The families of Jan. 6 patriots who have been railroaded in an unconstitutional federal probe are getting truthful information about the court proceedings to the public.

They have launched a website (<http://transcripts.j6families.org/>) featuring a searchable database that allows individuals to review the transcripts from the court cases that have been an absolutely disgrace to the rule of law.

Recent video footage released by the Republican-led U.S. House and Fox News host Tucker Carlson has shown that the entire federal Jan. 6 probe is based on lies.

“A defense attorney for a Jan. 6 defendant has compared the treatment of his client to Soviet Russia and claimed he has “never seen such a blatant disregard for inmates’ rights.”

“The DC Jail is more reminiscent of Solzhenistyn’s ‘One Day in the Life of Ivan Denisovich’ than it is of any remotely acceptable penal institution,” the attorney wrote in a filing.

“It is so utterly shameful and far reaching than Your Honor saw fit, for other reasons, to hold both the Director of the City’s Department of Corrections and the Warden of the DC Jail in contempt of court,” they added.

The defense attorney noted that the DC Jail has made it incredibly difficult for him to perform his duties as these Soviet-style show trials are initiated by the regime.

“I have practiced criminal defense as an attorney throughout this entire country and have never seen such a blatant disregard for inmates’ rights as I have seen from this DC Jail. The countless hours I fought through DC Jail bureaucracy simply to be told how I could forward Discovery to my client was nothing more than a veiled attempt to thwart and discourage inmates from receiving the proofs in their own cases,” the attorney wrote.

“When I finally learned of the DC Jail’s requirements and fully complied, the flash drive of Discovery I provided was returned to me without so much as a single note or letter as to why it was not given to my client. To this day, I cannot obtain an answer as to why that Discovery was returned to me in such a derelict fashion,” they continued.

“There is a well-documented history of the DC Jail hindering attorney/client visits as well as refusing the Capitol Riot inmates the same privileges as other inmates to email their attorneys and families. The entire world but for the DC Jail has found Zoom and other electronic applications to provide video visits in the face of the COVID-19 pandemic,” the attorney added.”

God bless the Jan. 6 families for continuing to fight back against the propaganda perpetrated by the Biden administration and deep state against their loved ones.
