# Olympic Athlete Genevieve Florence (24) 'Barely Functional' After Pfizer Vaccine: 'I Wanted To End My Life' (Video)

Amy Mek November 13, 2022 26 comments 6 min read

**Genevieve Florence grew sicker because doctors and the government dismissed her life-altering symptoms as anxiety, not vaccine damage.**

Olympic athlete and British actress [Genevieve Florence](#) trained 10 hours a day, six days a week, as a synchronized swimmer. However, after receiving her first Pfizer “vaccine” injection during the summer of 2021, the healthy, thriving 24-year-old became unable to function or care for herself. The painful side effects grew so excruciating she began to contemplate whether she should end her life.

Florence’s decision to receive the controversial vaccine was due to the film industry’s mandatory requirement to work. “I immediately regretted it soon as she put it in my arm. I just thought, Well, what have I done,” said Florence in the powerful documentary, “Safe and Effective: A Second Opinion.”

GENEVIEVE FLORENCE

“I couldn’t do anything,” explains Florence. In the weeks after the shot, her health continued to deteriorate. She lived with a constant pounding headache and dizziness; she could not walk. “It was like someone was actually inside my skull, like pushing out. I can’t explain how awful it was. And it was I was dizzy. I was literally crawling,” explains the star athlete.

Her pain and despair continue to grow worse, “I really thought my life was over,” Florence says as she begins to cry. “I couldn’t even cook food. I couldn’t even get up. I couldn’t take care of myself. My mother came by twice a week to change my bedsheets, do a food shop for me, and clean my house. I couldn’t do anything at all.”

The dismissive and unprofessional way she was treated by medical professionals and the United Kingdom National Health Service (NHS) compounded the problem. The government and doctors tried to convince Florence that her serious health issues were due to anxiety and not caused by the “vaccine.”

)) I went to A&E a handful of times after my vaccine – 29.06.21. This was how my heart was behaving when I simply walked 5 steps. I was even crawling. Unable to care for myself and needing assistance. I couldn't function. I wanted to end my life. And the NHS denied me help. [#Pfizer pic.twitter.com/PfxdUAscXw](https://twitter.com/PfxdUAscXw)

” I just thought this wasn’t living. If my mess of my life is going to be like this, then I would rather not be here, but it was in the sense of desperation for help. And I wouldn’t have had those feelings, and my mind would have gone there. If I had someone who had just said, I see you, and we’re going to help you.

” 06.12.21 – Received NHS Covid vaccine exemption. Finally acknowledgement.  
But still no treatment pathway, no financial support from the gov. With £0 I could no longer afford treatment. It was evident at this point I was collateral damage. My mental health began to deteriorate. [pic.twitter.com/taA3yhSNA9](https://pic.twitter.com/taA3yhSNA9)

— Genevieve Florence (@Gen\_Florence) October 5, 2022

Thankfully, the medic on Florence’s recommended a private cardiologist, who she credits for saving her life:

” The medic on set knew of a great private cardiologist, Dr Syed Ahsan. So finally after months of hell I met someone who wanted to help. After scans/tests he got me onto the correct heart meds and created a regime that would aid my recovery. This man saved my life. [#Pfizer pic.twitter.com/CXuMSs8orP](https://pic.twitter.com/CXuMSs8orP)

— Genevieve Florence (@Gen\_Florence) October 5, 2022

Florence began making improvements and having glimpses of having some normalcy back in her life:

” 20.09.21 – This was a huge day for me. I cried with happiness... managed lunch [@DeliciouslyElla](https://pic.twitter.com/taA3yhSNA9) before seeing my cardiologist; There had been progress. My lifestyle choices and heart meds were doing the job; I was able to walk for short periods of time and had hope! [#Pfizer pic.twitter.com/cPgQ5XhS0P](https://pic.twitter.com/cPgQ5XhS0P)

— Genevieve Florence (@Gen\_Florence) October 5, 2022

Sadly, during her recovery, she booked a huge film role that required double vaccination. “Not only did I lose my health, but I lost my job because of the vaccine. I almost became homeless,” explains

During my recovery I booked my first big role in a film. They said they couldn't confirm me if I wasn't double jabbed. So not only did I lose my health but I lost my job because of the vaccine. I almost became homeless; my rent was paid for by someone who wanted to help. [#Pfizer pic.twitter.com/QEXPtsC3sV](https://twitter.com/QEXPtsC3sV)

— Genevieve Florence (@Gen\_Florence) October 5, 2022

The NHS has no treatment pathway for those injured by the vaccine, so she had to spend over £11,000 (\$13,000) on private healthcare. Florence has reluctantly started a GoFundMe page to cover her medical costs so she can continue with treatments and, hopefully, fully recover:

After spending £11,000 on healthcare post [#vaccine](https://t.co/AuSAClcgAU) reaction, I reluctantly started a go fund me... <https://t.co/AuSAClcgAU>  
So If you're in a place to help, it all makes a difference;  
maintaining the support to aid full recovery is not cheep.  
Consultation = £300 Infusion = £750

**‘Emotional journey of pain and mental stress’**

The documentary, “Safe and Effective: A Second Opinion,” which Florence took part in, “shines a light on the vaccine-injured and bereaved, but also questions the accuracy and trustworthiness of the pharmaceutical companies’ trials, the role of the Medicines and Healthcare products Regulatory Agency in regulating these products, the role of the Scientific Advisory Group for Emergencies behavioral scientists in influencing policy, and the role of the media and Big Tech companies in suppressing free and open debate,” states the Epoch Times.

It also features the emotional journeys of six people who fell ill after receiving the jab, together with one young widow. All are on an emotional journey of pain and mental stress, made worse by doctors often dismissing their symptoms.

As the promoted narrative crumbles, the Overton window finally begins to move. However, a major element is still to be questioned by mainstream media: the covid vaccines. Real-world data has increasingly demonstrated that the experimental injections do not prevent infection or transmission. So, if the effectiveness was overplayed, what of the safety?

From Natural News:

“The authoritarian governments that bribed citizens and rolled out covid-19 vaccines in a hostile, coercive, and discriminatory manner are responsible for human rights abuses and cold, cruel democide. This should be the topic of concern in all political circles — locally, state-wide, and nationally. Any political leader, government official, or media pundit who pushed the covid-19 vaccine into existence and enforced mandates should be interrogated, and in many cases, charged with crimes. These

one should be above the law.”

Every sociopath who supports these killer poisons must be held accountable and punished to the full extent of the law – drug companies, CDC, doctors and other health care professionals, employers, insurance companies, media, politicians, etc, etc. Every last stinking one of them.

Dear Genevieve,

I sympathize with your plight – genetic-therapies(which is precisely what was injected into your body) are not vaccines. In addition, the drug companies never did any meaningful safety or efficacy studies on these experimental genetic-therapies. You and every single person that received them are guinea-pigs in an ongoing experiment. The drug companies in collusion with corrupt criminal government got full legal liability exemptions before they began injecting the human guinea-pigs; while minting obscene-profits that are already in the hundreds of billions of dollars and counting. All this was known from day one – as well as the myriad adverse reactions and deaths that immediately began with the shots. No intelligent and sane person would have entered into such an association or relationship – and the information was easy to find for anyone who desired to know the truth. Those who even considered taking the experimental gene-therapy should have been motivated to do their own homework. Now, every one of you that took the shots are among the victims of the biggest crime in the history of the world. Right now the crime continues to multiply nchecked and many crooks continue profiting.

Why they treat you that way at the hospital? They have guidance on what to tell you because they are being paid enormous money to jab you. They have to do what they are told or don't get paid.

Nothing short of a crime against humanity. Those that say ‘follow the science’ never had it on their side. If they pay attention whatsoever to the thousands of deaths and injuries due to the jab and still knowingly push them, then just what is their dastardly objective?

“I’m the Father of the Vaccine” — President Donald John Trump

Put the blame where it truly belongs.

Remember, the program is called “Warp Speed” because Trump refused human trials which would have required up to 5 years of research. He also took away the protective shield of the implied consent law which would have provided an insert with the “vaccine” ingredients. Trump also removed access to tort claims against manufacturers, providers, and anyone else who was involved in the shots to protect them, not Americans and World citizens that got the shot.

My husband sent me this article today and as I am reading it I feel like you are telling my story. I have been sick from this vaccine for over a year now. Anxiety that I have never had, which started after my Pericarditis and I have major food sensitivity now as well. I feel like I have the flu 10 days out of the month, some days getting out of bed is a challenge. Brain Fog, Dizziness and chest tightness are me on my worst days and there is no trigger, just happens out of nowhere. It was suggested to me to look into Histamine intolerance and I have been actively doing this with my GP and Naturalpath. I see my Cardiologist later this month (6th visit) to receive results from my 24 hour blood pressure reading and as well about my stress test.

I am 45 years old, I had no prior conditions before I had this vaccine. I really hope that all vaccine side effect sufferers know you are not alone and I thank you Genevive for sharing your story, I never want to say to someone "I know what you are going through" but I will say this, I believe you, I know how it feels to be looked at sideways and to feel you need to be silent. I went to the Emergency room with a racing heart and extremely high blood pressure and was told anxiety, even after I explained my situation. It is very strange to me that people stand behind an experimental vaccine they way they do. I am not saying it has effected everyone BUT it is time we realize that there are some people really suffering! And all because they thought they were doing the right thing, they trusted the doctors and the pushy government. I will always regret my decision to get this vaccine and now I just hope the "science" can find a cure for the many people that are dealing with side effects. 😞
