# Evidence of Election Fraud & Foreign Election Interference

UPDATED 8/13/21: Lindell's team presented data to show that President Trump won the swing states of Minnesota, Georgia, Michigan, Pennsylvania, Nevada, Wisconsin & Arizona by hundreds of thousands of votes - and received a far greater number of votes in most other states than were recorded. They also introduced a whistleblower out of Colorado who has concrete proof that the voting machines were wiped clean & passwords leaked to bad actors. There were several excellent presentations showing how they steal elections using voting machines, absentee ballots, rigged registration lists and many other tricks. A multi-layered and multi-faceted analysis of voter fraud that all came to the same conclusions!

Dr. Frank showed a recap of how they cheat in elections. They've been doing this for YEARS to hand pick winners & usurp the will of the people.

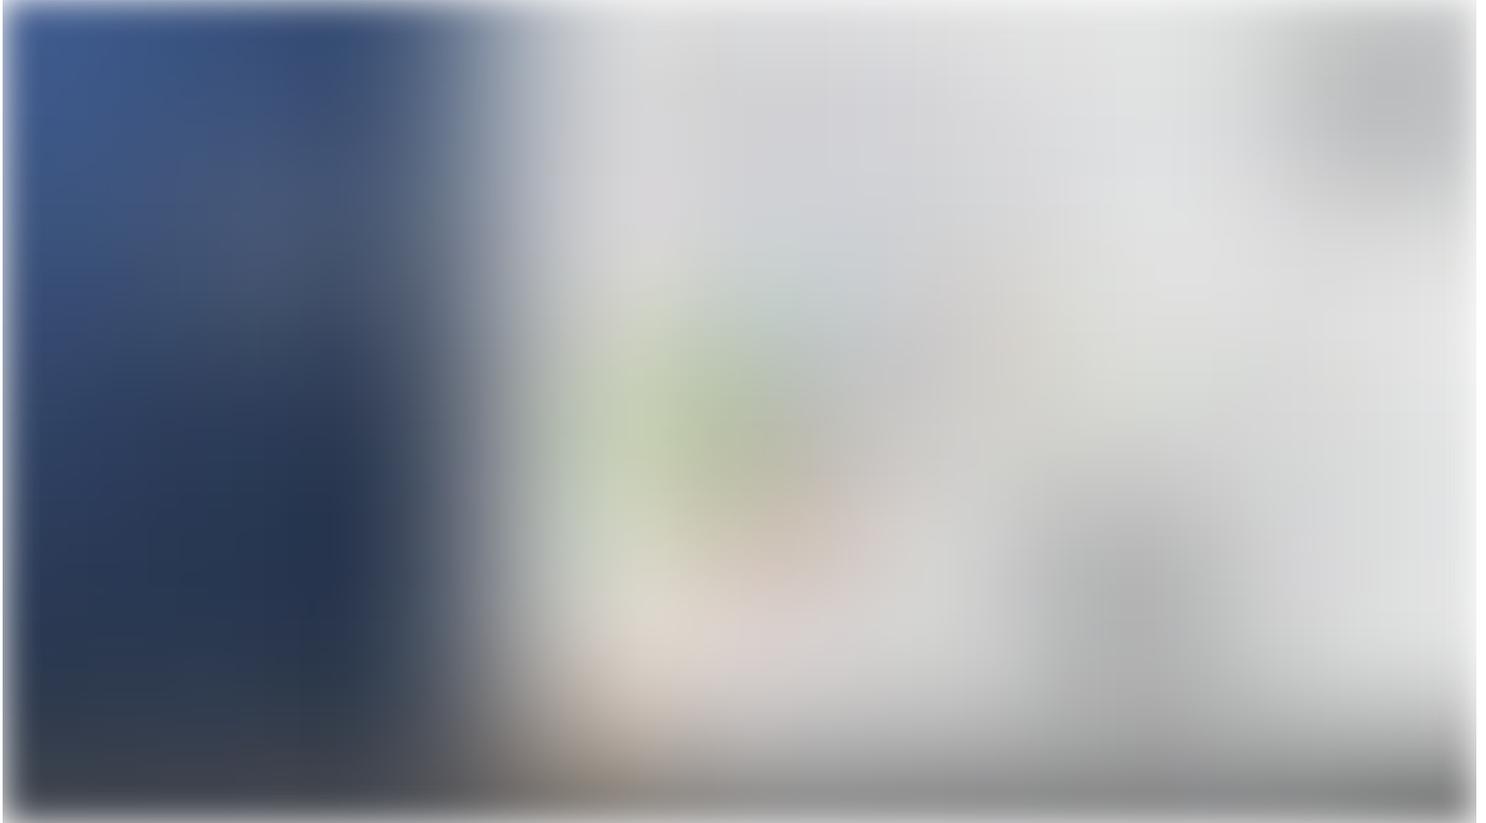

<https://rumble.com/vkynsx-2010-census-was-used-to-fabricate-and-inflate-the-2020-vote.html>

First they use the last Census to estimate how many votes they need to win by precinct. Then they create a fake voter registration list filled with phantom voters they can draw from. Then they program voting machines (or create absentee ballots) to deliver that result. During the election, they hack machines & databases to adjust the result as votes come in - to make sure they are still winning. After the election, they pair last minute voter IDs with the phantom list and delete evidence of the fraud. Actually, if you're an experienced hacker & IT guru - this is pretty easy.

That's why they need so much time BEFORE and AFTER elections to "count" the vote. To create phantom voters before hand, inject the fraud and clean up the evidence afterward.

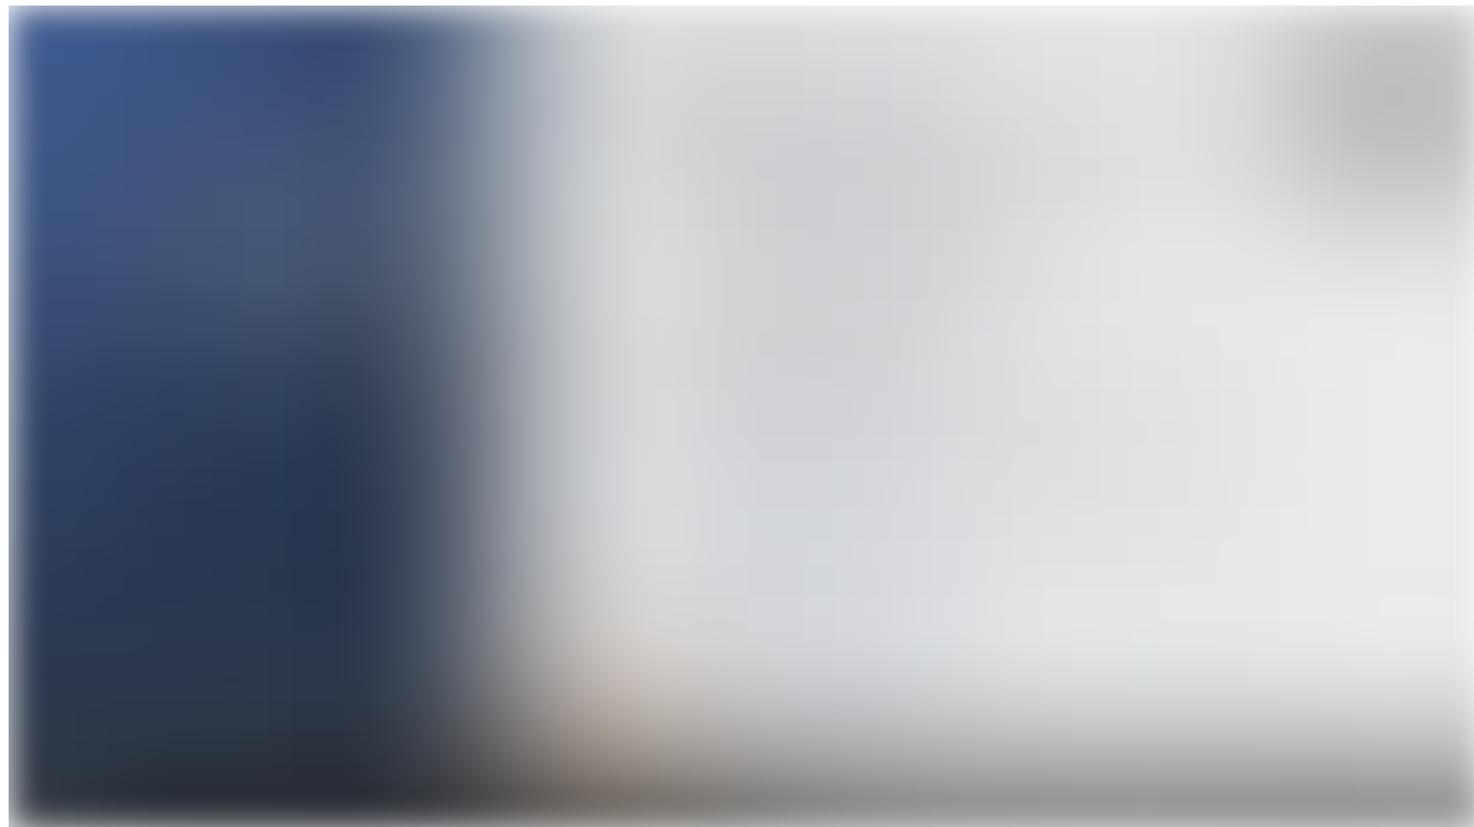

They also said that the voting machine companies had different configurations for their machines before, during and after the election. Anybody checking the configuration of the machines before the election would find that all internet access, modems, etc. were turned OFF.

Just before the election, under the guise of 'updating and testing' the machines, the configuration was changed to turn all the internet capabilities & modems ON. Then once the election was over, and in case anybody checked, they turned the internet settings & modems back OFF again. Sounds like what I heard from election judges & poll watchers that I trust.

“How did Trump win in 2016? If the machines are rigged?”

Answer: “He won by so much that the algorithms couldn’t adjust to it, they did not set up enough phantom voters and didn’t prepare their illegal voter rolls in 2016. In 2020, they knew what was coming and were able to adjust.”

Bannon gave a great speech at Lindell's symposium. Basically he said that if you think the Communists & coup plotters have shown their worst on election fraud, you haven't seen anything yet. They're going to weaponize everything to undermine the will of the American people. If they really won the 2020 election, they'd be rubbing it in your faces every day. They'd show you the routers, they'd show you the databases - they'd show you everything and rub it in your face and say "HAHA, we got 81 million votes and you didn't."

Why aren't they doing that? Because they don't have the receipts. They know they didn't win. There is no 2022 or 2024 until we get to the bottom of 2020. The state legislatures failed. They had the Constitutional authority to not certify a fraudulent election. They didn't do their jobs. There are three things that we need to get to the bottom of - November 3rd, the China virus and January 6th. And we need forensic audits in all 50 states. We the People need to stand up and not back down until it's done - or we will NOT have a country left! The world is watching!

UPDATED 8/7/21: President Trump said Seth Keshel, a respected military elections expert, has produced information that shows over 8 MILLION fraudulent votes were awarded to Biden. To see Seth Keshel's reports on election fraud go to: <https://electionfraud20.org/seth-keshel-reports/>

UPDATED 7/27/21: Mike Lindell announced his Cyber Symposium will be held in South Dakota on August 10-12 where he will reveal the packet captures to prove the election was stolen. He's offering \$5 MILLION to an IT professional who can prove his data is wrong. At the same time, FEMA & the FCC announced they are going to do a test of the EBS on August 11th - right in the middle of the symposium. Seems odd! Lindell says he has the receipts

and implied that he can even prove that President Trump won California. Lindell said Fox News won't even report on his event so he's buying ads on the network to promote it. Meanwhile, Wisconsin, Georgia & Pennsylvania appear ready to start forensic audits. Even Texas & Florida are considering audits in certain counties.

UPDATED 7/25/21: President Trump said the early results out of the Arizona audit are "shocking and determinative" and will prove that the election was stolen & that Biden must "return the diamonds." He said we can't worry about 2022 or 2024 until we fix 2020 because if we don't - we won't have a country left.

UPDATED 6/17/21: John Droz, an independent physicist working on election integrity with Sidney Powell and others, has generated 10 major election-related reports - more than any other group in the country. You can find his group's reports here: <https://election-integrity.info/>

They recently released a Recommendations Report - the most comprehensive analysis of the US election integrity issue ever published by anyone.

UPDATED 6/13/21: The audit in Arizona is underway and 12 other states are looking to audit their own elections. Biden's DOJ is trying to figure out a way to stop them all. Trump thanked Rudy Giuliani for making the audits happen & thanked Mike Lindell as a hero for pursuing machine fraud. Mike Lindell said his next step is - after all of the data they captured in the internet packets on election night is verified - he is going to have a worldwide Cyber-Tech Symposium and invite all the world's leading cyber IT experts to examine the packets.

That way he'll not only have a group of insiders to verify the packets, he will have the world's leading cyber experts on board as well. Brilliant. IT experts have told me they won't believe what's in the packets unless they see it themselves. Now they will get their chance. Then he is going to live-stream a mock election and show the world exactly how they stole it, step by step.

UPDATED 1/30/21 with REPORT outlining Pennsylvania, Georgia & Arizona data analysis that exposes widespread election fraud. [This presentation was done by a team of data scientists and programmers](#) with experience working for the US Navy, the CIA, the National Counter-Terrorism Center, and a Big-Four Accounting Firm. These numbers have NEVER been refuted.

UPDATED 1/24/21: REPORT added showing effect of ZUCKERBERG funding on voter tabulation

UPDATED 1/18/21: 3 NEW PDFs added on election fraud data

The fake news keeps telling you there's no evidence of voter fraud or foreign election interference & social media BANS anyone who says there is. Dominion & Smartmatic's lawyers are doing everything they can to suppress the truth! Here are several reports & intelligence assessments proving otherwise. I will be updating this post regularly as more information is made available so please bookmark it.

The latest analysis reveals the following illegal votes found by swing state compared to the alleged margin of "victory" for Biden:

Arizona: 254,722 illegal votes/10,457 margin of victory

Georgia: 601,130/11,779

Michigan: 446,803/154,818

Nevada: 220,008/33,596

Pennsylvania: 991,467/81,660

Wisconsin: 553,872/20,682

As you can see, this isn't a handful of illegal votes. In these 6 states alone, they found over 2.5 MILLION illegal votes ABOVE the margin of victory of 300,000. Analysts are compiling the same information for OTHER states - like Minnesota & California - where many believe the results have been rigged for years. There are 28 states using voting machines, hooked to the internet, capable of manipulating results. Ask yourself why the courts, election officials & Congress don't want YOU to see this well-documented evidence of widespread election fraud.

There are dozens more reports like this and THOUSANDS of affidavits & data analysis.

NONE of the courts would even review this evidence. NONE of the media would report this evidence. Congress REFUSED to look at it and REFUSED to honor the State Legislature requests to audit their elections before certification. Instead, it was stripped from the internet, and we were shut down and shut up while Congress hurried up and certified a fraudulent election before the American people could find out they'd been conned - and then blamed the "Capitol riots" - which they planned - as an excuse. Wake up.

**Please send this evidence to everyone you know. Mike Lindell has asked us to. I am blocked on Facebook & Twitter - Parler & Gab are both down. I've done all I can. Now it's up to you. If you know how, download these PDFs and save them on your hard drive before they disappear off the internet.**

Two years ago, I warned the GOP that Democrats would use voter fraud to steal the 2020 election. I wrote a 200 page slide presentation and presented it to over 350 Republicans - then it was sent to the White House. Read this.

In March 2020, I warned the GOP that Democrats would use COVID to force cheat-by-mail and steal the 2020 election. That's exactly what they did. I wrote this and sent it to every news organization. Did I have insider information? NO. I used common sense & the brain God gave me.
