**Michael Huang, MD has treated THOUSANDS of vaccine injured patients**

47 0

Dr. Huang has treated thousands of patients for vaccine injury from the COVID vaccine. But in the past 20 years, he's only needed to treat < 5 people from vaccine injury from OTHER vaccines. That's really odd, isn't it? The COVID vaccines are supposed to be safe and effective. So how can there be so many injured people?

Why is he treating hundreds of Kaiser nurses for vaccine injuries? It's because these nurses can't get treated at Kaiser because they are gaslighted by Kaiser doctors. It's really tragic.

He remembers one day when he had 10 vax injured nurses in his office and [9 out of 10 had clinical myocarditis following the COVID vaccine.](#)

Check out this Twitter post with the video:

**Steve Kirsch**  @stkirsch · 1m

Dr. Michael Huang had 10 Vax injured nurses in his office one day and nine out of 10 had clinical myocarditis. Wow. They said this was supposed to be very rare. How does the CDC explain this?

## Elevated cancer rates post vaccine? Proof via parking lot.

[Huang's office](#) is at 1301 Secret Ravine Parkway in Roseville. And the parking lot for the Sutter Roseville Cancer Center which is across the street now overflows into his parking area!

That parking lot used to be nearly empty before the shots rolled out. But the shots are great for the cancer center's business apparently. Dr. Huang talks about the dramatic increase in cancer patients post-vaccine in the interview. Coincidence?

If the vaccine is so safe, why is the parking lot now full for the cancer center? Hmmm.....gotta wonder about that one.

So when the Cancer Center isn't releasing their numbers, looking at their parking lot is a way to learn the truth.

## Injury rates before vs. after vax

Huang has been practicing for over 20 years. Before the COVID vaccines rolled out, he'd only seen less than 5 vaccine injuries. Now he's seen thousands.

But the comparison is unfair because there are so few doctors in California who will see vaccine injured patients.

But Huang's point is this. If this were a safe vaccine, he wouldn't be seeing ANY vaccine injured patients. The very fact he's seen THOUSANDS is very troubling.

## Help with Epic queries needed

Dr. Huang uses Epic but doesn't know how to do the queries to get the exact stats on his patients. If you are a master of Epic and can instruct him how he can look at his patient data to gather stats, please use the [Contact Me link and check the Huang / Epic checkbox](#).

## Summary

Dr. Huang is one of the very few courageous doctors in the US who will see vaccine injured patients and issue mask and vaccine exemptions.

For helping to save lives, the medical boards have gone after him to try to revoke his license to practice medicine. They want to set an example to others not to defy the government narrative. Huang is forced to pay their legal bills to attack him. So he has to fund his own defense as well as pay the expenses for the medical boards. It's really a messed up system that nobody wants to fix.

Many people are trying to battle the ill effects of spike proteins and although that is essential to assure a longer life, the battle will not be won until the mRNA programming injected into the DNA strands are eliminated. This doctor claims to know how to do it and he's seeking out other physicians who want to learn. You can find Dr Goyetche at Twitter and Facebook. Everything you need to know is in this document. He is curing all of his myocarditis and pericarditis patients.
