178 million people saw President Trump's visit to East Palestine, Ohio in spite of the fact that Fox News did not cover it live. Trump brought water, food, supplies and hope to people who had none. Trump spurred FEMA, the EPA, the NTSB and Buttigieg into action!

Citizen journalists like you and me CAN spread the truth better than the fake news. Keep going Patriots!

This report searched for the term "East Palestine" + "Trump" what you will see is while traditional outlets like Fox News are woefully derelict in their reporting with what you did, the word is still getting out there in a big way. Specifically, when the announcement was made last week there was a bump of coverage reaching about 2 million on social channels and 10 million on other channels.

However, your numbers this Wednesday were off the charts with incredible reach, **144MM on social and 34MM in other channels**. The visit meant a lot for the people of East Palestine and the surrounding communities. The trip gave them hope and raised the awareness needed to combat the incompetence of the Biden Administration. As you will see a sharp spike in the positive sentiments as well.

For comparison, Tucker's show reaches around 3.5 million people. Trump's team, with OUR help, just delivered 50 times that. Morning Joe was HUGELY upset at how successful Trump's trip was!

President Trump even bought lunch at McDonald's for the first responders!

The NTSB said the derailment was preventable and the train company was well aware of that fact. Now you know why Biden didn't go there and why the left wing hedge funds that control the train company wanted to blame President Trump for their own negligence.

The derailment was caused by an overheated axle, and the controlled burn wasn't a controlled burn at all and did more harm than good. The question is was the train sabotaged?

They were hoping they could cover this up, and you'd never know. Thank goodness President Trump went there and shined a spotlight on East Palestine, Ohio for all the world to see.

NTSB calls Ohio train derailment '100% preventable,' says operators were warned of overheated axle

NTSB releases preliminary report on Ohio train derailment

There were three locomotives and 149 rail cars. Before the train derailed, the crew received a warning telling them to immediately slow and stop the train to conduct an inspection. It was during the deceleration that a railcar carrying plastic pellets had a wheel bearing failure and

caught fire. Knowing that, Team Biden and the fake news started blaming President Trump - and the NTSB said that's BS.

"The wheel bearing failed on car number 23. So even with ECP brakes, the derailment would have occurred."

Since it's already out there, here are my heartfelt remarks to my staff this morning.

I need to make clear I have not resigned from the company, Project Veritas, I founded 13 years ago. I was stripped of my position as CEO and Chairman.

I came to the PV office today to remove my personal belongings.

If you're wondering what's next, stay tuned...

The good news is that James is already working on his future and he has lots of support from MAGA and many PV team members. You can send him tips to the email address below.

Yesterday the Texas Judge applied settled law and held that the Bar had NO evidence as a matter of law that I violated any rule in our four election fraud cases. A link to the order will follow

EVEN BETTER - there was a hearing in Arizona on election fraud. I know - you're tired of hearings that present tons of evidence that nobody is allowed to hear or litigate. So am I.

This hearing, however, ended with testimony from a forensic investigator who works for a law firm who said that the election was rigged by the cartels through a money laundering and RICO operation and they can prove it. Kari Lake has said that the cartels control Arizona. The question was HOW?

Her law firm has been investigating cartel racketeering for four years and was able to tie ELECTION FRAUD to their bribery & blackmail schemes. Not only in Arizona but all around the country!

The cartels launder money through property deeds using fake mortgage companies, fake insurance companies, fake title companies and fake recipients. Our databases are created with a back door so they can be changed online - where they create fake property owners to launder money and fake votes to rig elections.

The cartels have bribed or blackmailed HUNDREDS of judges, politicians, city clerks & election officials to facilitate the fraud, rubber stamp the fraud or look the other way and keep the scam going. They have names. They also have evidence that Hobbs and Fontes and Runbeck were bribed as well to rig Arizona's elections in 2018, 2020 and 2022. They have the receipts.

I said a few years ago that I hope there is a racketeering and RICO investigation going on to uncover money laundering for election fraud. Well, it looks like there is. It didn't start out that way but it ended up that way.

Start listening to her testimony at the link below at the 6 hour and 43 minute mark. It's about 30 minutes long but you must listen. She is the last speaker, her name is Jacqueline Breger and

she has a British accent, brown hair and dark outfit. You won't believe how bad it really is. The law firm actually has documented proof that there are some entire cities in Arizona that are racketeering operations.

DAVID: "Wow! I listened to Ms. Breger's testimony. The corruption in Arizona's election system is just part of the greater corruption scheme by the cartels. They need to keep "their people" in position to ensure that "Arizona is open for their business of drugs, human trafficking, and other crime. It makes sense now that the courts have not listened to Katie Lake's evidence of voter fraud.

The movie, "2,000 mules" laid it out very clearly. There is so much evidence and yet the courts say that there is nothing there. This testimony, coupled with all the evidence in her report, alleges that the judges are accepting bribes too. Perverting justice is one of the major sins mentioned in the Bible. They are going to regret doing it."

Some highlights pulled out by a friend of mine:

The cartels racketeering, include the entire city of Mesa and the city police. Multiple state databases have been 'hacked' including the Univ. of AZ which has corrupted data on diplomas. Legit docs are removed and hundreds of 1000s of false docs have been uploaded.

“Elections in Maricopa and Pima County have been falsified” using bribes and falsified data, involving state legislators and local officials. Bribes were facilitated by attorneys. 2 real estate agents were involved in the creation of false real estate sales and trustees and notaries.

25% of Maricopa county judges have accepted bribes.

She says they are drafting a ‘book’ of 300 pages with 3000 supporting.

Maricopa County database was designed with backdoors. “has absolutely no integrity whatsoever”.

MS: “He has a 300 page “book” and 3,000 supporting documents. Started in 2018, investigating money laundering. He has clients who lost money in the transactions that paid him to investigate - none of them are politically motivated.

I think he has had the financial motivation of uncovering mortgage fraud (used for money laundering) which I think is compensable under federal law, somewhat like how whistleblower cases against federal vendors are compensable to the whistleblower. They get a percentage, something like 10%.

He uncovered money laundering in 20 states and has close to 10,000 falsified documents in the state of AZ.”

Who do the cartels basically work for? Communist China.

With this much corruption and cheating - Katie Hobbs didn't need to campaign. That's the same reason that Biden didn't campaign. They had the election stolen before it began.

.@KariLake: "They're running a Banana Republic style, third-world, operation. That's even worse. It's like Cuba. You don't even show up to vote in Cuba. You already know the outcome before you go in. And that explains why my opponent @katiehobbs didn't even campaign."

I predicted that Minnesota would soon give driver's licenses to illegal aliens. This is what they did in California to choke it blue. Along with making weed legal.

Once you get a driver's license with no ID or proof of residence, you are then automatically registered to vote. That means non-citizens and illegal immigrants will be voting in our elections and choosing our leaders.

What people don't seem to understand is that every illegal vote cancels a legal vote.

Why don't we just send our ballots to Communist China or Iran or North Korea or Ukraine and let them vote for us. What's the point of having a country? What's the point of being an American citizen? There is none. That's the point.

 **Star Tribune** 🌟 @StarTribune · 4h

The Minnesota Senate passed legislation early Wednesday morning to allow unauthorized immigrants to obtain a driver's license without showing proof of legal residence.

WASHINGTON (Reuters) - Florida Governor Ron DeSantis will host an event for top donors and social-media influencers this weekend, the latest in a flurry of moves that suggest he's ramping up to battle former President Donald Trump for the 2024 Republican nomination.

About 150 guests are expected to attend the three-day event at the Four Seasons resort in Palm Beach, Florida, including wealthy Republican donors and conservative social-media influencers whom DeSantis' camp has courted in recent months ahead of a widely expected presidential run, according to a source who asked not to be identified in order to share details.

Fox News is a little nervous about DeSantis' fundraising gala since it makes him look like a Globalist elite. Ya think?

Tucker took the time to announce that a man named Vivek Ramaswamy was running for President. Why?

Vivek is a Soros fellow & a WEF young leader. Soros non-profits funded his college scholarship. He wiped that information from the internet before he announced. But the internet is forever. He claims that's not important or relevant.

Vivek Ramaswamy, 37, a young Big Tech venture capitalist and author of the book "Woke Inc: Inside Corporate America's Social Justice Scam" announced on Tucker Carlson's show that he is seeking the Republican presidential nomination. Ramaswamy says wokeism and cancel culture are the biggest threats to America.

Ramaswamy was born and raised in Cincinnati, Ohio. His parents immigrated from India. He was educated at Harvard & Yale Law School. He founded a pharmaceutical company & an asset management firm.

Team Vivek hates Trump & MAGA, however. They tried to delete their anti-MAGA tweets before he announced but the internet is forever. That, of course, means that Tucker loves him.

Also, he is a WEF young leader and a Soros fellow.

Biden has effectively driven Russia into the arms of Communist China. Remember that the socialist NAZIs joined forces with the Soviet Communists in 1939 to start WW2. Then they betrayed each other. History is repeating itself!

President Trump understood the risk of driving Putin into Xi's arms and his ENTIRE strategy was built around keeping them apart. He worked hard to give them reasons to work WITH

America and NOT with each other.

Unfortunately, the clowns in DC all think they are smarter than Trump. So does the fake news. They're NOT - and of course they ALL screwed it up big time.

I'm a pretty smart person but I'm smart enough to know that President Trump is WAY smarter than I am and way smarter than 99.99% of the world.

McGregor said that his sources inside of Russia say they are running ammunition plants 24/7 and preparing for a 30 month war. Putin has also withdrawn from the only remaining nuclear treaty with the US.

Elon Musk showed his cards - he wants DeSantis and he's in favor of WW3.

ELON MUSK: "A Russia-China alliance is inevitable. It will grow much stronger over time."

JOE PAGES: "It wasn't inevitable under Trump. Remember the guy you said was a bull in a China shop? How's that shop holding up under Biden?"

FRIEDMAN: "Grandma always said, "Never fight Russia and China at the same time." So did Henry Kissinger."

FRIEDMAN: "It is a struggle over semiconductors — the foundational technology of the information age. The alliance that designs and makes the smartest chips in the world will also have the smartest precision weapons, the smartest factories and the smartest quantum

computing tools to break virtually any form of encryption. Today, the U.S. and its partners lead, but China is determined to catch up — and we are now determined to prevent that.

The U.S. was in an untenable position. Today we are purchasing 100 percent of our advanced logic chips from abroad — 90 percent from TSMC in Taiwan and 10 percent from Samsung in Korea. We do not make in the U.S. any of the chips we need for artificial intelligence, for our military, for our satellites, for our space programs. The U.S. has essentially declared war on China’s ability to advance the country’s use of high-performance computing. Game on.”

In 2016, the Ukrainians bet that Hillary Clinton would offer better protection from a Russian invasion than Trump.

So, Ukraine worked with Obama to help Clinton - and hurt Trump - in 2016. The operation was run out of the Ukrainian Embassy in DC.

https://www.realclearinvestigations.com/articles/2022/03/10/how_ukraine_conspired_with_dems_against_trump_to_prevent_the_kind_of_war_happening_now_under_biden_820873.html

President Trump was asked by Glenn Beck if the Biden administration blew up the Nordstream pipeline:

"Well it could have been us and it could have been Ukraine, and it could have been some 3rd party country that wants to see trouble.

The one group it wasn't was Russia...that's the one thing I can tell you for sure...that pipeline was a huge money making proposition for Putin. He's not going to blow it up.

It could have been the US working in conjunction with Ukraine because Ukraine has total dominance over the United States.

Total dominance. We've given Ukraine over 100 billion dollars and Europe has give them basically nothing. That bothers me. These people are sick."

Can you say blackmail? How many members of the US Congress and the executive branch are being blackmailed by Ukraine for their money laundering and espionage activities in Ukraine? I guarantee you that the big Z has something on them all. And the CIA is helping.

American taxpayers have to fork over their hard-earned cash to a corrupt country because our leaders are being blackmailed and bribed into submission.

Glenn Beck asked President Trump why Biden would let China fly over our country to surveil our military installations....

PRESIDENT TRUMP: Well, there are those that say as you know Biden and the Biden family are truly conflicted and compromised with respect to China. There's a lot of money going around and it's substantial money and big money and decisions are being made.

I mean when you look at what they're doing to us on trade. They're giving back so much of what I won and it's crazy. It doesn't make sense. It's like the border - it doesn't make sense to allow. It will be 15 million people pretty soon. 15 million. That's not three million. The people are pouring in at will.

I'm watching hospitals being overrun and everything is being overrun by people that are coming out of prisons and mental institutions. They're overrunning our country. Who would say that is good? What person would say that's good.

It looks like we are compromised by China because decisions are being made that are very strange. For example, on the balloon. Why wasn't that shot down long before. Those messages don't sit there - they are immediately transmitted. So this thing flew all across our country - did its work - had nothing left to do and was heading back and then they finally shot it down.

The whole thing is crazy. So many things are wrong. Why don't we have voter ID? Why are they allowing millions of people to come in - many of these people are terrorists. They are destroying and poisoning the border and we're going to feel it for many years to come.

Why are they doing this? Why would anybody be doing this. This is a family that could very well be compromised. Why are they letting this happen with respect to China?

The ultimate sin is taking place. I learned this when I was a young student studying history. Never let China and Russia unify. We have let them unify - we forced them into unification. That's the most dangerous thing that can happen to our country.

New footage is coming out about J6 that shows the DC police shouting that they were set up by their bosses.

At first the police fired gas canisters into the crowd and into the police line by mistake — driving the peaceful crowd forward so they could breathe and disabling the police who had no gas masks. Then they fired rubber bullets and tear gas into the peaceful crowd AFTER they drove them forward. Then they beat innocent protesters. This is called bait & entrapment. NO wonder they didn't want this footage out. Wait until the final timeline comes out. Here's a taste.

Donald Trump Jr.  @... · 1h 

They lied to you about lockdowns

They lied to you about masks

They lied to you about COVID

When they refused to release 41,000 hours of J6 footage for two years, did you really think it's because they were telling the truth???

Wake up people, it's all been a lie!

On January 6th at 1:13pm: Officer Thau and the DC Metropolitan Police arrived on the Capitol's West Plaza.

Upon arrival, Thau frantically requests Capitol Police provide him with "blast munitions" to start throwing at the mostly peaceful crowd.

I agree with Roger. It looks like Tucker was not given the actual footage but was allowed to view it on one terminal with the Feds looking over his shoulder!

So does Mike Lindell. He's suing McCarthy to release it to everybody - not just Fox!

Mike Lindell: "Fox is going to sift through it and only put out what they want and I'm tired of them breaking our constitutional rights. **We're injured by not having access, and then the other thing is the Equal Protection clause, discrimination by the speaker.** You don't just give it to Fox - it's like a cover-up. **Why does just Fox get this? So they can cover it up even more? It's disgusting.**"

Roger Stone 

@RealRogerStone · 1m

Although I have the highest possible regard for Tucker Carlson, Speaker McCarthy should post 100% of the January 6 videos on a public archive so that the American people, researchers and attorneys for the J/6 defendants have full access... because "democracy dies in darkness."

This is a funny turn of events. Angela Davis, of the Black Panthers, calls the founding of America a white supremacist operation. However, it turns out that her ancestors came over on the Mayflower! Does that mean she'll have to pay reparations to herself!

The corrupt Democrat DA in Atlanta pulled together a “special grand jury” to try to “get” President Trump. She fed them crap for 9 months. They issued a report which was partly released. Dershowitz said the “special grand jury” was unconstitutional and the report was meaningless.

Then the lunatic foreman, who practices WITCHCRAFT, went on a media tour - which is totally illegal. All she did was prove that the entire process is fraudulent and nothing more than another witch hunt. What they are trying to do with her appearance is poison the public against Trump so that if they decide to indict him later for NO REASON (because they have none) that the jury will already be intimidated and swayed. This is the same stunt they pulled in Minneapolis with Derek Chauvin.

This Georgia case is ridiculous, a strictly political continuation of the greatest Witch Hunt of all time. Now you have an extremely energetic young woman, the (get this!) “foreperson” of the Racist D.A.’s Special Grand Jury, going around and doing a Media Tour revealing, incredibly, the Grand Jury’s inner workings & thoughts. This is not JUSTICE, this is an illegal Kangaroo Court. Atlanta is leading the Nation in Murder and other Violent Crimes. All I did is make TWO PERFECT PHONE CALLS!!!

Donald J. Trump ✓

@realDonaldTrump

This is the real crime that took place in Georgia, with a Racist in Reverse D.A., who presides over the most dangerous city per capita in our Nation (by far!), Atlanta, does nothing but harass me for making two absolutely PERFECT phone calls, and for any other fake reason that the Department of Injustice in D.C. tells her to pursue. They are demanding silence from people from protesting, or even discussing, Election results, because that's the place they just don't want to get anywhere near!

They took a black woman off of Aunt Jemima pancakes but put a black man dressed as a woman and wearing a blonde wig on Cheezits. We are living in the twilight zone.

Chelsea Clinton is pushing this garbage.

TIKTOK PASTOR: "God is gay, God is a lesbian, God is trans, God is queer, God is non-binary, God is cisgender...God is you and you are God."

They're replacing Christianity from within with the woke cult.

Communism is a religion (atheism) and it insists on being put first in a person's life, even ahead of God. The goal of a liberal church is not to convert people to Christianity, it's to convert people to woke atheist Communism.

Once you figure that out - it all makes sense. That's why it is important to choose your family's church wisely. That's why it is important to choose your child's college wisely. Unless you want your children to grow up to be atheist Communists. It's up to you.

A few years ago I posted a story on Facebook about a group of 8 men in India who gang raped a pregnant goat to death. I was horrified and called it “3rd world sickness.”

Sadly, I was called an effing racist and xenophobe by those closest to me for daring to post this truth. They asked me to remove the post and apologize for being offensive! They told me that a true Christian would have compassion and empathy for the rapists and would not speak harshly of a person from India. Hmm.

I did NOT remove the post and I did NOT apologize. I will NOT pretend this is OK. Evil prevails when good men and women do and say NOTHING.

Well, now it looks like Spain is legalizing bestiality. Isn't that great? Dinesh D'Souza - who was born in India - has no problem calling out evil wherever it comes from!

↻ Dinesh D'Souza Retweeted

Ada Lluch 🇪🇸 @ada_llu... · 1d ⋮

From February 9th, the left-wing government in Spain changed the law so that having sex with animals is no longer a crime as long as the animal is not injured in the process.

I thought this was fake but it is very real.

How can an animal consent to sex?

The next step will be legalizing pedophilia as long as you don't kill the child in the process.

Do you see how the slippery slope works? People become so obsessed with accepting and tolerating everything, that they even defend evil. Then they teach their children to tolerate and accept evil and even excuse them when they do heinous things!

Here's a great example:

This is the 18-year old wannabe gangsta from Philadelphia who murdered a cop by standing over him and shooting him in the head 5 times after the officer caught him carjacking. Then he tried to steal his gun. Then his wealthy mommy came and picked him up and tried to cover for him.

He's a Communist. He thinks being a Communist revolutionary like the genocidal maniac Che Guevara is cool. His sweatshirt has an anti-capitalist logo on it and his social media posts are all about Communism. He thought it was cool to assassinate this police officer.

These same ANTIFA-like thugs are taking over Minneapolis - and their liberal parents are enabling them. I know many. Their kids are caught dealing drugs or stealing guns or looting or carjacking or destroying property by arson, or whatever, and they bail them out and excuse their behavior instead of teaching them right from wrong and teaching them that evil behavior has CONSEQUENCES.

Dear Christians: So long as you believe that it's un-Christian to defend yourselves, your family, and your church from attacks by pagans, perverts, pedophiles, abortion fanatics & church arsonists then America is not going to survive.

UPDATE: For some reason, they changed the feed of the hearing to 8 hours instead of 4 hours (they must have added a narrative up front) so the testimony starts around the 6 hour and 42 minute mark. Try that instead! She has a British accent, brown hair and dark outfit.
