

FAVORITES**Exclusive: Proof that Israel found serious safety problems with the COVID vaccines then deliberately covered it up**

Israel didn't start to gather safety data until a year into the vaccine program. They gathered 6 months worth of data and found that the vaccines weren't safe so they lied to the world about it.

**Steve Kirsch**

Sep 2

Dr. Sharon Alroy-Preis, the Health Ministry's head of public services and a top COVID adviser to the Israeli government, has no problem withholding vital safety information about the COVID vaccines to make them appear to be safe. Why didn't they release the original presentation made by the safety team? There needs to be an investigation ASAP into what happened, but the head of the MoH, Nitzan Horowitz, isn't calling for one. Is he corrupt too?

This is the most IMPORTANT article I've written to date

This is the most important article on my Substack (which has over 700 articles). This one article has enough information regarding both harms and corruption that it should bring down the house of cards **if there is just one honest person in a position of authority in the world.**

Ed

@edthetechie · 2h

Replying to @stkirsch

The rarest creature on Earth in 2022 is an honest person in authority. Even the Loch Ness Monster, Big Foot and Yetis are more numerous...

The single most important point is this:

We now have proof of:

1. Serious side-effects of unknown duration, perhaps irreparable
2. Causality: these were not just “coincidences”
3. Government corruption to hide these harms
4. Correlation between vaccine doses and deaths from multiple independent studies on multiple independent datasets
5. No interest in seeing the expert report or the video from any mainstream news media, any member of the mainstream medical community, any lawmaker, any public health official anywhere in the world.

The precautionary principle of medicine now demands an immediate halt to the COVID vaccination program.

The key facts in a nutshell:

1. The Israeli health authority knew the vaccines were harming people: the side effects of the vaccine are neither mild nor short term. In fact, in 65% of the neurological cases that mentioned duration, the symptoms are all on-going.

2. They also established causality: the side effects were caused by the vaccine. This is something no one else had been able to establish before.
3. They don't know how serious the harm is because they only looked at the data for the top five categories. Cardiovascular was #6. So they have only looked at a fraction of the data.
4. The researchers **do not know the prevalence of these serious side effects** because they were just provided with the numerator, not the denominator (similar to VAERS).
5. The Israeli authorities deliberately covered up the safety issues and hid it from the world, issuing a false report essentially saying "there is nothing new to see here folks, move along."
6. The only good news in all of this is that [Israel protected Palestinians from getting this very unsafe vaccine](#). That was very humane of the Israelis.
7. The Israeli people aren't stupid. They have figured out the vaccines are "unsafe and ineffective" (my new tagline for the vaccines... what do you think? catchy isn't it?) and **are no longer complying with government directives to be vaccinated**. Just 2.4% of the Israeli population is "in compliance" as of Sept 2, 2022:

8. As of September 4, 2022 no one is being held accountable and everyone is ignoring this bombshell story:

1. There is a press blackout on coverage in Israel of this. The Israel media refuses to even look at the evidence.
2. Nobody in Israel is being held accountable for this corruption. There isn't even an investigation.
3. Nobody in the worldwide medical community is speaking out about the corruption either despite the fact that it affects people everywhere in the world.
4. There is no coverage of this in any worldwide mainstream media.
5. No public official, public health official, or mainstream media anywhere in the world is even calling for an investigation, nobody wants to see the

original expert report, and nobody wants to see the safety data they gathered.

6. Someone translated an earlier version of this article into Hebrew and posted it on mainstream media in Israel. It was removed in less than 1 hour. **This shows how important censorship is. If this story leaks, it's all over.**
7. We have the full video and we have the slides that were presented; use the [Contact Me link](#) if you are a health authority and want to see it before it is released to the public.
8. Just to be sure the CDC knows about this, I just emailed hundreds of people at the CDC who are involved in the COVID vaccines (including Rochelle Walensky) to let them know that the report and video are available. All they have to do is hit reply. **I bet not a single person at the CDC wants to see it. We are about to find out just how deep the corruption runs at the CDC.**
9. This isn't surprising that they ignore this. All negative data on the vaccine is ignored. For example, when I discovered [that young Canadian doctors were dying at a more than 12X normal after the second booster](#), the Canadian Medical Association, whose job it is to be an advocate for the health of doctors, refused to comment. I sent five requests and they ignored all requests. They should change their website to say that they are an advocate for the drug companies, not the health of doctors.

Specifically:

1. The Israel Ministry of Health (MoH) took 18 months from the launch date of the vaccine before they looked at the COVID vaccine safety data to see what it said.
2. They only started collecting safety data in December 2021, one year after rolling out the vaccines to the public. Few people knew this.
3. In December 2021, they tasked an outside expert panel led by Prof. Mati Berkowitz, a leading Israeli expert on pharmacology and toxicology from Asaf Harofe hospital, to examine the safety data they collected over the next 6 months (from early December to the end of May, 2022).

4. The panel presented their findings to MoH personnel on or about Jun 6, 2022 in a Zoom call that was secretly recorded. They found that the COVID vaccines were much more dangerous to people than the world authorities admitted. They found serious adverse events that were never disclosed by Pfizer or any world government. These adverse events were also not found to be short term as the public was told.
5. **They also determined causality**, something no other world health authority has ever been willing to do (because other governments never looked at the data either). Causality was both obvious and easy to prove using the re-challenge data that was collected (you can't do this using the US VAERS data, for example).
6. In short, the panel determined that the government was misleading the people of Israel.
7. We still don't know the whole extent of how dangerous the vaccines are because the outside team only looked at the top 5 most frequently cited events.
8. Both the Israeli authorities and scientists analyzing the Ministry of Health (MoH) data acted to cover up the harms by releasing a fabricated report to the public to make the vaccine look perfectly safe and claim that there was nothing wrong..
9. It is only thanks to the efforts of one courageous individual who released the recording of the full Zoom meeting between the MoH and their expert panel that we now know what was said at that meeting and what the data actually showed. Otherwise the world would still be in the dark.
10. Leaders of our "trusted institutions" all over the world said absolutely nothing after the news broke on August 20, 2022. This suggests that there is widespread corruption in the medical community, government agencies, among public health officials, the mainstream media, and social media companies worldwide: they will not acknowledge any event that goes against the mainstream narrative.
11. This is a level of corruption that is unprecedented. The atrocities here are clear cut. Everyone should be speaking out and calling for a full investigation and fully evaluating the safety data collected by the Israel government.

What you should do

The three most important things you can do to put a stop to these dangerous vaccines are:

1. Read this article including the recommended links in the [References section](#).
2. Share this article with as many people as you know (e.g., share on all your social media accounts now)
3. Please subscribe to my Substack so I can keep you informed of developments. The greater the collective reach of people who are challenging the false narrative, the faster the truth will come out. It's absolutely free to subscribe. The bigger my subscriber footprint, the more impact I can make. So if you agree with what I wrote, please subscribe.

Executive Summary

The Israeli Ministry of Health (MoH) was informed by their own hand-selected outside expert group headed by Prof. Mati Berkowitz that the COVID vaccines are not as safe as the MoH had been claiming to the Israeli people. It was just the opposite: instead of mild, short term events, the events were serious and long-lasting. For neurological side effects, in 65% of the cases, these did not go away at all ([start watching this video at 2:30](#); the 65% is at 3:09) and the researchers admitted they had no clue if they would ever go away.

Instead of admitting their mistake, the MoH covered it up by [issuing a report that distorted the expert report](#).

In addition, the experts also effectively covered it up by saying nothing when this happened. They sat by idly while the MoH misrepresented the data. It appears that everyone involved was so intimidated that they felt that they had to bury the truth, even when it can cost lives.

The news finally broke to the public on August 20 that the government hadn't been monitoring adverse reactions for a year and then, after they finally gathered the adverse safety data, that they deliberately manipulated the data to make the vaccine look safe when it wasn't. You'd think there would be major outrage at the violation of the public

trust. But there was nothing. No reaction. Dr. Sharon Alroy-Preis, the Health Ministry's head of public services and a top COVID adviser to the Israeli government, issued no public statement. That's stunning.

This suggests that she and the others in her organization who knew about this were in on the cover-up. The Israeli people should demand that they be fired and criminally prosecuted.

In addition, the current Minister of Health, Nitzan Horowitz, is doing nothing. Why isn't he calling for an investigation? He should be fired as well. Or is corruption of science OK with the Israeli government?

Finally, how deep does the corruption go? Will any Israeli mainstream media cover this story? Why not? Will any member of the Israeli parliament call for an investigation? Will any member of the executive branch call for an investigation?

It appears to me that they are all bought off by the drug companies. Am I wrong?

This is a story of corruption, pure and simple.

There is no way to put a positive spin on this. Anyone in power who is not calling for an investigation and heads to roll is just as corrupt as the people who engaged in the original cover-up of the safety report.

This story is the "smoking gun" we've been waiting for: an official government agency was caught on tape as having received a damaging report from scientists and then deliberately lied to the public about it.

The response to this story has been crickets so far

At the time I am writing this (September 2 and 3), the Israeli press (which is heavily state controlled; note that [government censorship is legal in Israel](#)) refused to go near the story; they wouldn't even reply when contacted about the story. They do not want to see any of the evidence. Only one news outlet, GB News in the UK, covered the original story.

It is up to us to force our medical, health, and political leaders worldwide to take a stand on what happened. Will they condemn it or will they ignore it?

Every mainstream medical leader should be saying that what the MoH did is wrong and calling for an immediate investigation into the safety of the vaccines. We should be able to see the full presentation of the expert panel and their report. And the safety data should be released to the public like the VAERS data is.

But look at what happened: they aren't condemning what happened and they aren't asking for the report or the data. They are staying silent... as if it didn't happen.

They are all basically saying, "It is OK for a government to not monitor vaccine safety for 12 months, and then, after 6 months of safety monitoring and clear evidence of harm, deliberately misrepresenting the safety data to the public."

Introduction

It turns out the Israeli government never had a vaccine safety monitoring system in place when they launched the COVID vaccines in December, 2020.

Finally, in December of 2021, more than a year into the vaccination program, they decided to fix that defect. They started collecting safety data from that point until the end of May 2022. They then tasked an outside research group headed by a top Israeli scientist to analyze the data.

The report came back that the side effects were not mild and short lasting as was represented to the Israeli people. **The data was clear that the side-effects were serious and long-lasting (sometimes with no end in sight).**

In short, the data showed that the government, which wasn't monitoring for safety like they claimed, lied to the people of Israel. Also, it's now clear that Dr. Sharon Alroy-Preis lied to the outside committee of the FDA about the Israeli safety monitoring.

The Ministry of Health (MOH) concealed the safety report for 2 months, then issued a deceptive public report to make the vaccine look safe. This Sunday, Sept 4, they will "ask" the vaccine safety committee to recommend the 5th dose (the combo vax) for 60+. This is corrupt. They are hiding the safety data from the public and they know it.

It took 2 months for the MOH to distort the findings and present it to the public to make it look like the COVID vaccines were safe.

Nobody knew that someone was secretly recording the meeting between the outside researchers and the MoH

Nobody knew that the June meeting between the researchers and the MoH was being secretly recorded.

Apparently, there was an honest person at the meeting and so when the MoH didn't act in a way that protected the public, the recording was leaked to the press.

In the 80 minute recording, one of the researchers said, "We'll have to think medical-legal – how to present our findings to avoid lawsuits."

After bits of the recording were leaked to the press, none of the Israeli media would cover the story. In fact, only one news outlet in the world, GB News in the UK, was willing to cover it. Watch [this video of the GB News interview by Neil Oliver which happened on August 20, 2022](#).

Fox News was notified but declined to cover it (apparently because their advertising contracts with Pfizer prohibits them from covering any negative news about the vaccines).

The whole scam was fully exposed to the public on Sept 1, 2022 in this [Tweet \(10 messages long\)](#) from [Yaffa Shir-Raz](#) who is an honest journalist living in Israel.

I found out about it when Retsef Levi forwarded Yaffa's tweet to my WhatsApp (since I'm permanently banned from Twitter for speaking out about how unsafe the vaccines are). My reaction was swift... I started drafting this article within minutes after reading that tweet.

Yaffa's tweet discusses the techniques that were used to distort the researchers' findings:

Yaffa Shir-Raz
@YaffaRaz

🇮🇱 In a leaked video, a research team commissioned by the Israeli MoH warns: "We'll have to think medical-legal – how to present our findings to avoid lawsuits. Why? Because of quite a few side effects we said: 'OK, it exists and reports exist, BUT STILL GET VACCINATED'".

7:43 PM · Sep 1, 2022 · Twitter for Android

If twitter takes down her tweet, I have a copy of the video and the full tweet which I will publish if needed.

Causality of new adverse events was proven by the outside team

In addition, new significant adverse events were identified and causality was established through re-challenging the same person; if the symptom re-appears or gets worse, that's a sure sign of causality.

Causality was even established in areas where the researchers were not previously aware of any safety issues. For example, for neurological problems where there wasn't even a survey question asking about these specifically (because it wasn't an officially established side effect), the signal was detected by reading the free-form fields.

Additional points

The outside team was hired by the Ministry of Health.

The meeting with the MoH was early June in front of a senior leader in the MoH who is in charge of adverse event monitoring.

The MoH officials did not share the findings with the MoH advisory committee when several weeks later it met to discuss the approval of the vaccine to babies and 5th booster to adults.

Dr. Alroy-Preis is #2 in the MOH. She is heading the formal collaboration between Israel and Pfizer. She meets with Pfizer regularly and writes papers with them. She is also responsible for all the COVID 19 policies in Israel.

The things they hid include:

1. The fact that, in most cases, these effects did not resolve quickly (in some cases lasting over a year)
2. The proof that the vaccine caused the events
3. The actual rates; they manipulated the rates by dividing the number of reports by all the doses, hiding the fact that they had the system for 6 months and only one HMO (15 percent of population reported). This makes the denominator huge and the numerator small which masks the significance.

How could this corruption happen?

My person hypothesis is pretty simple:

1. It was initially caused by blind trust in authority figures like Fauci, the CDC, the FDA, and Pfizer. Fauci conned everyone into the false belief that the vaccine was the only way out.
2. Since everyone wanted to end the pandemic, they looked the other way when safety issues popped up.
3. When authorities are caught red handed as they were in this video, they cover it up so that nobody looks bad (themselves, the government, the media, and the mainstream medical community).
4. All these mitigation strategies were completely unnecessary. We have proven early treatment protocols resulting in close to zero hospitalization and death. But because Fauci controls the NIH, they ignore all this.
5. Fauci created the virus (by funding the gain of function research at the Wuhan Institute of Virology) and single-handedly is also responsible for the response which killed even more people than the virus did.

There are other perspectives:

1. [See “How did the MoH become Pfizer’s agent?”](#) for how the corruption happens, but briefly it is because government officials are misled into thinking the vaccine is the only way out so they sign an agreement that makes pushing the vaccines a high priority and safety issues a low priority.
2. [Article about the Israel-Pfizer contract.](#)

References / further reading

Here are the key sources:

1. [Hebrew translation of this article](#) (25 pages)
2. [Josh Guetzkow’s excellent summary article](#)
3. [The definitive article on the corruption by Yaffa Shir-Raz](#)
4. “[Safe and Effective](#)” by Etana Hecht. If Etana can figure this out, why can’t any Israeli authority?

5. [The Yaffa tweet](#) (10 tweet long thread) by Yaffa Shir-Raz. Retsef Levi forwarded me just this tweet and you can see my reaction was instant and immediate when I read the thread:

6. [The GB News segment](#) on August 20, 2022 where Neil Oliver interviews Yaffa and Retsef. The Rumble post was published on Aug 28, but [as you can see from this tweet that the news came out on August 20](#). What is also stunning is how little the reaction was (only 427 retweets and 912 likes after 2 weeks).

'What is more concerning is the response of the Ministry of Health'

Prof Retsef Levi discusses the possible side effects of the Pfizer Covid vaccine, and the political response in Israel to questions about them.

10:09 PM · Aug 20, 2022 · Twitter Media Studio

417 Retweets 41 Quote Tweets 912 Likes

- 7. [This 4 minute video exposing the MoH report](#) which shows what the scientists actually said at the secret meeting. The scientists proved Pfizer lied to the FDA about the side effects. This video is only 4 minutes long and everyone should watch this. It has the statements showing that in 65% of the neurological cases (see 3:10 in the video), the problems didn't resolve.

8. This [one minute clip from the Zoom call](#) shows the researchers requesting that Sharon be informed. There is assurance from the MoH attendees that they will make this happen.
9. This [two minute clip](#) shows Dr. Sharon Alroy-Preis assuring the public the vaccines are safe for women juxtaposed with the video of the researchers saying the vaccines are causing damage to women's reproductive organs that in some cases doesn't end. They are also pointing out that re-challenge results in the same problem coming back which is evidence of causality, especially when it happens in many patients. Remember, the researchers didn't know they were being recorded. They would have never said this if they knew they were on camera.
10. The public [MoH report](#) (in Hebrew) that essentially said "nothing to see here folks, move along." Here is the [machine-translated version of the public report in English](#).
11. **The full video of the meeting** between the scientists and the MoH officials has not been released publicly... yet. This provides an opportunity for the MoH officials to come forward on their own and admit what happened. Yaffa's tweet (above) has the info that was sent to the media. **We also have a copy of the slides that were presented at the meeting.** Use the [Contact Me link](#) if you are a health authority (doctor, academic, press, public health official) and want to see it before we release it to the public.

These references are only on this particular story of course. There are now over a thousand of articles in the peer-reviewed published scientific journals showing the vaccines are not as safe as claimed. See [this article for a summary of the evidence](#).

We are only seeing the tip of the iceberg right now

Keep in mind that the researchers ONLY analyzed the 5 most commonly reported serious adverse events and they found new things Pfizer didn't know about.

They excluded the most severe cases and gave them to another committee to examine.

Cardiovascular events were #6 most prevalent so we don't have any data on those since they weren't analyzed.

And the study didn't even include cases of hospitalization - which is the role of another committee to examine.

So the current analysis is just the tip of the iceberg.

VAERS shows [thousands of symptoms](#) that are elevated by these vaccines compared to normal.

There is a lot more that has not yet been surfaced to the public. There is honest research going on in Israel that is being ignored.

Two Israeli researchers found that the vaccines kill 40 times more old people than they save

For example, did you know that according to an analysis of data from the MoH, the COVID vaccine kills 40 times more old people than it saves?

Dr. Herve Seligmann works at the Emerging Infectious and Tropical Diseases Research Unit, Faculty of Medicine, Aix-Marseille University, Marseille, France. He is of Israeli-Luxembourg nationality.

Using Israel MoH data, Haim Yative and Dr. Seligmann, Israeli researchers, found that the COVID-19 vaccine killed 40 times (40x) the amount of elderly people than the disease would have and 260 times more younger people than would have died from the virus in a 3 week period shortly after the shots.

See:

1. [Israeli Health Ministry data: Pfizer Vaccine Killed 'About 40 Times More Elderly than the Disease Itself would have Killed'](#)
2. [Vaccination in Israel: Challenging mortality figures?](#)
3. [The uncovering of the vaccination data in Israel reveals a frightening picture](#)

Note that the last article has the research and also talks about the attack pieces on the research and it makes a compelling case as to why those attack pieces are wrong. I'd be willing to bet that the attackers are camera shy and will not appear in an "on camera" discussion of the work.

[Live debate challenges are a very reliable way to determine who is telling the truth, and who is lying](#) when dealing with complex topics. It's why nobody who claims that the "virus doesn't exist" will appear on camera with me... not even for 5 minutes, and not even to win \$1M. They simply won't do it.

Other things of note

1. The Israeli press is heavily controlled. Yaffa was fired from the biggest newspaper in Israel a year ago, after working there for 20 years. Her crime? She wrote some articles the MoH did not like. So it's not surprising that the press in Israel avoided covering this story. It is only going to make a difference if everyone who reads this article shares it on social media.
2. The expert group found side-effects not listed by Pfizer (new signals), including neurological AEs, back pain, and GI problems, especially in kids. Since the group only looked at the top 5 most prevalent side effects, it's really troubling that they found anything new. This really isn't much of a surprise as the VAERS data, which is independent of the Israeli data, shows the same thing.
3. **Causality:** they found many cases of re-challenge - recurrence or worsening of a side effect following repeated doses within the same individual - which the head researcher stresses, increases the chances of causality "from possible to definite." So it is interesting that these researchers were easily able to determine causality when nobody else in the "mainstream medical world" was able to. Of course, the "misinformation spreaders" realized that the VAERS data was saying this back in early 2021 due to dose dependency of the symptoms.
4. The only person who finally tweeted something was the husband of Sharon AlroyPreis. He basically smeared Yaffa. This actually makes sense because when you are unable to attack the merits of an argument, the proper approach is either to censor the attacker or engage in ad hominem attacks.

This is a serious problem for people who live in Israel

The government considers them "unvaccinated" unless they have every dose of COVID vaccine available. Check this out... **only 2.4% of the people of Israel are complying with**

the vaccination policies of the government. Somebody broke the code (note: the date is Sept 2, 2022).

A comment from one of my readers in Israel

Consider [this comment](#):

I'm Israeli and I've been saying what you wrote (to myself and on a few Israeli facebook accounts) for quite a long time now. I'm disgusted with the heads of our ministry of health that are in charge of dealing with the Corona crisis. I'm disgusted with people like Sharon Alroy-Preis who testified in front of the FDA experts committee like a groupie or cheerleader of Pfizer. Like a little puppy, eager to please her master Pfizer. So ambitious and so eager to get ahead and look important by

appearing in front of that committee and so lacking any serious responsibility towards the millions of Israelis whose health she neglected. And she not only betrayed the trust of the Israeli public, but by her distorted testimony she influenced the FDA committee, thus exposing billions of people around the world to the dangers of this vaccine, because an FDA approval goes a long way around the world. She not only should be fired. She should go to jail!

So now all the people in the US have at least one scapegoat to blame for everything. I've been told that the US relied on the Israeli's for safety monitoring due to the sad state of safety monitoring in the US. They may not have realized that Israel was even worse than the US in safety monitoring; much worse.

Reaction from the press to my article

As of Sept 5, there are two articles that have been published about my article and both are very damaging to the Ministry of Health:

[HEAD OF VACCINE SAFETY RESEARCH: ISRAEL DELIBERATELY LIED ABOUT COVID VACCINE HEALTH RISKS](#)

This was published in *Israel 365 News* and is written in English. Good for them for carrying the story. Even better, they featured the story on their homepage which you can see from this screenshot (look at the URL):

The screenshot shows the website israel365news.com with a navigation bar at the top. Below the navigation bar is a promotional banner for 'JAG' with 'UP TO 30% OFF' and 'Shop Now'. The main content area features several news articles:

- 7 WOUNDED IN TERROR ATTACK ON BUS IN JORDAN VALLEY** (BY JNS | SEP 4, 2022 | TERROR WATCH)
- HEAD OF VACCINE SAFETY RESEARCH: ISRAEL DELIBERATELY LIED ABOUT COVID VACCINE HEALTH RISKS** (BY DAVID SIDMAN | SEP 4, 2022 | MEDICAL/SCIENCE) - This article is circled in red.
- GOP POLITICIAN JOINS MILITARY ORDER OF TEMPLE OF JERUSALEM TO PROTECT CHRISTIANS IN ISRAEL** (BY ADAM ELIYAHU BERKOWITZ | SEP 4, 2022 | CHRISTIAN ZIONISM)
- BIDEN OFFICIAL VISITS REGION TO PUSH 'TWO-STATE SOLUTION'; CONVINCING ISRAEL TO CURTAIL ANTI-**

On the right side, there is a 'TRENDING TOPICS' sidebar with a list of categories including: Alleviating Poverty, Antisemitism, Archeology, Biblical News, Christian Zionism, Coronavirus, Holocaust, IDF, Inspiration, Jerusalem, Judea and Samaria, Medical/Science, Middle East, News Videos, Terror Watch, and Ukraine-Russia War.

[Israel knew about the risks of the corona vaccines and kept it “quiet”](#)

This article, which appears in ice.co.il, is written in Hebrew but Google translate works great if you want to read it in English. All the comments are all supportive of my article. They posted this, took it down an hour later, but now it is back up for all to see. Check out these two comments (Google translated):

[Reply to this comment](#)

18 USC 1001 violation by Dr. Sharon Alroy-Preis

It is a criminal violation of US law for anyone to make a material misrepresentation in any official proceeding ([18 USC 1001](#)). Violators are subject to 5 years in prison.

Consider the following statements made at [this FDA VRBPAC meeting](#) on September 17, 2021:

uh pre-waning effect um I I have to say that I
was pretty

5:57:22

surprised with Reckless Levy uh comment that
Israel doesn't uh follow Adverse

5:57:27

Events it's our data I'm in charge of it so I know
exactly what is being reported to

5:57:33

us and I set our reservation but we actually
have two very large studies from our biggest
hmos that covers 75

5:57:39

“Reckless Levy” is actually “Retsef Levi.” But this statement was made at a time where there was no safety monitoring being done by the Israeli government.

She is relating to Retsef's claim that the reporting system in Israel was dysfunctional (which it was) and that there was no follow up or monitoring on AEs. Retsef didn't lie. She did. She said she was “surprised.”

So this appears to be a deliberate misrepresentation made by Dr. Alroy-Preis which could subject her to criminal prosecution by the DOJ. However, such things are unlikely even though her testimony led the committee to approve the vaccines which have killed hundreds of thousands of Americans.

On the other hand, maybe she was surprised that anyone outside the MoH knew what was really going on (so she wasn't lying).

How do “they” explain this away? They can't!

The Twitter trolls initially claimed the videos were taken out of context. But that didn't last long. Now they are silent. The strategy seems to be let's ignore it so it will go away.

A comment from Bill Rice Jr.

Bill wrote this in the comments. It's an excellent summary.

Bill Rice, Jr. 9 hr ago ❤️ Liked by Steve Kirsch

This probably IS the "most important" dispatch Steven has penned. I say this because it provides overwhelming evidence that even when there is a giant "smoking gun" showing outrageous corruption, crimes and malfeasance every important organization in the world simply ignores said evidence.

This said, Steve has published countless other pieces that SHOULD have been enough to inspire narrative-changing investigations and exposure of myriad scandals. I've reached the point where I conclude "If they haven't acted on this evidence by now, they are not going to act on it ... ever." That is, past behavior (or non-behavior as the case may be) also predicts future behavior.

I also have now concluded we need prominent whistleblowers from newsrooms and from official investigative organizations who come forward with information showing that real investigations are being spiked. People need to know WHY they are not getting the truth.

❤️ 3 Reply Collapse ...

This can't happen in the US because the CDC avoids gathering accurate safety data on vaccines

The US has a lame system for tracking adverse events after vaccination. They looked at upgrading it over 10 years ago, but the new system, ESP:VAERS, was too accurate and showed all the US vaccines were dangerous. So the CDC canned the system. This is documented near the beginning of RFK Jr's book [The Real Anthony Fauci](#).

The CDC would never commission a study to accurately study adverse events so the problem just doesn't happen in the US because they avoid collecting the data in the first

place.

This is very corrupt but nobody minds including the mainstream medical community. They have all been brainwashed into believing the FDA is legit and all vaccines are safe. But apparently they know this isn't true because none of them will debate RFK Jr on vaccine safety (he's been trying for 20 years to find an expert to debate (Alan Dershowitz doesn't count).

Of course, the US Pfizer vaccines are just as dangerous as the Pfizer vaccine in Israel, but the governments and the mainstream press ensure nobody finds out, just like how you will only see this information on Substack and in other places, but never in the mainstream press.

Even when an [FAA whistleblower comes forward with serious accusations that are irrefutable](#), the US press avoids covering the event:

Today, nobody will challenge the FDA. They now do EUA approvals without any proof of a clinical benefit and without approval by their own captured outside committee. This is outrageous, yet doctors are silent.

The FDA just approved the combined booster after testing on 8 mice showed that the [Omicron protection was sporadic](#) and [that it did not prevent infection in a single mouse that was challenged with the virus](#). No word on data showing there is a hospitalization or death benefit.

What I don't understand is why they didn't do the Omicron challenge study on 200 mice: 100 who got the full vax series vs. 100 completely unvaxed mice looking for all-cause mortality and morbidity. That would have been real data, far better than 8 mice who got the vaccine looking for antibodies. But they didn't do this because they knew it would be bad.

Instead, the medical community and the FDA are content with a single arm study with 8 mice which showed no clinical benefit from the vaccine to approve a vaccine that they will try to get everyone to take.

This is truly stunning. It shows you clearly how broken the medical community is. There should be op-eds in every medical journal on the absurdity of approving a booster with no clinical benefit in humans or mice. Doctors should be outraged at this. But they say nothing.

All the mice used in the study are now dead (they were killed as part of the study which was convenient since that way they can't track their mortality).

Was Sharon Alroy-Preis in on it?

It is highly unlikely that Dr. Sharon Alroy-Preis, the Health Ministry's head of public services and a top COVID adviser to the Israeli government, didn't know about all of this before the press leak.

How could she not know? There was no safety monitoring in place before December 2021. If she didn't know that, she should be immediately fired for incompetence. So she must have known about the data that was being gathered and that it was being analyzed. She should have been on pins and needles waiting for the result of the meeting if she truly cared about public health. And how could she not be at that meeting with the scientists? What could possibly be more important to the health and safety of the Israeli people? Where was she?

Even though she obviously didn't make the Zoom meeting because she had more important things to do, she would have been notified immediately after the meeting by her staff. That's the 99.99% most likely scenario.

But once it was announced in the press, it removed all doubt.

If she was truly not informed before the GB News story on August 20, she would have immediately issued a press release that she was never told about the report and that there would be an investigation. Instead, we heard nothing. The only possible way that could happen is she was in on the cover up.

My email to the CDC offering to share the information

I wanted to create a public record that the information was offered to hundreds of people who work at the CDC in vaccine safety. I predict that not a single person wants

to see the data. I would be amazed if I am wrong.

Here is the email I sent on September 4, 2022 to hundreds of people at the CDC:

 Send	To	Rochelle Walensky
	Cc	
	Bcc	☐ CDC big vaccine list
Subject		Do you want to see the expert video/slides from the Israeli Ministry of Health meeting with their experts?

Dear [Dr. Walensky](#) and CDC people involved in the COVID vaccines,

I have important information that I think you will want to see.

In January of 2022, the Israeli Ministry of Health (MoH) commissioned a safety study of the COVID vaccines by an outside group of experts.

The outside expert committee reported the results in early June. They found the vaccines were not nearly as safe as had represented by the government.

The MoH then covered up the report claiming in a public report were no new signals. They lied.

Here is the full story:

<https://stevekirsch.substack.com/p/exclusive-proof-that-the-top-israeli>

I have a copy of both the original video presentation and the slides that were presented to the MoH officials.

If you would like to see this information before we publicly release it, please let me know by responding to this email.

-steve

I haven't heard back from a single person at the CDC.

My email to the NIH offering to share the information

Dr. Nath has been studying whether the COVID vaccines cause injury. To date, he's been unable to establish a connection. He should welcome this data with open arms. It's the data he's been looking for for over a year. No reply from Dr. Nath. What does that tell you?

	To	Avindra Nath (natha@ninds.nih.gov)
	Cc	Ron Johnson
	Bcc	
Subject		GREAT NEWS!!! COVID vaccine is PROVEN to cause neurological problems

Dr. Nath,

You'll be pleased to know that the Israeli government vaccine safety data shows that the vaccines do indeed cause neurological issues that do not go away.

See: <https://stevekirsch.substack.com/p/exclusive-proof-that-the-top-israeli>

I know you have been wondering about that link for over a year now and have been puzzled by the correlation between the vaccine and the sudden onset of severe adverse events. Now we know it wasn't just coincidence.

I have the slides from the Israeli government and a video recording of the presentation.

Would you like to see them? Just reply to this email and let me know.

If you don't want to see the data, there is no need to tell me why now. There will be a Congressional investigation as to why you chose not to look in the next [Congress](#) so you'll have plenty of time to make up a convincing story of why you chose to look the other way. It will be a highlight of your career no doubt.

I'm copying Senator [Johnson](#) so he knows you were notified and chose not to look.

If you choose to look at the data, once you review the data, I'm sure you'll promptly inform the rest of the NIH and the CDC about the safety issues with the vaccine. This is your chance to make history... one way or another.

-steve

To Dr. Nath's credit, in a past email, when I copied an aide to Senator Johnson, I received this response from the PR people at NIH:

Your email to Dr. Nath

Brain Information <BrainInfo4@mail.nih.gov>

To Steve Kirsch

Good afternoon,

We are responding on behalf of Dr. Avi Nath, the NINDS Senior Investigator for the NINDS Section of Infections of the Nervous System, who has received your communications expressing concerns about injuries and side effects of vaccines. The mission of NINDS is to seek fundamental knowledge about the brain and nervous system and to use that knowledge to reduce the burden of neurological disease for all people. Neither the NINDS nor Dr. Nath have a research program designed to investigate vaccine-related injuries and side effects. The mandate for studying the effects of vaccines and all public health policy around them is under federal agencies such as the FDA, CDC, and HRSA.

We hope this clarification is helpful.

We appreciate you reaching out to us, please know that Dr. Nath has asked us to respond as soon as possible.

NINDS Communications

They must think I'm naive. The NIH press people were lying when they wrote that. They are trying to re-write history, just like the MoH.

Please read [this article](#) which talks about Nath's research. You cannot unring the bell (articles in both [The Epoch Times](#) and [Science](#)) no matter how hard you try (and Nath is definitely trying). They are entitled to their own opinions, but they are not entitled to their own facts.

How medical experts in the US are reacting

I have the mobile phone number for Dr. Grace Lee, head of the ACIP committee which is the outside committee of the CDC. So I texted her this article and asked for comments.

If she says anything, I'll report it here. Don't hold your breath.

She should be outraged. But she won't be. She'll say nothing. She'll just go along with what she is told to do, which is to ignore it. That's how science works. If you want evidence of corruption, this is it.

Similarly, no member of the mainstream medical community will say a word. None of them will say anything.

Will Professor Vinay Prasad say anything? He knows about this article and I've asked for his comments as well.

This is a defining moment for the world mainstream medical community and medical journals. Will they speak out or do as they are told and remain silent? Who will be the first to speak out?

I'm guessing they will all remain silent and not comment about this. This shows you the level of control and corruption.

Here is a partial list of people I've ask for comment from:

1. Marc Tessier-Lavigne, President of Stanford
2. Stanford Dean of Medicine Lloyd Minor
3. Stanford Professor David Relman
4. Stanford Professor Grace Lee (who is also head of the ACIP committee)
5. Stanford Professor Bonnie Maldonado
6. UCSF Dean of Medicine Bob Wachter
7. UCSF Professor Vinay Prasad
8. Emory Dean of Medicine Vikas Sukhatme
9. Emory Professor Carlos del Rio
10. John Hopkins Professor Bert Vogelstein (the most cited scientist in history)
11. CNN Medical Expert Dr. Sanjay Gupta

I know all of these people. I am hoping that at least one of them will want to be on the right side of history here in calling out the corruption at the MoH.

But no.

The only person who responded was Bert Vogelstein who basically said he's working on something big and didn't want to get defocused. That's fair. He's a class act. This is peripheral for him and I knew that when I reached out.

Let me make my position crystal clear:

Scientific corruption like this should never be tolerated and those that refuse to speak out publicly about it should be ashamed of themselves.

I would have asked other people but many top scientists in the infectious disease area requested I never contact them again after I first revealed the COVID vaccines were unsafe back in May, 2021. They believed I was a menace to society at the time (and probably still do).

I sent this email after not hearing from anyone at the CDC

I sent this email on Sep 9, 2022 at 10am:

Hello,

I am writing about the whistleblower leak of the Israeli safety study data showing the COVID vaccines CAUSE severe, long-lasting effects. See <https://stevekirsch.substack.com/p/exclusive-proof-that-the-top-israeli> for more information.

I was wondering if you wanted to see the safety data that was concealed by the Israeli Ministry of Health?

You can easily authenticate the data from the video.

An MIT Professor who speaks Hebrew can walk you through it.

Please let me know by return email if you want to see the safety data. If you do not want to see the data, my 1M readers would like to know why, so if you can supply this, it would be most appreciated.

Also, the reason I am writing to you is because I've emailed nearly 300 people inside the CDC involved in vaccine safety and they don't want to see the data, and they won't tell me why they don't want to see the data.

-steve

I'll let you know if any of them responds. Don't hold your breath. I predict that none of them are going to want to see the safety data of the COVID vaccines even though they are responsible for vaccine safety.

The general principle they follow is "if the data looks bad, simply refuse to look at it." That's how science works now. Just ask Tony Fauci.

Press coverage

As of Sept 9, 2022, the only news media interested in seeing the data are:

- The Epoch Times
- CDMedia
- The Spectator Australia
- Achgut.com (Thomas Maul)
- The Intercept
- The Jonathan Kogan Show
- Australian Broadcasting Corporation (one TV News editor who still has to sell the story)

Here's one of the many interviews I did. This is on the Stew Peters show and is only 11 minutes long:

Bioweapon Cover-up EXPOSED: Israel Health Ministry LIED and Covered-Up Vax Adverse Events & Deaths

And one more thing...we now have confirmation of the delayed killing effect of the vaccine AND that the deaths are CAUSED by the vaccine

There is a dose-dependent relationship between the number of COVID vaccines administered and the number of non-COVID excess deaths. It is statistically significant ($p < .001$). See [my new updated article on the 5 month delay](#) and pay attention to the excellent work by John Dee cited in that article. He used UK data only.

So now we have the US data (the Social Security Death Master File data that the CDC doesn't want us to know about), the European data, and the UK data all saying the same thing: the vaccines are causing massive numbers of deaths.

There is yet another signal that there is a 5 month “time bomb” fuse after vaccination which is the “blood clots” (which are not blood). Read [this article about these clots](#). I’ve written [many articles about the clots](#) which are found in [up to 93% of the cases](#). [Jessica Rose wrote an excellent article explaining how these clots form](#).

These clots take months to form before they kill you. The embalmers didn’t see any of these clots until mid-2021. This suggests there is [a double spike of death, just as Tim Ellison found](#). There is a quick death: these are the ones reported in VAERS. And there is the slower death from the clots that take, on average, about 5 months to kill you. This explains why none of the embalmers noticed any of these cases until mid-2021.

The evidence all fits together. Like a glove.

Summary and recommendations

In writing this article, I have spoken privately to both MIT Professor Retsef Levy and Dr. Yaffa Shir-Raz to make sure I got everything right.

The bottom line is this:

1. There is clear corruption at the Israeli Ministry of Health and nobody in authority is calling for an investigation.
2. More importantly, it’s now crystal clear from the preliminary examination of the safety data that the vaccines are far more dangerous than we were told, yet no world government is interested in even requesting the Israel safety data.
3. Nobody is calling out what happened in Israel as being wrong. That’s stunning. Nobody prominent is speaking out!
4. Nobody (other than alt-media and a individuals who are not in a position of authority to make any changes) has asked to see the expert panel report or the underlying data. That’s really stunning.
5. The report is only the tip of the iceberg here since only five adverse event types were analyzed.
6. This evidence, combined with the new 5-month delay data showing a very high correlation coefficient (34%) and a p-value < .001, paints a picture of a deadly vaccine that should be immediately stopped. We don’t even need to reference the

work of others, such as Yative and Seligmann. There is no other way to explain this data. If there is a way to explain the data, then the authorities should explain it and not refuse to answer any questions from scientists and statisticians with opposing views.

- 7. Bottom line: Based upon the government corruption, the safety data, and the correlation of the vaccine and deaths, the precautionary principle of medicine demands an immediate halt to the COVID vaccination program.**

The Israeli people should be demanding that the vaccines be stopped and that Sharon Alroy-Preis resign now as well as all the members of her team who participated in the cover-up. They should be prosecuting all these people as criminals because that's what they did: they conspired to bury the safety information which could have saved lives.

It is important that honesty and integrity be restored at the MoH as soon as possible, yet nothing is happening.

So the corruption will continue worldwide.

Please share this widely. It is important for this information to get out. Now.

Someone translated my article into Hebrew and posted it on a news site in Israel. It was removed in less than 1 hour. Here is a link to a Hebrew version of this article:

<https://www.skirsch.com/covid/IsraelCorruptionHebrewTranslation.pdf>

Also, nobody from the mainstream media wanted to see the data. I emailed hundreds of people at the CDC and they didn't want to see the Israeli safety report either. No replies.
