

My interview with UK cardiologist Aseem Malhotra, survey results, and more

I interview Aseem Malhotra. Did you know that none of the UK cardiologists are getting any more jabs? The narrative is falling apart. Plus other big news...

My 80-minute interview with famous UK cardiologist Aseem Malhotra. He went from pro-vax to anti-vax. He noted that “No cardiologist that you know of is getting any more COVID jabs. That’s information that’s been shared with me since my publication.” Guess what? The mainstream UK press is NOT covering that.

In one year, the UK has gone from nearly all the UK cardiologists getting jabbed to all of them refusing to get any more. That’s a pretty dramatic shift in opinion in 1 year. The narrative cannot be maintained much longer. How many years will it be before the mainstream media reports this?

We covered a lot of ground in the 80 minute interview which I recorded using [Squadcast.fm](https://squadcast.fm) for crystal clarity of the video, then I imported into Davinci Resolve to assemble the two videos and normalize the sound levels.

Topics covered (but not in this order):

- WHO says that patients should be fully informed of side effects but for the vaccine the rule doesn’t apply

✗ Our use of cookies

authorities]

- When does the nonsense stop in the UK?
- Will anyone debate you? Why do they all refuse?
- Is the vaccine helpful for anyone?
- C, D, Zinc + nasal rinses: far better than vaccines for COVID?

The screenshot shows a newsletter sign-up form for Steve Kirsch. At the top left is a circular profile picture of Steve Kirsch. Below it, the text reads: "Discover more from Steve Kirsch's newsletter". Underneath, a short bio states: "I write about COVID vaccine safety and efficacy, corruption, censorship, mandates, masking, and early treatments. America is being misled by formerly trusted authorities." The form includes an input field with the placeholder text "Type your email...", a "Subscribe" button, and a "Continue reading >" link. At the bottom of the form is a "Sign in" link.

..., rasmussen, and my surveys). Is that

ent from 5% against to 100% against

aren't they?

vered all your other papers!

myocarditis?

e vaccine?

at before?

you of being a grifter? motivations?

- Has anyone published a rebuttal to your paper? With the entire world against you (at least publicly), it seems odd nobody is challenging your papers on COVID.

Survey results

I [put out a survey recently looking at deaths in patients of medical practices](#). In looking at the results, it appears that:

1. Excess death rate from vax: at least 1 per 1,000 per year (so >500K excess deaths so far)
2. Disability rate in the military from the vax among very healthy soldiers: 5% to 10% of those jabbed. It appears this impacts troop readiness in the wrong direction.

If you are in a medical practice, please [consider taking my \(newly improved\) death survey for deaths in your patients](#). This is very valuable data. I'd love to get more submissions! Thanks!

Pfizer debate challenge

If the vaccines are so safe and effective, why doesn't Pfizer challenge us to a debate?

Big news: Pro-vaxxer who mocked one of my friends is getting arrested

I'll be able to talk about this tomorrow. The tide is turning. This guy is also a "fact checker" and I've debunked his fact check in an earlier article.

Can you guess who it is? Put your guesses in the comments. I'll tell you tomorrow when the news is released.

Steve, your tireless work is paying off. Unfortunately, it is being helped along in ever bigger ways because those who availed themselves of the 'miracle juice' are beginning to see the huge error they've made. As hard as our officials tried, they could not shrink the control group to zero and we stick out with our good health.

My neighbour just had shot #5 about 2 weeks ago. She had problems after #4 and got covid as well so I was very surprised to hear she went back for more. Within a week of #5, she experienced a small stroke.
