The father did not discover that his son had been vaccinated until he read the autopsy report. He is a trucker and on the road a lot. He asked his son NOT to get jabbed but it was a requirement to play hockey.

He took the jab without telling his father.

Meanwhile in San Diego...there is a "Moderna Super Vax Center". And people are...lining up for shots! What in the actual burning hell is going on? All this information and people are lining up like complete zombies! How can there even BE a "super vax center" at this point?!

(They had to pause it because 6 people had "allergic reactions" in a cluster....)

The COVID virus did not affect 99.9% of people. Most of the people affected were above 60 years old and the death rate was very low. As the age got younger there was no affect. In past pandemic in the late 60s the USA had 1M people affected yet the country did not close anything or push vaccines on the country, which had 177M at the time.

Initial reports by various Doctors in all parts of the USA was that a combination of HQC+Ivermectin+Z-pack would stop the COVID virus quickly. This was reported via the internet but was quickly blocked on the internet. The question is why was that blocked and who got the various internet providers to block it?

The COVID vaccines, which are actually “Emergency Drugs” were put out by multiple Big Pharma companies. The release of these go against “The Nuremburg Code” and the US Laws we have for that. The COVID virus was created in China as is Big Pharma vaccines.

Normally to do a proper vaccine it takes a very small sample of the virus and then about five years of testing and putting it out to the public without over 100 people have side affects or deaths. This was not done as the “Emergency Drugs” were listed as vaccines to all ages, pushed heavily, pushed by corporations and government or you would lose your job, and in many times people got sent to Hospitals. Once in a Hospital they died. It seems the same was done in Canada.

The Emergency Drugs since they were put out quickly does not fully have a listing of what affect they will have on people. The US government gave the Big Pharma companies freedom from being sued. The issues that are being seen are people are having Heart Attacks, Massive Blood Clots, and other issues. The open question is: Was this planned to kill off people?

Trudeau doesnt care. He has that gay happy smile on his face as he pushes for more to take the killer jab. If you havent heard, there is an even newer vax coming out shortly, not the one that just came out. that would put you in line to take a total of 6 shots, the first two, plus two boosters, plus the current vax, and now the upcoming vax. people are poisoning themselves for no protection.

The goverments still have not answered nany question about Covid-19 and the deadly side effects of the vaccine. Yet many government agencies are still pushing it and in some cases, requiring it or allowing it to be required. You would think this would have been corrected based known information. Actions left untaken are indicative of conspiracies yet to be uncovered.

Good heavens! This is unprecedented. The CDC's own flu map for the week ending November 26 is out, and it looks just plain grim. I've checked every week of every year since 2008 on the CDC's own website showing these maps, and it has \*never\* looked this bad before, not even in a January or February of a bad flu season. Not one November has looked even vaguely like this. There is an Occam's Razor explanation for it.

It is becoming clearer, and more available to the public, that those who got the jabs – especially those who got a 3rd or 4th shot – are demonstrating some moderate to severe compromise in their general immune response to pretty much everything. They are getting multiple bouts of Covid, the flu, and even RSV, which, until now, was seldom of any concern whatsoever to healthy adults and children over the age of 3. And RSV is rampant (and more severe) in the infant and toddler group it usually affects, and some of this can be explained by research showing that newborns born to mothers who got the jabs are having a much more difficult time making sufficient white blood cells.

The CDC link is below. Below that is a more simplified map from the Weatherbug site using the same data.

The Chastisement is, indeed, a just recompense for our own sins and those of our benighted generation, and its instruments are primarily the direct consequences of our own folly, willful error and hubris. How doleful, then, are our times!

You're welcome. One thing to point out to people is that, on the CDC site linked above, anyone can click on a given year (back to 2008) and drag the scroll bar at the top to quickly see each week's ILI (Influenza Like Illness, which is CDC's term) activity on the map. People can then see for themselves how utterly

unprecedented the current map is. Remember, we haven't even gotten into the "usual" peak part of the flu season yet...

My beautiful mother taught me well I never bought into this covid (flu) from day one and when the shut downs happened I knew it was to sabotage President Trump from the get go .see my mom passed away from cancer March 6 , 2020 and then boom lock downs . And when that idiot died from an overdose of fentanyl and there were hundreds of people at his funeral and I couldn't have one for my mom ! That was the tipping point for me ! And when trump got cheated out of his 2nd term I knew then That I will never trust anyone from our government ever again . And I don't trust doctors either especially when they try to tell me I should get the jab , my daughters pediatrician told me and my daughter to get jabbed and I said hell know and walked out ! Until the evil politicians and the jab pushers get there ass thrown in jail I don't trust any of them.! FJB and trump won!

It is easy to find. Download the PDF of the " handbook". It is about a 70 page book. We are starting to transition to Chapter 19 of the book. Yesterday, I attended a work sponsored luncheon for county employees. Out of a workforce of 500...we have had at least one vax death I know of personally ( RIP Bubba..my friend). As I stared around the room of about 200....I wondered in my mind...how many. How many that today I have lunch with..will be debilitated or dead one year from now.

Canadian and American were feed a BS about COVID Vaccine from their government who has become a Marxist government that do not give a SH\*\* about people and country. So, in closing it more then time to remove these people from government ASAP. It will take a lot of courage to do so, if we let it continue it will get worse and worse by then it will be to late. The government leaders of the world are be controlled by a group of people who wnat world domination and will try and get it at any cost of human life. COVID-19 is just the beginning and they got away with it, with a lot of people dying for no just reason. So in closing 2nd time, open your eyes you are being manipulated by our government. GOD BLESS

Ben Franklin: "A Republic...if you can keep it."

Mrs. Powel of Philadelphia asked Benjamin Franklin, "Well, Doctor, what have we got, a republic or a monarchy?" With no hesitation whatsoever, Franklin responded, "A republic, if you can keep it."

~~~~~  
But don't take our word for it! Consider the words of the Founding Fathers themselves, who — one after another — condemned democracy.

- Virginia's Edmund Randolph participated in the 1787 convention. Demonstrating a clear grasp of democracy's inherent dangers, he reminded his colleagues during the early weeks of the Constitutional Convention that the purpose for which they had gathered was "to provide a cure for the evils under which the United States labored; that in tracing these evils to their origin every man had found it in the turbulence and trials of democracy...."
- John Adams, a signer of the Declaration of Independence, championed the new Constitution in his state precisely because it would not create a democracy. "Democracy never lasts long," he noted. "It soon wastes, exhausts and murders itself." He insisted, "There was never a democracy that 'did not commit suicide.'"
- New York's Alexander Hamilton, in a June 21, 1788 speech urging ratification of the Constitution in his state, thundered: "It has been observed that a pure democracy if it were practicable would be the most perfect government. Experience has proved that no position is more false than this. The ancient democracies in which the people themselves deliberated never possessed one good feature of government. Their very character was tyranny; their figure deformity." Earlier, at the Constitutional Convention, Hamilton stated: "We are a Republican Government. Real liberty is never found in despotism or in the extremes of Democracy."
- James Madison, who is rightly known as the "Father of the Constitution," wrote in The Federalist, No. 10: "... democracies have ever been spectacles of turbulence and contention; have ever been found incompatible with personal security, or the rights of property; and have in general been as short in their lives as they are violent in their deaths." The Federalist Papers, recall, were written during the time

of the ratification debate to encourage the citizens of New York to support the new Constitution.

- George Washington, who had presided over the Constitutional Convention and later accepted the honor of being chosen as the first President of the United States under its new Constitution, indicated during his inaugural address on April 30, 1789, that he would dedicate himself to “the preservation ... of the republican model of government.”

- Fisher Ames served in the U.S. Congress during the eight years of George Washington’s presidency. A prominent member of the Massachusetts convention that ratified the Constitution for that state, he termed democracy “a government by the passions of the multitude, or, no less correctly, according to the vices and ambitions of their leaders.” On another occasion, he labeled democracy’s majority rule one of “the intermediate stages towards ... tyranny.” He later opined: “Democracy, in its best state, is but the politics of Bedlam; while kept chained, its thoughts are frantic, but when it breaks loose, it kills the keeper, fires the building, and perishes.” And in an essay entitled The Mire of Democracy, he wrote that the framers of the Constitution “intended our government should be a republic, which differs more widely from a democracy than a democracy from a despotism.”

In light of the Founders’ view on the subject of republics and democracies, it is not surprising that the Constitution does not contain the word “democracy,” but does mandate: “The United States shall guarantee to every State in this Union a republican form of government.”
