Why is it so important to follow him on Twitter? Because Doctor Andrew Huff tweets incredible things like this.

Let's start by making sure that you know what Dr. Andrew Huff has already done as a whistleblower in the last few months.

A few weeks ago, [Dr. Andrew Huff](#) gave a sworn statement — as a former vice president of EcoHealth Alliance! — that the COVID-19 virus was created in China as “a joint project between an American company (EcoHealth Alliance) and the CCP controlled Wuhan Institute of Virology.” Dr. Huff knew this because he was an eyewitness at EcoHealth Alliance meetings.

Let's call that Blockbuster #1: *Peter Daszak and Ralph Baric made COVID-19 in a Chinese lab.*

Who Told You In 2021 That Peter Daszak & Ralph Baric Created COVID?

With the release last week of a whistleblower report from Dr. Andrew Huff — a former vice president of EcoHealth Alliance no less — the world finally has

definitive proof that the COVID virus was created in China as “a joint project between an American company (EcoHealth Alliance) and the CCP controlled Wuhan Institute of Virology” according to attorney Tom Renz. Dr. Huff has provided his invaluable eyewitness testimony and he should be applauded for his courage in coming forward...

Get ready for Blockbuster #2: *The CIA and Hunter Biden were involved in funding the creation of the COVID-19 virus through third-party proxies and EcoHealth Alliance as early as 2014.*

More details on the extraordinary information contained in Dr. Andrew Huff's testimony can be found in my article (below) and in [attorney Tom Renz's article](#).

Why Was Hunter Biden Funding COVID Research?

Did Hunter Biden ever divest himself of his Chinese assets? I'm the last reporter to ask the Biden regime that question of course — and that was a year ago. That's all just *necessary background* for the blockbusters that have followed from Dr. Andrew Huff's Twitter account in the last few months.

Fasten your seatbelts. This is going to get bumpy.

Blockbuster #3: *DHS officials stopped any real investigation of the origins of the virus outbreak.*

Dr. Huff tweeted last month that: "After learning early on that SARS-CoV2 was not severe, someone from the DHS WMD directorate decided to use COVID as a test case to see how the US would respond to a bioevent. I believe after speaking with multiple national security experts that person is ..."

Dr. Huff then [identifies the likely person responsible](#) in another tweet.

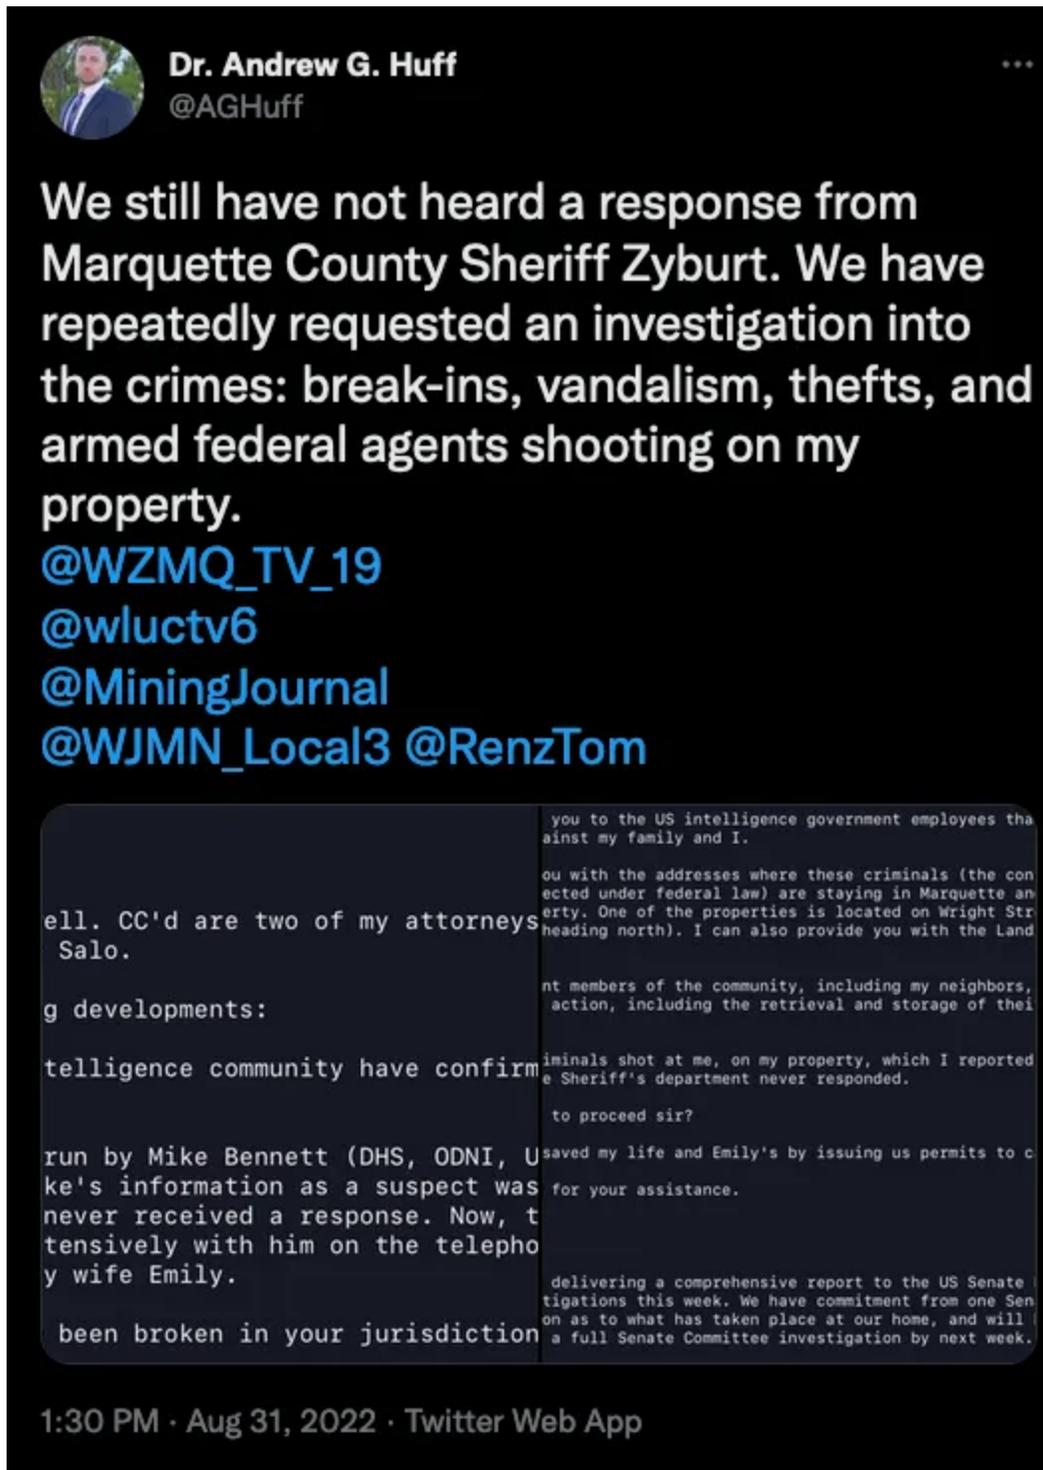

Dr. Huff also tweeted this message: "Col. John Hoffman Sr. (Ret): 'Indeed, several key DHS staffers suppressed any effort to investigate the origins of the outbreak. This was policy from higher up, not their position. But who was responsible in the upper management of DHS, I do not know.'"

Blockbuster #4: *The U.S. government is now illegally spying on Dr. Andrew Huff — and breaking into his house (allegedly).*

Read [his tweet thread here](#) and [much more here](#) and [even more here](#) and [simply incredible stuff here](#) for details.

Blockbuster #5: *Dr. Andrew Huff's life is in danger — “armed federal agents shooting on my property.” The local sheriff has refused to help Dr. Huff or even contact him back.*

And here's the attached screenshots 1 and 2.

Dear Sheriff Zyburt,

I hope that you have been well. CC'd are two of my attorneys from Renz Law, including Tom Renz himself and Deputy Salo.

There have been some amazing developments:

1. Two members of the US intelligence community have confirmed the illegal domestic operation against me.

2. This operation is being run by Mike Bennett (DHS, ODNI, USCG, DoD) and Laurie J. Bennett (DoD, CIA, FBI). Mike's information as a suspect was previously handed over to two of your deputies and I never received a response. Now, their involvement has been confirmed and as I spoke extensively with him on the telephone, I am willing to do a "voice lineup" as well as my wife Emily.

3. Numerous state laws have been broken in your jurisdiction.

4. I can introduce you to the US intelligence government employees that confirmed the illegal actives against my family and I.

5. I can provide you with the addresses where these criminals (the contract employees which are not protected under federal law) are staying in Marquette and where they are storing their property. One of the properties is located on Wright Street near the bend (North to West if heading north). I can also provide you with the Landlord's information.

6. Several prominent members of the community, including my neighbors, have witnessed these criminals in action, including the retrieval and storage of their equipment in Marquette.

7. One of these criminals shot at me, on my property, which I reported to the Sheriff's department, and the Sheriff's department never responded.

How would you like to proceed sir?

Thank you and you saved my life and Emily's by issuing us permits to carry.

Best and thank you for your assistance.

Best,
Andrew

P.S. Tom and I are delivering a comprehensive report to the US Senate Permanent Select Committee on Investigations this week. We have commitment from one Senator to begin a formal investigation as to what has taken place at our home, and will hopefully have enough support for a full Senate Committee investigation by next week.

On August 28th, Dr. Huff tweeted: "The US Government - CIA, FBI, DHS, DoD, and ODNI are going to attempt to blame the Chinese for the break-ins at my home and the most vicious attacks on a whistle blower in history. That is a false narrative. We have members of the IC that confirmed the operation, and witnesses."

Blockbuster #6: *Data was stolen from Dr. Andrew Huff's house and [that data was related to America's critical food infrastructure](#). Dr. Huff also confirms that America's critical food processing plants are being deliberately attacked and destroyed.*

Dr. Huff [on September 1st tweeted](#): "If my story couldn't get any crazier. It looks like the data stolen from my house was used to Attack American Critical Infrastructures. I and Col. John Hoffman were the only holders of the data. I reported the theft with [@RenzTom](#) to the FBI."

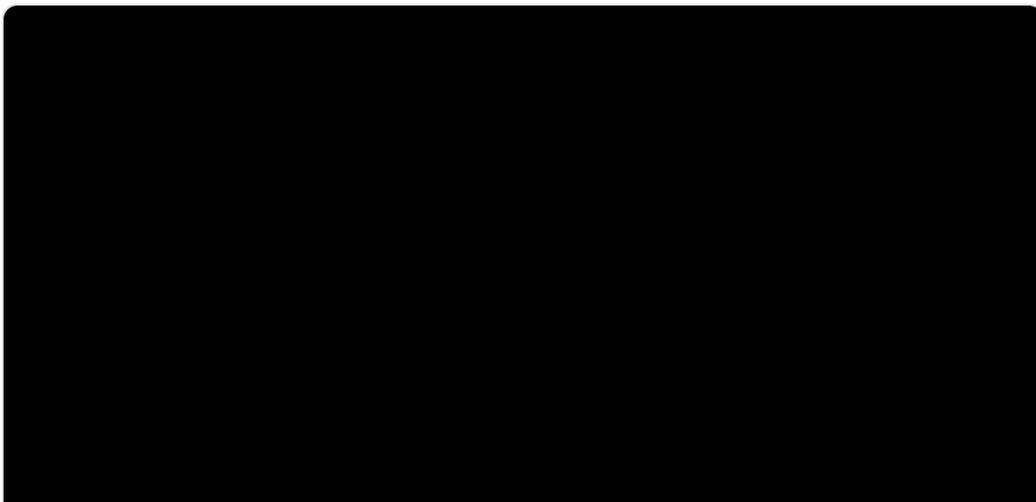

He continued: "2,000,000 registered food facilities with the FDA/USDA. My database of nominated systems and facilities to DHS for critical infrastructure key resource designation has about 800 entries for the entire US. 99 attacks over 2 years. 75% of the 99 attacks show up in my database."

He continued: "I actually cried about it this weekend. That is how seriously I take national security / food protection. That being said, when I have more time I will dig in. Agent Stanley told Sandia National Laboratories that she was 'investigating' the surveillance of me/house."

I Need Your Support!

Who [held the Biden Administration to account for its corruption](#) every day [like me](#)?

Who's the only reporter in the world [to ask Dr. Fauci why he funded the Wuhan Lab of Virology](#)? Who was the first reporter [to confront Jen Psaki about Hunter Biden](#) and his Chinese investments? Who [asked President Trump when he would stop](#) the NIH's funding of the Wuhan Lab in April 2020 — a year before any other media outlet?

Independent and fearless journalists need your support *like never before*.

I need your support like never before.

The corporate media is completely corrupt. Just go down the list: the Russia Hoax, the stolen 2020 election, [the deadly COVID vaccines](#). The corporate media is actively trying *to hide the truth from the American people* on a daily basis.

If we are going [to survive the current regime](#) then we must stand together.

I've got your back. Do you have mine?

Anyone who decides to take on the American police state should be prepared to suffer; that's just the reality of our new normal world. I admire Dr. Huff for his courage; I question his ability to look into the future he was creating for himself when he decided to blow the whistle. If there were any better example of the power and vindictiveness of the Empire, look no further than Julian Assange.
