I desperately need to know if this is only seen in vaxxed. My husband had a bad case of delta (unvaxxed) and now has PVCs (palpitations) at 52. This seems like the canary in the coal mine that no one wants to address...are those of us that had covid just experiencing a demise??

I'm in a clinic in Boston now where they still require masking. It's sad to see the receptionist who has to suffocate all day and still be friendly to clients. Whoever is responsible for the shots and mask mandates needs to be held accountable in a court of law for torture via masks and murder via bioweapon injections.

That explains why they don't feel it coming, where they don't get dizzy, don't have chest pains, they just die. What can we do about this? You can pray for a cleansing of the poisons from your body and look to natural path assistance in health care
The evil that has been done to mankind from this jab is truly sickening.

The government wants to outlaw naturopathy and access to alternative health care options even vitamins. Apparently they do not want anyone to survive and untimely death. A new form of genocide. Is anyone keeping track? Denying farmers fertilizer to ultimately reduce crop production and the world's food supply. Truly these globalists want to murder entire populations of the human race.

It all makes sense when you realize their goal is to reduce the global population to a manageable level, per the Georgia Guidelines around 500,000,000. Prevent births by reducing male sperm levels and kill infants before they can be born. Kill off seniors with lab manufactured viruses. Cripple immune systems and cause anxiety and societal chaos through isolation and pitting people against one another. Encourage new wars. This isn't happening by chance.

They want people to get boosted every couple months, how will that effect the immune system as time goes, and do the boosters have other effects?

Reply

Celine Dion, a victim of the experimental shots, has convinced herself (and is now trying to convince others) to take the boosters because, in her mentally unstable mind, taking them will improve immunity over time. 🤡

The extreme mental disorders this plandemic has created is beyond the pale.

Thank you Kane for this excellent video. I watched the the whole interview and agree with most posters that this is genocide. The cellular science of it is very well

documented and scary. If you did happen to get the vaccine and are susceptible to the clots, a supplement called Nattokinase is thought to be the reason that the Japanese (who naturally consume a lot of this) aren't prone to the clots even after getting the vaccine. Another part of the video asks the medical community ask questions and other pathologists to stain cancerous and postmortem tissues to look for the spike concentrations, good luck with that. He said "one who doesn't read is no better off than someone who is illiterate".

The three missing elements with people was first "Trusting" 2nd was "Critical thinking" and 3rd "Fear" hindsight is 20/20 I remember seeing on CFP there were a few that said they were going to get the job, there were many who begged them not to. I wonder just how many brothers and sisters here had taken the job vs those who didn't. I came close but followed my gut instinct and didn't fall for the trap. For those of you here that fell for the lie. Please let us know how your doing and how many jabs you took. I doubt we'll see many responses but we're praying for you just the same.

I remember early on when Covid appeared to be far more dangerous and that the percentage of affected that were dying was much higher than it really was. I was hoping a vaccine would come out so me and those I cared about who were at higher risk could have that choice. Then, thanks to the people here at CFP, caution was being given and once I started hearing more and looking in to it, I knew it wasn't something to rush out and get.

I'm a Christian, and my guiding verse has been Philippians 1:21. So they couldn't grab my attention on the fear. My second guiding section has been 2 Thessalonians 2. So I was patient to seek out and love the truth. After all Jesus IS truth and all truths find their inception in Him and all lies are opposed to Him. We are called on to love, but love without truth is not possible, 1 Corinthians 13.

This of course does not mean I am always right. Rather, I allow factual information to redirect me.

So at the start, I used data to determine that there was indeed something unusual and deadly happening, I was open to taking good measures to protect and defend, but I demanded data to prove their worth. Early on I read studies referenced at the CDC that showed masks, surgical masks, and even N95 and certainly cloth, we're not useful in preventing the spread of respiratory disease. These studies predate Covid19 and were done, some of them, in an effort to see what would protect hospital staff, so they were done well. It shocked me that so many believed the lie on masks when the information, good information, was already out there.

I try to avoid new drugs for my family because it takes decades of use to identify all the side effects and sometimes a "safe" drug is pulled because it's actually deadly. So I reserved judgment. Until I began examining the studies CDC used to justify giving the shots to pregnant women. If you examine the data presented, you find that the first two studies show major issues. The first, from NEJM, shows more than 8 in 10 women who received the shot during the first and second trimester and were followed through to the conclusion of the pregnancy miscarried. The narrative of the article lies, but when you examine the data the truth is thereto be had. I was amazed to find that many people who I told this to, even showed it to, could not reconcile in their minds that a trusted human institution would lie. That's a no brained to me: only God is worthy of my undiluted trust. He is never wrong and never deceptive.

At the start I told people of my hesitancy with a new and rushed pharmaceutical, but said they would have to make their own choices of course. Later I warned, when I had data.

I don't despise people who fell for the promise; the pressure was high.

What I do struggle with is the way the church embraced the fear and trusted man made institutions instead of consulting the word of God.

So a report that came out of Sweden in late 2021 about Covid deaths revealed that deaths from Covid were very low with those that got initial shot, then next was unvaccinated, then it skyrocketed with the booster.

I gave a few family members who are older and got shot and are still alive. I feel like the meds like metformin and others are what keeping them going if they got the booster. But for the healthy that got the shot and are not on meds may be a different issue. My friend who is fit as a horse, ran miles for his workout. Took 2nd pfizer (I think) and developed blood clots within 8 hrs of receiving the shot

Pay attention to Dr. Cole as he has been telling the truth since august 2021 when his practice saw a 20 percent increase in uterine cancer. He began to ask the questions and then he began to see other side effects. He is correct when he says we are only in the short effects ; we are just beginning to enter long term..

I learned in my 9th grade biology class, yes 9th grade, many years ago; the a corona virus is never the same. Ten people may have a cold and each virus is different because viruses are so smar. But our bodies when their immune system is up to snuff, will fight. Now "the they" are agreeing tha D3 is vital to fighting covid. Are you kidding? Knew this long ago but so many we led by the nose and id no research.

Why is the flu, RSV, and other respiratory viruses so virulent this year? Well, people ot's because we were shut up for so long creating a weakened immune system. And our children are paying the price. If all these strategies worked, China would be covid free. Auustralia would be covid free.... They are not.

Well being shut up is one reason. The other is that as soon as the shot is administered, 50% of white blood cells are wiped out. Then before they have the chance to regenerate, they give you another jab and ouila, another 50 % of that 50% is gone. People's immune systems have been completely eradicated. Then you have Dr Malone talking about the shedding and how the protein is somehow transferring to people that did NOT get the vaccine. If that is truly the case, the shot is a bigger biological weapon than covid ever thought about being. And people are willingly injecting themselves with the poison. I don't think Dr Evil could have came up with a better plan. I mean they did wargame the covid pandemic, so obviously they knew if they drove the fear factor like they did, people would rush for the cure without asking questions. Looks like they were right.

Same here. Family and friends rolled their eyes at my urging them to hold off until more safety data was available. Many of them rushed to take it, so they could continue indulging themselves with concerts, travel, dining, parties and other worldly pleasures. A young woman 7 months pregnant followed her doctors advice to get injected. Her baby cries all the time and seems to have developmental issues. Another has two teenage sons injected. They go thru wave after wave of illnesses. Their young lives put at risk for blind compliance, willful ignorance and self-indulgence. I can't imagine the guilt parents will feel when they realize what they've done. Putting their faith in the system and sacrificing their own children for lifestyle choices. At least they rolled their eyes at you. My family yelled at me and uninvited me to all events and gatherings. Naturally, they've all since been sick and by the grace of God I'm doing fine. I'm so thankful to you and everyone else here for the daily reminders I'm not alone and we definitely did the right thing,

So proud of your strength. I caved got 2 shots...guilt from older family, and a cf bff, ...but fortunately my immediate family woke up (hubby, 2 adult children) and will never take the boosters or anything ever again. Moved (

fled) to Florida....praying all the healthy life choices, supplements and sunshine ☀️ and freedom restores our immune system. 🙏 BE PROUD OF YOUR INNER RESOLVE. YOU ARE NOT ALONE. 🌸

My husband and I got the first 2 shots too. Never ever will we take any boosters. My husband and I both got covid amd now we have natural immunity! I hate that our friends kids told them that if they didn't get the jab, they couldn't see their Grandkids. What a crock of crap. If we try to talk to our family and friends that believe in all the boosters and stuff, they won't listen to us so we don't even try anymore.

My daughter screamed in my face that if I didn't get the Venom I was going to die. This was 2yrs ago and all I had said was, why? People are still getting Covid, what's the point? Well, here we are, my husband and I haven't gotten the Venom and we have had Covid, and we are still here. We know now the "cure" is way worse than the disease. My daughter is not a bad person by any means, she was scared for us, and I have forgiven her for that day, but I will never forget. I will NEVER forgive the people that did this to us.

My 30 yr old one very healthy daughter who is 125 lbs and did yoga daily was threatened to loose job or get shot so she got 1 shot. She had a stroke a couple months later and spent 9 days in a hospital on dangerous blood thinners Thank God she recovered fully but

she is always sick and weak. She had mono and has reoccurring boils in her ear. Also every single family member that got that shot is ALWAYS SICK and acheing.

I believe God lessened the effect of Covid19 and that your body will be purified of spike proteins. Just continue living, get zinc from your food, sunshine, vitamins, minerals, etc.

The vaccines are a different matter. That is a choice people make. Some are coerced. So, the deaths from vaccines will hit both the worshippers of drugs and doctors as well as the innocent, like children and those who felt they truly had no choice to keep a job to provide for their families, or live in countries where it was mandated, etc. The good news for decent people who may die of the vaccine is that when your body dies, you as a spiritual being, will not be affected by any genetically modified cells.

(That's providing you are a spiritual being. Methinks some earthlings are artificials, not true spirits.)

St Peter at the Pearly Gates – Question:

Did you worship doctors and drugs instead of true spirituality?

Not really. When most people get covid the virus stays in their upper respiratory system and multiplies there. The immune system usually stops upper respiratory infections before they're able to enter the bloodstream. In this case the viral spike proteins wouldn't be freely circulating through the blood.

But when you get the jab or any other vaccine, you're bypassing several layers of your body's natural defenses and injecting toxins directly into your bloodstream where they can potentially directly interact with almost any of the body's tissues and organs, including the heart.

The Admiral

It's a weird pathogen... and why wouldn't it be? It was created in a lab.
But here's the thing you need to understand... catching Covid and having an immune response as you get over it, is a totally different protective profile, than getting vaccinated.

The "vaccine" (IT'S NOT A VACCINE... it's a "biologic") tricks your cells into becoming a spike protein manufacturing machine (amongst a slew of other things that even the manufacturers don't completely understand) and forces an immune response to the spike protein. Your body is reacting to the spike protein, but it is not reacting to the other constituents of a viral infection. The virus lipid layers, and other parts of the virus cause a bunch of different dynamic immune factors to respond, and these are a coordinated response to Covid and other viruses, and they retain "memory" of how to fight that same pathogen, should it be encountered.

How long the spike proteins circulate in your body after having Covid, I'm not sure... but your body's total immune system mounts a response, attacks the virus, accelerates apoptosis of infected and damaged cells, etc... and "takes out all the trash and dumps it" as you get past the infection.

Congratulations are in order now. You are now inoculated against some kinds of coronavirus, in a way that is far far superior to the CV19 jabs.

FWIW, that fact is Virology and Immunology 101... and didn't suddenly become null and void, and make all the textbooks of the last 3 to 5 decades wrong. It's not a magic virus, and the textbooks are STILL correct.

Whether revisions of them will be gaslit as hell, like the world's population, remains to be seen.

The people who wouldn't speculate about having and recovering from Covid, and whether it would impart some immune response against future infections, are a disgrace to science... and should be shunned and considered dangerous to the well being of people. Based on all previous knowledge of viral infection... it would have been more than fair to believe there was a high likelihood that prior infection imparted at least some immunological benefit against a future exposure of Covid and some variants.

The issue is tethered spike with natural infection vs untethered spike with the jab. It's the untethered spike that is a toxin.

NAC as you get it OTC as a supplement is nigh on useless. The key is getting the N-acetyl cysteine directly to the innate immune cells that can actually use it. If you can get it in an inhaler, for example, that'll help tremendously with respiratory inflammation. If it has to be digested first... you're flushing it down the loo, and that's literally all you're doing.

Yes, but much less than the vax. You should go to worldcouncilforhealth.org. They have recommendations for clearing it. Ivermectin, for one, but others. Nigella Sativa is good. Can buy at amazon or health food stores. The WCFH recommends several OTC products for this. Google "nigella sativa covid". Impressive results. Quercetin good too.

Your body's immune is an incredible fighting machine when in good order and most us do have decent ones. The Natural Killer cells of your body basically shakes hands with every cell in your body daily and kills the ones that it does not recognize. The vaccine messes with your NK cells and other white cells that fight "bad cells". .

Democrats are the cult. Trump has not been in office in years and you still prop him up as the straw man for your hate. Democrats were demanding lockdowns. Democrats were demanding masks on children. Democrats granted immunity to Big Pharma. Democrats have been spending trillions of dollars on climate lies. Democrats got 13 soldiers killed in Afghanistan. Democrats started the war in Ukraine. Democrats do not answer any questions that are pertinent. Democrats have pushed sexualized classrooms for young children. Democrats have opened up the border. Democrats are the enemy of America. If you still vote democrat after all the crimes they committed, you're either a low info voter or an ordained cult member.

Whether he was duped and got his ego all wrapped up in warp speed, or even worse, that he's all in with the globalists (which I personally don't believe but you shouldn't completely rule out anything right now.) As I said, I voted for Trump twice too but I don't worship the guy. It does appear that we have far too many fellow MAGA that can't see past some things. Those labeling some of us as cultists aren't all that far off at times. A lot more in MAGA need to wake up more than they already have.

It's not only mRNA vaccines doing the harm. There are also non-mRNA vaccines using a different technique for delivery than mRNA such as AstraZeneca and Johnson and Johnson, which also instruct the body's cells to create endless spike proteins, the wrecking balls causing the internal damage, not to mention whatever else is in the "vaccines." (And the latest non-mRNA vaccine, Novavax, directly injects spike proteins.) Spike proteins were first seen in the HIV/AIDS virus. Covid19 which has 4 HIV inserts (spike proteins), thus man-made, and the vaccines are causing AIDS, faster, more lethal and with worse side effects.

See this, from the beast's mouth – <https://www.yalemedicine.org/news/covid-19-vaccine-comparison>

That writeup by Yale Medicine contains clear descriptions of how each of the above-listed Covid vaccines deliver the spike proteins. They are actually bragging about it.

Don't be fooled that it's just 'mRNA' causing the damage. It's all of them.

LINK:

The 9 Indian scientists in January 2020 found the man-made 4 HIV inserts of spike proteins in Covid-19.

Part of the Merriam Webster online definition of "spike protein" has this:

"Using a powerful imaging technique ... , researchers from the National Institutes of Health, Weill Cornell Medical College and Yale University School of Medicine observed the motions of **key proteins on the surface of HIV called spike proteins.**

— Emily Mullin

— called also S protein"

So, what has yet to be fully exposed and known to all is whether these spike proteins, thus HIV itself, under Fauci, was manmade in the early eighties.

In Dec 2021 CFP commenter "Something New 4 Once" wrote:

"AIDS – Man-made Holocaust. The fact that AIDS is a man-made virus created in U.S. laboratories has been covered up. By Jason Jeffrey

Re 4 July 1984 Indian Daily Patriot published re Ft. Detrick, MD, report from anonymous US whistleblower. CIA and W.H.O. and NIH were involved.

British Sunday Express 26 Oct 1986 "AIDS made in lab. Shock." Quoted British expert Dr. John Seale and Berlin Prof . Jacob Segal."

See earlier research at CFP – THE HUNT FOR PROOF

IS THE "SPIKE PROTEIN" MANMADE – THE SPIKE PROTEIN WHICH OCCURS IN HIV, COVID19 AND IN VACCINES (Novavax) AND THE OTHER VACCINES INSTRUCT THE CELLS TO CREATE THE SPIKE PROTEINS.

That hunt included looking for patents for the spike protein itself, because a patent would prove it was man-made. The hunt was successful. Others have found even more proof in patents.

My hope for those I care about and all the innocents who were duped or coerced into taking it is that the large majority will survive it. I also fear what is the next thing they are going to try to shove down our throats should this vaccine not do a strong enough damage to the population. I can't imagine a world wide famine is on the agenda. I don't know how they could pull that off without causing massive upheaval of the world's populations that could endanger everything they are planning.

Yes, but they are going to have to keep it measured and contained. It can get to the point that it unravels what they are trying to accomplish. There

will still be people who hold power and influence who will rise against them once they realize the target is on them and their family's backs too.
