Prepandemic myocarditis 4 cases/million/yr. Now with administered products 25,000 cases/million on shot 2 or 3. I cite the data. Unacceptable.

The scientific establishment is not capable of dealing with this information, which is why they will ignore it and delay as long as possible. SCIENCE!

Turns out this vaxx is just as bad for the old as it is for the young, as we suspected. More from Dr. McCullough:

Explosion of blood clots in my clinical practice over the past two years since their market launch. From the early trials to the published literature, the signal is very clear. Strong rationale to pull products from market. [@DrAseemMalhotra](#) [@EpochTimes](#)

Pfizer's COVID-19 vaccine has been linked to blood clotting in older individuals, according to the U.S. Food and Drug Administration (FDA).

FDA researchers, crunching data from a database of elderly persons in the United States, found that pulmonary embolism—blood clotting that forms in the body and winds up blocking blood flow in the lungs—met the initial threshold for a statistical signal and continued meeting the criteria after a more in-depth evaluation.

Three other outcomes of interest—a lack of oxygen to the heart, a blood platelet disorder called immune thrombocytopenia, and another type of clotting called intravascular coagulation—initially raised red flags, researchers said. More in-depth evaluations, such as comparisons with populations who received influenza vaccines, showed those three as no longer meeting the statistical threshold for a signal.

Researchers looked at data covering 17.4 million elderly Americans who received a total of 34.6 million vaccine doses between Dec. 10, 2020, and Jan. 16, 2022.

The study was published by the journal *Vaccine* on Dec. 1.

Wait for it...

The FDA said it wasn't taking any action on the results because they don't prove the vaccines cause any of the four outcomes, and because the findings "are still under investigation and require more robust study."

Uh-huh.

The recently revealed censorship that has plagued Twitter in recent years is "criminal," according to former White House COVID adviser Dr. Scott Atlas, as it allowed "lies to be imposed on the public" during a pandemic that wrought untold damage worldwide.

"When correct science policy is blocked, people die, and people died from the censorship," Atlas, a special coronavirus adviser during the Trump administration and contributor to The Epoch Times, said in an interview.

Atlas was speaking days after Elon Musk, the new owner of Twitter, released troves of internal files showing how the previous Twitter team built a blacklist to limit disfavored tweets' visibility without the knowledge of those using the platform. Among those flagged was Dr. Jay Bhattacharya of Stanford, whose tweet criticizing pandemic lockdowns shortly after joining the platform last August got him on the "trends blacklist" preventing the amplification of his tweets.

But such revelations, Atlas said, are "only the tip of the iceberg."

"There's a far larger story here that we need to hear," he said, which he considers "far more nefarious and more systemic than isolated tweets being pulled down."

"This seems to be criminal behavior, and I think it needs to be investigated in the courts," he said.

Several years ago there was a scare concerning lettuce. A few people got sick and as a result hundreds of thousands of pounds of lettuce were destroyed. The jab has killed millions and continues to do so and it is still being pushed on us.

I guess there was not enough money in lettuce.

Ive said this jab was poison from the start. I said that information was being held from the public via social media bans to outright lies from govt and health officials. I was labeled a crazy conspiracy theorist and banned multiple times from multiple platforms.

Its nice to know i was right all along

- [Donate](#) There is no doubt there was a concerted planned effort to release a concoction that would cause many unexplained deaths, now the facts are coming out and the scientific and medical communities who speak out are censored and facts are not allowed to spread, a massive cover up is in the works. Yet the shots are still being pushed by the same groups that made the vaccines and this IMPOSTOR CRIMINAL government plus the CDC, NIH and the AMA. How many will die from these vaccines before they are stopped?

They're showing the american public they can do whatever the hell they want and Americans have to bend over and take it. If this isn't an intentional march towards civil

war, I don't know what is!

I guess we'll see if they get their way or if the american public is able to produce accountability!

The CDC and the government knew without question that the greatest comorbidity for COVID was age followed by obesity. It is unconscionable that the government refused to mount a campaign for people to exercise, eat healthy and lose weight as the number one effort to combat COVID. It would cost virtually nothing and have had beneficial effects far beyond COVID and yet they refused because it was not the vaccine and pushing the exercise and eating healthy idea would be "fat shaming". Really!? They also knew from high school biology the vaccine would cause the body to target one protein in the virus while natural immunity would target all 29 proteins and yet they maintained the vaccine immunity to be superior to natural immunity. Again, really!? Since a mutation in only one protein is required for the virus to become resistant to the vaccine, is it any wonder why vaccine receiving patients have become incubators for new variants? For COVID to become resistant to natural immunity it would require mutations in nearly all 29 proteins.

This raises two questions. First, the above information is high school level biology that mot everyone should know and yet most everyone conveniently forgot it all in order to blindly follow the government "recommendations". To me and my family the above information was a screaming loud signal that the vaccine was all wrong so none of us took the vaccine. As time went by we received even more signals stating how the vaccine was wrong, how censorship showed the government was lying, and indicating our decision to be correct. How have we as a population become so docile, so naively believing that we now question nothing? The second issue is our government knew all of this and yet chose to follow the money into their pockets while not caring a whit about the people they were injuring. How much contrary data did Pfizer and others ignore to push this lucrative vaccine? Clearly, we cannot trust any leader that helped push or enable the vaccine nor should we allow them to remain in office. In fact we should consider crimes against humanity charges for them.
