CNN medical analyst Dr. Lean Wen admits the so-called science she demanded the public comply with has impaired her young son.

Wen championed mask and vaccine mandates throughout the pandemic, insisted children be forced to take PCR tests weekly until they are fully vaccinated and called for the unvaccinated to be banned from participating in society.

Just months ago, Wen, the former Commissioner of the Baltimore City Health Department and former head of Planned Parenthood, urged the Biden administration to “further restrict the activities of the unvaccinated.”

“I wish that [Biden] would go further to restrict the activities of the unvaccinated because they are the ones who are still spreading COVID and prolonging the pandemic for all of us.” she **said** in December.

Wen has **warned**, “We can’t trust the unvaccinated” while blaming those who refrained from getting jabbed for igniting a covid “surge.”

While peddling lies on the network that airs wall-to-wall coverage of propaganda promoting the hazardous experimental gene-modifying injections, Wen called for unvaccinated Americans to be banned from participating in society and proposed forced PCR testing for the non-compliant twice a week.

“It needs to be hard for people to remain unvaccinated,” Wen **impugned** last year. “Right now, it’s kind of the opposite.”

“It will be important to say, ‘Hey, you can opt-out, but if you want to opt-out, you have to sign these forms, you have to get twice-weekly testing,’” she added.

Wen was also adamant that children returning to school be required to wear industrial-grade face masks and take weekly PCR tests until they are fully “vaccinated” with the substance that irrefutably causes strokes, myocarditis, blood clots and array of lethal health complications.

Many of us saw through the lies surrounding covid from the start.

Others, like Wen, exploited and capitalized on ignorance and fear. Biowarfare and the predator class provide them an opportunity to practice unhinged totalitarianism and line their pockets by selling hate and lies.

But no one escapes karma.

**In an op-ed published by the Washington Post, Wen confesses the “science” she and Big Brother demanded we trust is harmful and damaged her son’s cognitive development.**

“I’m a doctor. Here’s why my kids won’t wear masks this school year,” states the title of Wen’s editorial that was published on Tuesday.

**“Masking has harmed our son’s language development, and limiting both kids’ extracurriculars and social interactions would negatively affect their childhood and hinder my and my husband’s ability to work,” Wen admitted.**

Many on Twitter have asked--how did I go from being extremely cautious with **#covid19** precautions for nearly two years to now resuming pre-pandemic activities, including not masking my young kids at school?

I explain in this [@postopinions](#) column :

washingtonpost.com  
Opinion | I’m a doctor. Here’s why my kids won’t wear masks this school year.  
It wasn’t easy to change my mind-set to accept covid-19 ...

“With this new, indefinite time frame, the benefit-risk calculus of mitigation measures shifted dramatically. I was willing to limit my children’s activities for a year or two but not for their entire childhood,” she continued.

For many, it’s evident that a faceless society, where everyone wears germ-ridden pieces of fabric across their faces to no avail, would impede the emotional, psychological, cognitive and physiological development of formative children.

Speech therapists have seen an alarming spike in the number of babies and toddlers patients who are speech delayed.

Mask wearing has caused a 364% increase in patient referrals of babies and toddlers, explained speech therapist Jaclyn Theek.

A speech therapist says her clinic has seen a "364% increase in patient referrals of babies and toddlers"

"For some kids, they can workaround the mask and still learn to speak perfectly fine, but for others, it can cause speech delays"

### More from **Summit News**:

Another study **revealed** how mean IQ scores of young children born during the pandemic have tumbled by as much as 22 points while verbal, motor and cognitive performance have all suffered as a result of lockdown.

A **study published in the Royal Society Open Science journal** found that lockdowns in the UK caused around 60,000 children to suffer clinical depression.

Figures show that 400,000 British children were referred to mental health specialists last year for things like eating disorders and self-harm.

Education experts **have asserted** that forcing schoolchildren to wear face masks has caused long lasting psychological trauma.

An Ofsted report also warned of **serious delays in learning** caused by lockdown restrictions.

“Children turning two years old will have been surrounded by adults wearing masks for their whole lives and have therefore been unable to see lip movements or mouth shapes as regularly,” states the **report**.

Another study out of Germany which found that the **reading ability of children has plummeted** compared to pre-COVID times thanks to lockdown policies that led to the closure of schools.

But millions across the country continue mask up and comply with lies told by tyrannical CNN analysts and Planned Parenthood while Google, which is **partnered** with the World Health Organization to stop the spread of covid “misinformation,” continues to buries facts in its search engine.

Wen’s op-ed detailing how mask wearing has harmed her son comes days after talk radio show host Dan Bongino revealed his decision to get covid vaccinated is ‘the greatest regret’ of his life.

## Dan Bongino Reveals Why Getting COVID Vaccinated Is ‘The Greatest Regret Of My Life’
