An emboldened Alex Berenson is absolutely going off on the beastly jabs today.

Alex Berenson 

@AlexBerenson · [Follow](#)

The mRNA Covid vaccines are killing people, plain and simple.

Best guess, they lead to about a 10% rise in non-Covid mortality and no reduction in Omicron deaths.

This is Australian data, very clean because AUS had ~no Covid before vaccines; deaths are 17% above normal in 2022.

 **Misleading**

In his latest broadside against the deadly vaxx, Berenson cites Australian data:

Also: the rise in deaths is higher and lasts longer after the third shot. The dose makes the poison, and artificially modified mRNA (in an LNP shell) doesn't seem to be a product humans tolerate well with repeated exposure.

Berenson makes it clear that these jabs should not simply be tolerated, they must be completely withdrawn:

I'll just keep saying it. Because it's true. And because I can.

The mRNA Covid "vaccines" (they're not vaccines, no vaccine lasts two months) are unsafe, ineffective, and should be withdrawn.

Unsafe.
Ineffective.
Should be withdrawn.

Berenson posted this chart from Israel as well:

This is a graph of Covid deaths in Israel since 2020. See if you can guess when mass vaccinations with [@pfizer](#)'s mRNA jab started. As you make your choice, remember mRNA shots are almost completely effective against deaths from Covid lol

For Berenson, the question is no longer whether the vaccines are safe and effective... the question of primary importance is now, exactly how much irreversible damage have they done?

Alex Berenson

@AlexBerenson · [Follow](#)

The vaccine fanatics have not yet realized the debate around the mRNAs is quickly moving from:

"What kind of fool would oppose them?"

to

"How much harm have they done?"

No surprise, as they made the same mistake with masks, school closings, and lockdowns.

Thank God Berenson is back on Twitter, for the sake of the truth, free speech, and the fact he is a major thorn in the side of the Great Reset Regime.

The totalitarians have destroyed all trust in medicine. Who's going to skip all the childrens vaccines now? Who's going to switch to homeopathic options. Who's going to forgo health insurance? Who thinks drs give a damn about your health? You're a consumer. Plain and simple. They especially want to mutilate your kids as it's a good money maker. Just ask Vanderbilt.

I will never trust a physician again unless I know where they stood on the jabs. I also plan on never being vaccinated against anything ever again (I did not get the Covid vaccine) and I am looking into homeo pathic options. So you're quite right about what it has done to people and their faith in medicine.

Don't lose faith in all of us. I've been against the vaccine/boosters for over a year and I tell my patients, do not take a covid vaccine or booster, they're useless, and in fact, dangerous. Myocarditis and clotting problems. Look at all the morons (like the current brain dead president) that still got Covid even though vaccinated and boosted up the wazoo. Even rumplestiltskin (fauci) got it.

suki → Legion113 • 4 days ago

I will never believe any of them got the vaccine. All the ones on TV that took them were fake as hell. One nurse held the tip of the needle against the skin of the politician getting vaccinated. Evil liars.

Or they received saline. There is no way on earth Biden, Harris, Fauci, or any prominent person in government received the experimental therapies. Easier to excuse them getting Covid than have them drop dead in public.

Criminal Biden got saline solution. So did all the other elites. However, there is NO PROOF that the jab kills. If the jab was dangerous and kills then it would have been pulled from the market. You are being played.

They'd both be lying prostrate on some high class exclusive golf course somewhere, stiff as a board, no one knew they were there, strokes. They both had strokes during a golf stroke. That's the kind of thing that can happen in the exclusive, elusiveness of eliteness. You wind up dead, and no one even knows your alive anyway.

If I could find a doctor like you I would have faith in that doctor, but I can't. Even

if a doctor in my area didn't push the vaccines they won't openly admit they are/were against them. It's extremely hard to find an honest, courageous doctor and almost impossible not to find a dishonest, money-grubbing coward doctor.

The good ones spoke out EARLY 2020, took a stand against VAX's AND masking, (like my new Dr); or left the circus. The rest are self-serving, narrative talkers.

^ | v • Reply • Share >

shannon washburn → Legion113 • 2 days ago

One of the first things I would ask a Physician, is did you recommend the bioweapon! In fact, he/she isnt a real Physician if they did. In reality, very few even knew what they were pushing, and didnt care.

Charlie Adams → Legion113 • 2 days ago

If ANY vaccines work, please explain "herd immunity" and why all those around must be vaxed. I got measles as a kid and have actual immunity. People who got the measles shot are worried all around them must also be vaxed or their shot won't work. Makes ZERO sense. So doctor, if you're pushing ANY vaccines you are still untrustworthy.

I was escorted out of Zablocki VA Medical Center today for refusing to wear a mask.

Literally, they are threatening veterans at the front door. Gleefully, as nasty as the loonies who volunteer for Red Cross work bullying disaster victims. And if you've spent in in a shelter, you understand. If you haven't, I guarantee your Pollyanna assumptions of human kindness are erroneous.

Giving them the slightest power, they blossom into megabullies..

The Covid vaccines are dangerous and never should have been given to anyone who is not extremely old or old and suffering from other conditions. It might have been a mistake to give to these ailing people too. Homeopathy is another fraud.

Buy the book, Turtles all the Way Down, from Amazon. Do not buy from Barnes and Noble. I just received a fraud today from B&N and O-Joy it was delivered by the US Post Office. Can you pronounce Mail Fraud? How about Copyright Violation? B&N and the fraud book copied the cover of the real book and put it on some random gibberish. No publisher is listed

The real book, "Turtles all the Way Down, Vaccine Science and Myth" will blow you away. Chapter one is the best, Not one single childhood vaccine has been clinically tested against an inert placebo like a saline solution.

They (the FDA) have never compared the health of un-vaccinated children vs. children getting all of the vaccines. They don't dare. They peeked at retrospective data and it was so scary they will die before doing that study.

Buy the book from Amazon. (Never ever, ever, buy from B&N. They violate copyright laws and

commit Mail Fraud. They should sue the author and publisher the loss of sales I hope to inflict by telling the world about this fraud (frin B&N)

Some info about the fraud: Printed in Lavergne, TN, January 10,2022

The fraud is also found on Amazon: <https://www.amazon.com/Turt...>

The comments on Amazon expose the fraud. The fraud has Maguda Iden as Author.

I was FlimFlamed, snookered, given a ride on the Palooka Express to attend a Snipe hunt. (ht: to Iowa-Hawk, I miss him.)

I don't care if you are pro-vaxx or anti-vaxx overall but you have to be an absolute fool to subject yourself to an experimental medicine that lying politicians on tv told you to take. "**Trust the Science**" they said ... with zero history and a refusal to release all the documented lab results. Yeah right. Bunch of liars.
