[Doug Brignole](#), former Mr America and Mr Universe winner, author of “The Physics of Resistance Exercise,” lecturer, educator and coach offered his life as a test case for whether the COVID vaccines are safe or dangerous.

The clear conclusion: the vaccines are unsafe. I was right.

Please let's not have any more challenges like this.

Bodybuilder And Fitness Author Doug Brignole Has Passed Away At 63 Years Old

By **Greg Patuto** - October 14, 2022

Doug Brignole enjoyed a career as an amateur bodybuilder before publishing books.

Bodybuilder and Fitness author **Doug Brignole** passed away at 63 years old, according to different social media platforms. The cause of death has not been revealed yet.

According to Doug, those who have been saying the “vaccines are safe and effective” should now admit that they were misled, tell the world who misled you, so that other

people can benefit by ignoring those fear mongers.

In other news, Doug Brignole "died suddenly" on October 13th 2022 at the age of 62.

Canadian doctor death update

80 Canadian doctors have now “died suddenly.” An [interview with Dr. Makis is taking place](#) Monday, Oct 17 at 9:30am.

Remember [when it was just 32](#)? Seems like only yesterday (it was a month ago).

I still haven't heard back from the CMA on their comments from [my earlier article on the excess deaths](#).
