Trump CV19 Vax Contract Violated by Pfizer – Karen Kingston

By Greg Hunter's USAWatchdog.com (Saturday Night Post)

Karen Kingston is a biotech analyst and former Pfizer employee who understands complicated medical and biological contracts. Kingston has been doing a deep dive into the contract President Trump signed with Pfizer for their version of the CV19 vax. The contract proves Trump required Pfizer to follow the law to produce a safe and effective vaccine. The

Pfizer vax was not safe or effective and violated the contract. On top of that, the Pfizer vax turned out to be a bioweapon. Pfizer says it produced 63% of the 13 billion injections worldwide. Kingston explains, "Unlike any other contract I have ever read before, the contract says right up

front the President said they had to produce a safe and effective vaccine, and they would have to promise it would protect against SARS-Cov-2 infections and all its variants. Oh, and by the way, all those Emergency Use Authorization (EUA) laws that give you immunity under Obama and Bush, Jr., you are going to forfeit those. . . . Trump said he wanted it by October 31, and the vaccine must be safe and effective. This was not safe and effective under the emergency use vaccine even though it was going to be EUA authorized. They cite the FDA laws under initial new drug applications that it must adhere to. In fact, Pfizer had to adhere to initial new drug application laws that were separate from EUA laws. On top of that, it had to be guaranteed to be safe and effective. . . . The contract that Trump had Pfizer sign made them guarantee this was safe and effective. So, they broke the contract, and Pfizer is not protected under the EUA law. . . . The way the contract is written, it looks to me, Trump said if we need a vaccine to reopen the country, you have to make sure it was safe and effective. . . . The phrase is in there over a dozen times. There is no gray area that the product (Pfizer CV19 vax) had to be safe and effective.”

The bioweapon/vax is research that has been under development for a couple of decades. Kingston contends, “Even Bobby Kennedy said the last 20 years of Fauci (NIH) and Ralph Baric (UNC) research was bioweapon research. Bioweapon research is based in mRNA technology. So, anyone working on mRNA technology under the guise of vaccines and gene therapy was really working on a bioweapon. This is exactly what Lt. General Kirillov, who heads up Russia’s bioweapon program, stated that this is what mRNA technology is. He said they are artificial viruses . . . pathogens based in mRNA technology. Basically, they are technology pathogens. They are meant to cause disease, disabilities and death in humans. They have developed this under the guise of vaccines. . . .”

Kingston has been trying to get the leaders around the country and in Congress to stop ignoring the extreme death and disabilities caused by the CV19 bioweapon/vax. The evidence is now overwhelming, and, yet, this huge ongoing bioweapon attack is being ignored. Kingston says, “The NIH, CDC and FDA were co-conspirators, that’s what they are. They were complicit in developing mRNA bioweapons and deploying them, not just in the United States, but deploying them globally. By ignoring the crime, you become complicit in the crime. My concern is also for President Trump. These are clearly defined as bioweapons . . . that do not prevent infection, or transmission, does not prevent hospitalization and was done under criminal and fraudulent experimentation, that is the definition of a bioweapon, especially when it causes harm. . . .This is

my warning to America and Congress. We cannot ignore that a bioweapon was developed by American companies and unleashed on the global population. If you continue to ignore this, then you are complicit in a crime. . . . You don't want a foreign power to come in and take care of this. The way Russia takes care of many criminals is they execute them or assassinate them. This is not something that America wants another global military power to take care of."

In closing, Kingston says, "We must stop mRNA technology because it will be used to destroy humanity."

There is much more in the 1-hour and 16-minute in-depth interview.

It is reported that Trump did not take the jab for Covid but was treated by Dr Zelenko with Ivermectin. Why then did Trump promote the jab via operation warp speed and still to this day promotes this toxic jab ? Trump is either a fool or part of the Deep State.

politics with honorable intentions to service 'We The People'., but it would be foolish to believe on our behalf that one man can change a corrupt system, unfortunately the opposite occurs where the system corrupts the honorable or is either murdered. I guess he didn't want to be a JFK and decided to go warp speed ahead.

Never thought Trump was in on the genocide – now he got duped. He just won't admit it – therefore condoning it and

complacent in my opinion. Sadly he took a gamble with trusting them not to throw the contract in the trash – so to speak. But if you think about it – no vaccine in history has been determined to be safe and effective in a matter of a weeks after being made and distributed. How could he think that would be accomplished?? Egotistical?? And now he still won't admit he got scammed or say anything about the genocide. Pride heads the procession of the 7 deadly sins!!

President Trump. Had. An. Iron. Clad. Contract. As. An. Experienced.
Businessman. (Relisten to this excellent interview that details these facts)

Many didn't need to read a contract for many reasons and avoided the
unnneeded Bio-Weapon Series of Clot-Shots & "Boostas" (as Dr Fraudci
pronounced them) altogether where even if you were to get the Kong-Flu to
begin with there was still a 99.98% survival rate without it. They understood
the situation like my family and took the advice of alternative therapeutics,
did research on this, followed common sense logic, and are doing fine
today...imagine that!?!?

Now, there is sill that unhinged WOKE phenomena of ongoing attack upon
President Trump who is still being hounded by insane Marxists and satanists
who want to arrest him to prevent him from running again...should he
announce caution AGAIN about the "vaccines" for those that need to be told
what to do with them and their God given free choices? If you think he does,
again, you haven't been paying attention...

Jen, my experience in rural ND is that those who are devout Christians are awake; by devout I mean those who regularly pray. These are the Catholics who give the rosary daily and travel to

participate in the Latin Mass when they can or the Protestants who spend time daily in prayer – not the folks who go to church weekly but don't spend significant time in prayer on their own or with their families. The people in the rural areas of the Northern Plains are generally conservative but it is the people who are devout who almost universally refused the Covid shots even at the threat of their livelihoods and it is these people who understand what is happening in the world. It has been a beautiful example of how God gives wisdom and discernment to those who pray. As such, I think the answer is to seek a rural area and people who pray.

Yesterday, WSJ said that 186 banks are facing the same risks as Silicon Valley Bank.

Today, a coalition of 110 banks are asking for FDIC insurance on all deposits for 2 years.

Every hour counts right now as hundreds of banks face the same issue.

Panic is spreading quickly. Mar 18

03/19/2023 • Reply

Doubtful the FDIC would do that. Guaranteeing all the uninsured deposits of Silicon Valley Bank and Signature Bank was very bad. Here is my take on how the failure of these two banks should have been handled after the FDIC took control of those banks. The FDIC would create a "bridge bank" and place the assets and liabilities of the failed bank into it, which the FDIC did do. Of course, they then would ascertain what the true market value of the assets were and what the total amount was owed to the creditors of the bank which would mostly be depositors. I am going to be conservative and guess that the value of the assets would have been at least enough to pay out 75% of what was owed to the depositors. The FDIC then could allow the depositors to have access to their bank accounts up to 75% of their account balance. This would give the depositors the ability to conduct business and pay their bills. The FDIC then can start to sell most of the assets of the bank to raise cash so that it can be paid out to the depositors in 3 or 6 months when the FDIC decides to liquidate the bank. Depositors may only get 80% or 90% of their deposits but that is all they deserve. They do not deserve to get the full amount unless the proceeds from the sale of the assets of the bank comes to an amount that would allow it. I welcome any thoughts about my resolution of these two failed banks.

Wayne

03/19/2023 • Reply

Looks like the FDIC found a buyer for Signature Bank.

The Federal Deposit Insurance Corporation (FDIC) entered into a purchase and assumption agreement for substantially all deposits and certain loan portfolios of Signature Bridge Bank, National Association, by Flagstar Bank, National Association, Hicksville, New York, a wholly owned subsidiary of New York Community Bancorp, Inc., Westbury, New York.

The FDIC estimates the cost of the failure of Signature Bank to its Deposit Insurance Fund to be approximately \$2.5 billion.

Depositors are in fact unsecured creditors; banksters and their government buddies would rather enact bail-ins than allow people to get their money. We need to understand their agenda here: as Bill Holter said, they either can save the dollar or save the financial system, but either way, our standard of living decreases. The little guy will be stepped on to raise the banksters up. Why should he expect to get "his" money (which he really just gave to the bank) back?

being unvaccinated with most of my children.
Living in a 55+ community. I see the repercussions of many who took the shot. They came into our park in Florida in March 2021 to give everyone that sign up to get the first shot over 70 percent sign up of a 500-home community. Many people in our park now have gone downhill with sudden illness Dementia, tremors, cancer, strokes and blood clots loss of bowl moments. Many with stomach issues to those who got vaxed Then most all in our park that were vaxed personally that I know did catch covid eight months later in fall Of 2021. I caught covid from a vax neighbor friend in Feb 22. She was sicker than me. Most all the ones I know that are my friends seem to be always catching some bug. Many I see

have a constant. What I call a covid vax cough. They cough all the time.

If Trump does go to jail the he will need something to read. I suggest someone drop these off for him.

1. The Pfizer Documents (50 Reports – 500 pages) by the Daily Clout and the War Room. And recently another 14 Reports added at The Daily Clout – especially Report #54 on Infants and Children!!!
2. Edward Dowd's book "Cause Unknown" The Epidemic Of Sudden Deaths"
3. All Evidence Gathered And Lawsuits By Thomas Renz, Dr. David Martin, Reiner Fuellmich.
4. All Evidence gatherd by Karen Kingston on patents showing deadly jabs were being planned by DOD and made by them – not by Pfizer or Moderna in "Warp Speed"!
5. Statistics gathered by alot of people on all deaths and injuries relate to the "unsafe and deadly effective" jabs – especially all the BABIES!!!!!!!!!!!!
6. Alot of Epoch Times articles in their health section and their Insight Magazine – on Dr. Mercola and Peter McCullough reoprting on the deadly jabs for 2 and half years. And how about a video to watch – "Died Suddenly" by Stew Peters.

Greg, I

am sure you will not allow

this comment to be published, but
whatever!

When are you going to accept the fact that Donald J. Trump is an intelligent adult, capable of researching, and utilizing said research to ascertain the truth about the experimental Bioweapon injections that have killed, are killing, and maiming millions of people, yet he is still encouraging people to subject themselves to said bioweapon injections, and ... he ... only ... is responsible for his decisions?

Stop blaming his “advisors!”

Donald Trump is responsible for his personal decisions, just as any other adult is responsible for their own decisions.

You often refer to people as being “stupid.”

Well, in my opinion ... it is just stupid ... for you to continue to blame Trump’s alleged advisors, for his decisions.

How many times does Trump have to lie to you, and millions of others, before you cop a clue. The man is a notorious, selfish, egotistical, liar!

I am sorry I voted for him ... twice!

I think it's really important to understand and acknowledge that this is not the first time the pharmaceutical industry has created the disease and also provided "the cure". It is in fact their business model and has been for decades! Just like Wall Street, the way to get rich is to play both sides of the trade. The entire vaccine schedule, which is now an insane 70+ vaccines for kids, is known to cause all kinds of issues including learning disabilities, cancers, autism, and allergies, just to name a few. Vaccines and virology are a sham, and the truth is coming out.

Serious question: if there's this massive die off, what are they doing with the bodies? Service Corporation reported crappy earnings.

“Total comparable funeral revenue decreased by \$29.9 million, or 5.0%, in the fourth quarter of 2022 compared to the same period of 2021, primarily driven by a significant decline in core funeral revenue of \$29.2 million.

The decrease in core funeral revenue of \$29.2 million, or 5.8%, was primarily the result of a 6.6% decrease in core funeral services performed as the prior year was more heavily impacted by the COVID-19 pandemic. This decrease was slightly offset by a 0.9% increase in the core average revenue per service. The comparable core cremation rate increased an expected 150 basis points to 55.3%.”

The Western media was filled with reports declaring 03/18/2023 •

Putin is a War criminal and stating that foreign leaders should shun him. Curious thing about indictments — they are allegations of criminal conduct and must be proven in court. But most in the West are not waiting for that judicial process to run its course, they already have decided that Putin is guilty as charged.

Russia's incredible Foreign Ministry spokeswoman, Maria Zakharova, called out the staggering hypocrisy of the West in leveling such charges:

The experiments of the “enlightened West” on sex change in children, the persecution of doctors who believe that there are only two sexes, the perverted interpretation of juvenile law, the destruction of the institution of the family, the replacement of “mom” and “dad” with degenerate terms “parent A” and “parent B”, the propaganda of perversions among minors – all these are not annoying accidents, but a large-scale policy in NATO-centric countries. And those states that, like Hungary, are trying to resist within the Alliance, are being subjected to real persecution.

Sanctions and harassment against Leonid Roshal (Noted pediatrician, Chairman of International Charity Fund to Help Children in Disasters and Wars) and Maria Lvova-Belova (Presidential Commissioner for Children's Rights in Russia) are signs of the dehumanization of liberal dictatorships.

Russian attempts to save children from the ravages of war is being viciously attacked while most Western governments and media outlets remain mum on the murder of Ukrainian children during the last 9 years by the Government of Ukraine in its relentless shelling of civilians in the Donbas.

What is sick our local newspaper ran a full page story on our new immigrant family that fled Ukraine, and blaming Putin's Russia.

What this fool doesn't understand is America installed this Nazi Zelensky that is NATO backed for future resource-raping by EU and the west..., and Zelensky ordered the killings of tens of thousands of fellow Ukrainians for many years until Russia stopped it.

This COWARD in this newspaper story fled his nation of birth instead of trying to dispose of the problem, remove Zelensky and tell the EU banksters to invade and rape some other nations natural resources.

FREEDOM COMES AT A COST, AND MANY MEN DIE, instead he chose to flee his nation and now is a SYMPATHY WHORE in the United States, eating our free entitlements. Just like the Mexicans that flee their lands, too afraid to fight the cartel and live free again.

FDA has a conflict of interest. It’s not a great leap to understand that the people deciding what goes in our food allow things that cause disease. Then the same people get to decide what is used to treat those diseases. All of this is funded by the big companies making both the food and the drugs. The FDA needs to be disbanded.

I think Karen Kingston pointed out China so as to show that China is helping the US dark players to cause this destruction. China has all the different variants (ingredients) on standby to infect cells. This is what happens in an authoritarian system, the government gets away with criminal acts and collusion with bad players and face zero opposition. China bans mRNA not because it cares for its people but because the

government doesn't need to kill people who are already programmed robots and obey like sheep. China is part of the globalist plan to wipe out billions of people, and they know Chinese people are so brainwashed and obedient that there's no need to cull them. Also the Chinese government knows if they had chunks of the population dying off then they would also face uprisings and protests.

Marie, you hit the nail right on the head when you mentioned getting educated about plandemics.

Around the year 2004, there was an anthrax scare, and apparently, the U.S military had even come up with a so called vaccine for it, and 300 million doses was even produced for this scare, but were never given out.

What came of it though was legislation that made it easier for the U.S government to future so called vaccines on its own people.

The other day, Dr. David Martin (a famous lawyer who is very familiar with these types of things), was interviewed by Kim Iversen and he did discuss the anthrax vaccine, as well as many other things such as patents going back over 20 years.

It is a one hour podcast, but it is well worth watching, as he does put a lot of pieces together, and he uncovers a lot of fraud going on between universities, colleges, and the pharmaceutical industry amounting to billions of dollars.

Another great report from Greg Hunter and Karen Kingston. Karen is an expert, she knows what she is talking about. You don’t have to convince everybody, the vast majority are busy from working and exhausted, another part of the population will keep their head in the sand as genocide occurs in their own community. The

thing that is hard for most Americans to grasp is that the United States is a federal corporation that is a foreign power in relation to the fifty Union States. Said United States federal corporation headquartered in Washington DC, District of Columbia are not, repeat are not United under any constitution or bill of rights or any other instrument. The federal corporation is an overlay over the original republic, said United States and its U.S. politicians, bureaucrats, agencies, departments view the Union State Citizen as an enemy to be plundered, pillaged, robbed, tortured under their U.S. president torture policies and programs. Said United States views all forms of life must be extinguished through any and all means. This latest bio-weapon is a product in their public-private fascist Nazi, Socialist, anti-Christ United States. Again the United States is a foreign power that has sent out its unregistered foreign agents into the field in the fifty Union States under the guise of your local municipal city, corporate county, State of Chaos corporation to effect the genocide policy, program. Counting on US politicians, US officials to arrest, charge and carry out executions against themselves will not occur. The best chance of any roundup is a better organized military that has the names of the United States actors in charge of the genocide. Outside the continental United States of America is more enemies of the United States foreign federal corporation of war criminals. The good news is that the evidence is available as to this latest genocide operation by the United States and its corporate business partners. The Department of Defense is the head of the bio-warfare logistics, funding, research with bad actors like phizer and all the producers of vaccines. The Covid-19 trial run was not efficient enough and did not eradicate enough human life, so they are busy in the bio-weapons labs around the world supercharging the next batch. Americans will lucky if a honorable military service arrives to start the process of containment. State Capitols, Governors, Congress will continue to cover up the crimes, don't look for anything of substance from United States public pretenders, they double, triple and quadruple down on their felonies, murders and fraud. "Officialdom in the US" made huge profits on the testing, the shots, the ventilator tubes were all financial incentives to participate in genocide, the hospitals had no actual protocols to save lives, the administrators made sure of that. The dishonorable criminal group affiliated with Washington DC and State Capitols, they have real problems and it's not Karen Kingston or Greg Hunter, they have the attention of military services all around the world that is isolating the psychopaths, sociopaths of Washington DC. See the former county courthouses don't care that you know they are criminals running human trafficking, narcotics trafficking and other crimes, all they care about is that the Union State Citizen can't do anything about it. For the most part, the American people can't do much about their corrupt organizations pretending to be courts, hosted by attorneys doing

business as judge not really. The real problem the genocide participants have is all the very well funded and capable military services around the world that can do something about those war criminals hiding out in the Statehouses, Courthouses and the District of Columbia a foreign entity in relation to the fifty Union States. We have some well armed Union State militias that can help out and mobilize just about anywhere in the united states of America to help out a countrymen who is under threat by the foreign United States. But the DC genocide gang will have to be rounded up by outside military services that have the correct resources for the mission. Have a great day!

We are living in the End Times prior to the return of Jesus Christ. We are witnessing the end of the prior world order before our eyes. We cannot expect the legal, political, or social protections of this prior world order to protect us or avenge for our sufferings. This is the preparation for the final battle between good and evil, God (Jesus) and Satan, and the COVID pandemic really was only a precursor to all this, as well as other events going past decades and centuries from Christ's first physical appearance on Earth.

I took the vaccine (Pfizer) and two of the subsequent boosters and am following the FLCCC protocols to the best of my time and ability. I am not expecting retribution from Trump, the Supreme Court, or any man for the decision I freely made during the pandemic considering the circumstances of my life, where I live and work, and what I could handle mentally and spiritually. Before each dose and booster, I signed all the forms stating that I knew what I was doing; you didn't need to be a lawyer or doctor to understand the experimental nature of these vaccines, though the subsequent revelation of their purpose in depopulation and

bioweaponry has been sobering and yet further evidence of the End Times in which we are living.

I prayed before my first dose. I did not get vaccinated flippantly or lightly. My greatest concern was if this indeed was the “mark of the beast.” The Holy Spirit confirmed to me that the vaccine was NOT the “mark,” but that it was the “precursor” to the mark. That is, the vaccines have laid the foundation for when the Antichrist will seek to imprint a permanent spiritual “mark” on our very souls. Only the Antichrist’s mark is irreversible, being the equivalent of Jesus’ words of the one unforgivable sin, i.e., the sin against the Holy Spirit, the sin which denies the eternal truth of who Christ is.

For anyone on this forum like me, may this post provide some level of comfort. The pandemic was not easy for any of us. I endured and continue to endure social and family conflict as a result. But my fundamental concern always is not my body, but the state of my eternal soul. In the end, we all know what the Apostle Paul wrote, that “every knee shall bow and every tongue confess that Jesus Christ is Lord” (even those who reject Him). To that end, Greg has always been right to remind us “Fear not,” even while fear(s) continually surround us in this fallen world prior to our Lord’s return.

NH Watcher,

Now that you know the truth, you will be held accountable by God if you ever again agree to have your God-given DNA altered into this Satanic DNA, trans-human, anti-God creatures. No excuses. You are playing with fire and your eternal soul is at stake.

I personally do believe that there is still forgiveness for taking the injection, for now, but when the total life control CBDC economic system comes out and is forced on us (made mandatory or die) , praying to God before

worshipping the Beast (bowing down and submitting to this system or taking this Satanic bioweapon injection) won't cut it or excuse you. There will be no forgiveness. Undoubtable, their new CBDC Beast system will also be linked to injection status.

We are told to persevere until Christ returns and continue to hold to the testimony of Christ. We are warned repeatedly not to be deceived and not to take the MOTB. Even if it means starving, losing our jobs, being an outcast, or being killed for not complying. Taking the MOTB means we are an enemy of God.

The MOTB is one of the reasons we will see a great falling away (apostacy) in the last days (already started). People will try to justify their actions (stealing from neighbors or stores) and for worshipping the Beast (by taking the injection and submitting to the CBDC system) saying, "surely God does not want me or my family to die or starve" and He will forgive me for taking the MOTB. There will be no forgiveness when we reach these times.

I'm glad you are working on detoxing and asking God for forgiveness like we all need to be doing because we have all been contaminated to some degree. Do not comply ever again no matter what the cost. Your very eternal soul is at stake.

Yes Greg, there is a way out for all those who did 2 injections and a booster. Look into the GERSON Institute, and the GERSON Therapy protocols for Cancer Cures. The protocol actually doesn't cure disease but repairs the immune system so IT can kill pathogens that invade the body. I have read Dr. Max Gerson's books, and have taken a basic course from the institution for the protocol. And, you can NOT be a sissy about it. It is a tough protocol but if you want to be healed then you suck it up and do the work. These people know as much about how to heal the body as Karen Kingston knows about her world. Many thanks Greg and Karen!

This information is extremely disturbing! God help us! God help all humanity! I have been skeptical about vaccines since my younger son almost died of RSV Virus when he was 4 months old, right after he received his 4 month childhood vaccines. I'm convinced that the vaccines LOWERED HIS IMMUNITY! BTW, he received twice as many vaccines as his older brother (they are 18 years apart in age – long story) due to additions to the childhood vaccine schedule. He was CONSTANTLY SICK throughout his infancy and childhood! It's too complicated to go into now.
The bottom line is, this experience made me wary of vaccines. Neither of us got the damn bioweapon, so I'm glad something good came of the suffering we went through!!! I advised my older son against getting the Bioweapon, but he succumbed to the propaganda! At least

he didn't get a booster, but I'm still worried about him!

Thanks Greg. Karen Kingston is a jewel. I have been dilatory in joining <https://karenkingston.substack.com/> but after listening to the interview this morning I upgraded to paid — way more info inside the pay-wall. Her articles are easily understood and are educational; everything she says is backed up.

Dr. Robert Malone is a DoD Deep State plant. He takes credit for the creation of the mRNA vehicle in which to use for vaccines and other ingredients. It is being used NOW for animal vaccines. We don't know exactly what toxins are being put in our farm animals for food. He acts like he is on the people's side but he is not. He is being paid millions to keep working with these corrupt health agencies, and the DoD, the most corrupt of all. DoD and Fauci NIH made all the viruses we know-HIV, SARS1, and SARS2, Ebola, seasonal flu virus, and the childhood disease and vaccines (full of toxins causing autism and other injuries). Interview Malone and get the truth if you can. Fauci, FDA NIH, and Big Pharma have patents on all these evil viruses and shots. Financed by Gates, and Rockefeller, JP Morgan and Carnegie, all NWO corporations, to control population and own all the resources on the earth Since 1900 the NWO took over our country using these Big Industrialists, the Federal Reserve, the CIA, IRS, and the illegal Federal Income Tax. They caused the 1921 collapse to take our middle class wealth; caused several more esp the 2008 housing bubble and collapse where the Feds bailed them out again. Now the corrupt Rothschild Feds are doing it again. We are very close to losing our country to these NWO communists!

Greg,

Hi. Thanks for all you do!

Please talk with Dave Hodges from the <https://thecommonsenseshow.com/> website. According to his sources the “plandemic” is going to be a combination of Ebola (hemorrhagic fever) and smallpox and get Karen Kingston to start digging. Thanks! Both uncurable diseases. After some research, it seems a combination of colloidal silver and the preservative BHT would be helpful in fighting both. BHT would be taken at a dose of 250 to 500 mg a day on an empty stomach. The place to get quality large quantities of colloidal silver where 1-gallon and 5-gallon jugs are available is <https://www.purestcolloids.com/product/mesosilver/>. Not any affiliation with them. It saved my wife's life when she got a viral pneumonia that almost killed her.

So many people on here are quick to blame Trump, as if they are being paid by the deep state to find something, anything, to try to convince Trump supporters that he is the second coming of the devil.

Trumps original written agreement with Pfizer for the vaccine:
Must be safe and effective
Must be delivered before Presidential Election
Pfizer will forfeit their immunity if the vaccine is not safe and effective

So how does that written agreement make Trump guilty? You would have to be a slick lawyer, inspired by the devil himself, to find fault with Trump when Karen Kingston spent the entire interview describing how Pfizer breached that agreement.

So here is my take on what Karen is saying as well as my inputs:

- 1) The COVID Virus always was a bioweapon designed in a bioweapons lab by the DIH (Fauci), DARPA, Big Pharma, CDC, WHO and funded by USAinc.
- 2) Same with the bioweapon DNA altering mRNA Gene Therapy Bioweapon Injections containing self-replicating and self-assembling bio-hybrid micro Robots
- 3) China is one of the only nations in the world that did not sign a contract with Pfizer and the mRNA bioweapon is banned in China. The rest of the world was forced to be poisoned with this bioweapon to make sure we will die suddenly from this bioweapon with the intent of replacing the dead with non-mRNA vaccinated Chinese nationals.
- 4) The vaccine has always been aerosolized from the time they attempted to “vaccinate the bats in the caves of Wuhan”. It was the vaccine that was released into the bats, not a virus. The mRNA gene editing technology has been sprayed on all of us by aircraft and put into our food for years already so we must detox from these parasite micro-robots (Liquid nano-Particles) and the graphene oxide. Doing nothing is not an option.
- 5) The 5G system is not a communication system but is in fact a military style genocide weapon. The self-replicating and self-assembling bio-hybrid micro Robots and graphene oxide are activated by the 5G RF signals. They self-assemble to the shape of the inside of our arteries and veins (forming fractal Tree monopole antennas that are both transmit and receive capable). As these antennas grow in size the blood flow is stopped and the person dies suddenly. These antennas begin to disassemble (become smaller) as the 5G transmissions are removed making this the perfect murder weapon. Not enough evidence to convict if an autopsy is ever even done. Prove me wrong!

I'm confused why Karen is concerned for President Trump. He did not order a bioweapon, Birx lied along with Fauci and Collins. The WEF, All alphabet agencies and DC did this. Russia would not hold President Trump responsible for this they know what happened. Only Americans are stupid enough to continue this lie along with the paid off politicians ((on a global scale). President Trump can't really do anything at this time, but Biden can and won't. When he can deal with he will. Sorry to say DC never deals with anything, they just talk it to death. Remember they didn't have to get the shot.

Diana,

Trump knows this is a total fraud and deadly and debilitating. Trump should come out and say he was duped and stop the shots, which are still going on. Instead he is now silent and for the longest time he was saying it save millions of lives. The CV19 bioweapon/vax DID NOT SAVE NOT ONE LIFE. Trump needs to come out ASAP. He certainly was not in on the genocide. The contract proves this, but now has to lead and not ignore this huge problem and murder program mandated by Biden.

Monday, March 20th. saying he got wrong counsel back in March of 2020 from Fauci, Birx, and others and that he should come clean on what he knows regarding that and what he was told. If he is suppose to have an unjustified indicted on Tuesday (which will cause enough of a fire storm with conservatives and libertarians), he needs to state facts about

It only takes 3 questions to get the truth out of this AI – Artificial Idiot.

Block Chain technology will be utilized only on the US Wholesale CBDCs. There won’t be much different between the US Retail CBDCs and the Chinese digital yuan except it would likely be back by mRNA biometric tech and social credits will likely be necessary in that future just like Chinese CBDCs.

Answers I got from ChatGPT regarding Central Bank Digital Currency:

#1 What is Central Bank Digital Currency?

Central bank digital currency (CBDC) is a digital form of a country’s currency that is issued and backed by its central bank. CBDC is different from digital currencies such as Bitcoin, which are not backed by any central authority.

CBDCs can be used for transactions just like physical currency or traditional digital payment methods. They may also offer additional benefits, such as faster and more efficient payment processing, increased financial inclusion, and improved transparency.

There are two types of CBDCs: retail CBDCs and wholesale CBDCs. Retail CBDCs are designed for use by the general public and can be used to make purchases and payments. Wholesale CBDCs, on the other hand, are designed for use by financial institutions and can be used for large-value transactions between banks.

CBDCs are still in the development phase in most countries, but several central banks have already begun testing and implementing them. Some countries are also exploring the potential benefits and risks of CBDCs before deciding whether to introduce them.

#2 What is the difference between the US CBDC and the one China is using now?

As of my knowledge cutoff date of September 2021, the United States did not yet have a fully operational CBDC, although the Federal Reserve has been actively researching and exploring the possibility of a digital dollar. However, China has been at the forefront of developing and implementing a CBDC, which it calls the digital yuan or digital renminbi (RMB).

The main difference between the digital yuan and a potential digital dollar is their underlying technology and design. The digital yuan is built on a centralized architecture, meaning that transactions are processed and verified through a centralized system operated by the People's Bank of China (PBOC). The digital yuan is also designed to be traceable, meaning that the PBOC can track transactions and potentially monitor user behavior.

In contrast, proposals for a US CBDC have focused on a decentralized architecture that would be built on a blockchain network, similar to cryptocurrencies such as Bitcoin. This would allow for greater user privacy and security, as well as potentially allowing for more innovation and development in the digital currency space. However, the specific design and features of a potential US CBDC have not yet been finalized.

It's also worth noting that the digital yuan is currently only available for use within China and is not yet widely accepted internationally, while a US CBDC would likely be designed for global use.

#3 Will the US Retail CBDC be built on blockchain network or does it apply only to Wholesale US CBDC?

As of my knowledge cutoff date of September 2021, there is not yet a definitive answer on whether a potential US retail CBDC would be built on a blockchain network or not. However, many proposals and discussions around a US CBDC have focused on the potential benefits of a blockchain-based design.

Proponents of a blockchain-based design argue that it would allow for greater security, transparency, and efficiency in payment processing, as well as potentially enabling new use cases and applications for digital currency. However, there are also concerns around the scalability and energy consumption of blockchain networks, which would need to be addressed in order to make a blockchain-based CBDC feasible for widespread use.

It's worth noting that the Federal Reserve has not yet made a final decision on whether to proceed with a CBDC, and if so, what its specific design and features would be. The Fed is currently conducting research and consultations with stakeholders to assess the potential benefits and risks of a CBDC and to inform its decision-making process.

Great and very informative video Karen kingston.

The sad part is that the US Government is very CORRUPT and are all on the take by BIG PHARMA which is contributing to their campaign thru campaign contributions (aka bribes).

Like what Kelly Ann Conway said that from the beginning, the first thing former President Trump should have done was to GET RID OF THE HORRIBLE & TERRIBLE CORRUPTION that is still in Washington DC at the time, and President Trump failed to do.

So – here we go – Kelly Ann Conway for PRESIDENT in 2024.

Col. Macgregor: Ukraine is CRUMBLING Under Putin's Military Offensive / Stephen Gardner
270,296 views Mar 19, 2023

Colonel Douglas Macgregor sits down with Stephen Gardner for update on the Ukraine-Russia war. Is the war in Ukraine about to hit a turning point because I am starting to see groups like the Washington post and the New York Times finally tell the truth about the strength and condition of Ukraine's army and the number of casualties they have suffered? Why do you say that Bakhmut has been like a meat grinder? And is it time for Ukraine to fall back, regroup, give themselves a couple days to build up ammunition, and then dig in and try and hold the line again? Senator Lindsey Graham of South Carolina says it's time for the United States to get serious and show Russia who is the boss. He said the US military should start shooting down Russian war planes over international water. Is this a smart move and was following Senator Graham's advice and policy into war with Russia? Lloyd Austin says Russia is preparing for massive attacks in the spring when the mud dries out and that the United States and NATO need to rush weapons to Ukraine so that they can keep beating back Putin and the Russian army. What are your thoughts on his comments?

The energy partnership between China and Russia has been vital for their trade and economic cooperation lately. Their joint efforts in the oil and gas sector have had a significant impact on the global energy market.

As this collaboration continues to grow, China has become one of the biggest purchasers of Russian oil and gas. And the energy sector has been the top area for cooperation between the two states for a while.

It's been beneficial and extensive. The foundation for the cooperation began with the "Russia-China Joint Statement" in 1996. The collaboration began with oil and gas and now includes coal and nuclear power.
