vax. There is just something simple-minded about him and it allowed him to be used despite, maybe, him genuinely wanting to do what he thought was right, and despite having his own opinion going into office. He becomes quite pliable when people have direct access to him.

Changes his mind every 10 mns, depending on who he last spoke, to is how many of his "advisors" described him. And so lost, he was constantly firing and rehiring advisors, if you recall, like a pouty child.

He sounded just like a used car salesman every time he spoke. Whatever his "intentions" or rather ambitions were (and are), how people can't see that he's just another useful idiot whose strings are pulled by people far smarter than himself, like Bush Jr, is beyond me.

He was known well enough back in the '80s. Even though the recent Village Voice editor tries to back pedal to protect Fauci's reputation so people comply this time, the anger in this letter about Fauci's incompetence speaks volumes.

Not surprised but sad. The whole of society around the world has been tragically duped by very wealthy and evil people. No one group or entity should be able to orchestrate a global fiasco such as this "pandemic". I had a lot of skepticism from the beginning. I'm no expert at anything but it didn't pass my sniff test. I am not taken seriously because everyone I know thinks that any attempt to discredit our federal agencies are all debunked conspiracy theories.

My friends and family largely taken in. I warned them but hardly anyone took any notice. The things we have to bear. Never mind, it will all come out in the wash as they say.

People are rightly furious at the lack of exposure for these truths, but know that it's a process. If the light switch was instantly turned on for the world to see, it would be catastrophic. For most people, this changes their entire world view, so it has to be done slowly, and with empathy and understanding for those who will discover they've been duped. It starts with the non-vaccinated and the vaccinated embracing each other not vilifying each other. Sure it's frustrating, and people are dying, but this has massive, historical significance and the baby steps that are being taken are very deliberate and permanent. Spread the word wisely, and never stop.

Wasn't able to find a way to reach David so I'll comment here.

Almost everybody is completely ignoring the real motive (in my opinion), for example, we eat 11 million pounds of food per MINUTE (huffpost cites worldfoodclock cites two other sources). GET THIS folks: They have a reasonable rationalization, we humans always do. A more predictable world economic system via fertility reduction in the job.

What if one of the elites decided to confess? Might they say something like this?

You don't know what's driving us because you don't want to think about it.

We're saving you from yourselves. Key to reducing the number of children per family from 2.4 worldwide or the planet would not survive with **237,328 new consumers per day****.

Everyone is knee-jerk-reactionary so the few stronger doses crippling & killing people directly are working fine to throw hound dogs off the scent. Most everyone thinks we're trying to kill directly and not good at it hahahahaha.

No, **this is** super compassionate on our part, far better than war, simply **reducing the likelihood of conception** in the vast majority, mainly, plus more babies dying in the womb instead of ever taking a breath and exhaling CO2. If you little people were smart, you would have been telling each other about the **lipids that accumulate in ovaries**. And the **uterine/prostate cancers** developing. But we

don't have to worry about you waking up or being smart. You sit around calling each other names. You don't even wonder what's in those lipids.

Did you think this planet had infinite room for the continuously expanding farms needed without burning more forests?

Earth is too beautiful to let unrestrained sex drives ruin it.

***UN World Population Dashboard, do the math, current population x growth rate 1.1 / 100 / 365*

[Again, we eat 5.8 billion pounds of food per day, think maybe elites might want a more stable worldwide economy given limits on expanding at such a rate ??? ... 237,328 new consumers per day, 9,888 per HOUR]
