

"This Is Not Science!" - Dr. Naomi Wolf Reveals the Tactics Pfizer Used to Overtly Skew Their Clinical Trial Data

"They didn't let them report the actual side effects."

In her never-ending quest to expose Pharma's crimes against humanity, [Dr. Naomi Wolf](#) joined [Steve Bannon](#) on the [War Room](#) to discuss two new reports up on [dailyclout.io](#).

First, Pfizer's internal trials used a phone app for self-reporting instead of doing actual clinical science. That's awfully suspicious. [Dr. Naomi Wolf](#) goes into detail.

“And so this is called the [TrialMax App](#) that Pfizer used to collect data on their internal trial participants. And the question that the volunteers raised in examining this data in the Pfizer documents is **why were so few participants in Pfizer's COVID-19 stage three trial required to submit daily side effects?**, They just skipped over that, and Pfizer only allowed them to report certain side effects that were common! They didn't let them report the actual side effects. Talk about skewing the scientific result you're gonna get. If your head falls off, just don't tell us about it. Also, it's up to you to report it, but we're [Pfizer] not requiring that you update us. So this is not science!”

Secondly, Pfizer excluded unfavorable participants from their stage three trials. These groups include:

- People older than 85 years of age, meaning those who are most likely to die of COVID even after an injection.
- People with other medical or psychiatric conditions, including recent or active suicidal ideation or behavior.

- Those with any lab abnormality that may increase the risk of steady participation.
- People with a history of a severe adverse reaction associated with a vaccine and/or have had a previous severe allergic reaction.
- Those with bleeding diathesis, a condition associated with prolonged bleeding.
- People who have had problems with intramuscular injection.

Dr. Naomi Wolf adds she “can go on and on.” “They excluded them!”

So not so surprisingly, Pfizer explicitly skewed their clinical trial data for the purposes of obtaining the desired results. And even with these cherry-picked subjects, there is a seemingly endless collection of damning data that they wanted to hide from the public for [75 years](#).

My problem with Naomi is that she's still under a hypnosis...

She thinks it's a Chinese conspiracy because a Chinese company worked with biontech

Ok, but that's free market... They can buy stock etc...

And when an "am wake up" (show on rokfin) host brought up how us DARPA was involved with the mRNA research, and how would they not know that there are Chinese interests that pose a risk, she played dumb... She said she couldn't comment because she didn't know that.

And rinse and repeat, next interviews, same China bullcrap.

Even if it's china's plan to push these vaccines, why did our nation not stop it after the bad issues?

Ugh, she's either brainwashed to think the USA would never do this, heck she voted Biden and now seems to be on the right, like a programmed impulse to think bad vs good, when they're all crooks and liars.

It's just unreal the level of spotlighting corruption, obfuscation and outright lies these

it's just unreal the level of gaslighting, corruption, obfuscation and outright lies these corporations and governments are getting away with. The psychopaths will keep escalating the abuse until enough of We the People dissolve the internal conflict of the cognitive dissonance and speak out about what's going on.
