

Joe Biden: America's Trafficker-in-Chief

An analysis of how Biden's administration is enabling & facilitating the evil business of child sex trafficking.

There's something very dark and sinister going on in this country under President Biden.

Since he took office, the actions and policies of his administration have allowed child sex trafficking to flourish. His administration has hired child predator sympathizers, released disinformation protecting elites tied to trafficking and enabled trafficking with an open border policy and secret operations. Moreover, the Biden administration's reversals of Trump's policies have emboldened child predators and even put migrant children knowingly under the care of sex traffickers. Is this incompetence? Or is Biden, or whoever controls him, facilitating this evil strategically and by design.

Biden's Pack of Pedophile Sympathizers

Biden has a history of appointing people who are sympathetic toward child sex predators. His recent nominee to the Federal Communications Commission, Gigi Sohn, [is part of a group that has strongly opposed bipartisan legislation aimed at protecting sex trafficking victims](#). Sohn has been a member of the Electronic Frontier Foundation (EFF) since 2018 which campaigned

against the Stop Enabling Sex Traffickers ACT and the Allow State and Victims to Fight Online Sex Trafficking ACT that year. The two bills created new federal criminal and civil liability for any individuals who facilitate the prostitution of another person and liabilities for platforms facilitating sex trafficking. The EFF argued against the legislation citing they would lead to censorship and harm online-based prostitutes.

Supreme Court Justice, Ketanji Brown Jackson, also appointed by Biden, has a troubling history of judicial rulings sympathetic to pedophiles. In fact, in her eight years as a federal judge, [she granted excessively lenient sentences in at least 8 out of 8 child porn cases](#), making her lenient toward pedophiles in 100% of her child sexual abuse material (CSAM) cases.

As if these appointments weren't concerning enough, it gets worse. Last summer, the vigilante group, People versus Predators, busted a high-level Biden-appointed U.S. Postal Service official during a child sex sting, according to [10 News San Diego](#). San Diego Harbor Police later arrested Russell Rappel-Schmid, the Chief Data Officer for the U.S. Postal Regulator Commission, for arranging to meet a minor for lewd purposes. [In a video from the operation](#), Rappel-Schmid blatantly stated: "I'm a pedophile."

And last year, Biden appointed John Podesta as the Senior Advisor for Clean Energy Innovation and Implementation where he oversees \$370 billion in U.S. climate spending. Podesta is at the center of Pizzagate — a scandal stemming from the release of his e-mails in 2016 by Wikileaks. Many of those e-mails included the use of the [pedophile code word "pizza,"](#) which [has been identified as such by law enforcement](#).

Trafficking Propaganda & Administrative Incompetence

In addition to Biden's troubling appointments, his administration is deceiving the public with misleading information on sex trafficking. In June of 2021, Biden's State Department released its annual [Trafficking in Persons report](#) that included flawed information, ironically, in a section highlighting the negative impacts of misinformation. The [report states](#) that in recent years participants in online forums have made false claims on child sex trafficking connected to "conspiracy theories."

[According to the report](#), "Rumors and theories that a global cabal of politicians and celebrities are exploiting children, that companies selling furniture or other high-priced items online are also selling missing children...are all unfounded and perpetuate false narratives about the realities of human trafficking."

IN THIS SECTION / THE NEGATIVE IMPACTS OF HUMAN TRAFFICKING MISINFORMATION

Unfortunately, enduring misconceptions about human trafficking have helped misinformation and rumors about the crime spread rapidly throughout communities and through social media, particularly in the United States. In recent years, participants in online forums have spread a number of false and misleading claims about child sex trafficking, sometimes deliberately deceiving the public through disinformation efforts connected to conspiracy theories unrelated to human trafficking. This content often becomes viral on mainstream social media platforms, taking advantage of well-intentioned members of the public, including those who want to take action to make a difference. Rumors and theories that a global cabal of politicians and celebrities are exploiting children, that companies selling furniture or other high-priced items online are also selling

This blanket statement — R.Kelly, Allison M and Ghislaine Maxwell (DOJ) has failed to catch running a sex trafficking went to Epstein's personal in his ring of sex crimes. Perhaps, Cindy McCain put it best. "Epstein was hiding in plain sight," [the widow of the late. Sen. John McCain, said](#). "We all knew about him. We all knew what he was doing, but we had no one that was — no legal aspect that would go after him."

Biden's propaganda may be an attempt to protect his high society friends, family and himself. [In 2020, Senate Republicans released a report that Biden's son, Hunter, has a history of paying Russian or Eastern European women linked to sex trafficking](#). In November of last year, GOP representatives James Comer and Jim Jordan held a news conference on the investigation into the criminal business dealings of the Biden family including their involvement in human trafficking. [Comer said the Biden's criminality include "violations of the Trafficking Victims Protection Act"](#)

It's also concerning that Biden's State Department made a [broad statement](#) claiming that online companies selling high-priced items as children are unfounded and false, as mentioned earlier in this report. Citizen journalists have uncovered significant suspicious activity on multiple e-commerce sites where cheap items are outrageously overpriced by thousands of dollars. Without a proper criminal investigation, there is no way to be certain that traffickers haven't used these sites to traffic children.

Biden's State Department claim that there's no cabal of celebrities and politicians involved in the sexual exploitation of children was a subtle attempt to discredit Pizzagate. So it's curious that in

late January, a federal grand jury found Ohio man, Joseph Hornof, guilty of distribution and possession of child porn after detectives discovered he used “pizza” as a pedophile code word. The [detective’s case file cited](#) Hornof mentioned he had sexual contact with young girls and he would refer to them as “pizza”, according to [East Idaho News](#). The Department of Justice’s [press release](#) on this case issued by the office of Biden-appointed U.S. Attorney, Josh Hurt, on Jan. 26, failed to mention the convicted child sex predator used “pizza” as a pedophile code word. The missing context for this case in an official government record is certainly convenient for Biden and his Democrat pals, like Podesta, who are linked to Pizzagate.

Biden's administration, on their sites. In 2022, U.S. Senator Joseph D. Hornof | Bingham County Jail, [tweeted that the Biden Administration is king in Persons trafficking in Persons report](#). Meanwhile, the DOJ's website does not appear to have uploaded their annual Attorney General's Trafficking in Persons report for the fiscal year 2021.

Pro-Trafficking Policies

Biden's open border policy has allowed sex trafficking to thrive in this country. The U.S. Customs and Border Protection reported on Jan. 23 that the number of illegal alien encounters at the Southern Border hit a new record in December 2022 of 251,487. Sen. Ron Johnson said in an interview that Biden's border policies are facilitating the "evil" business model of drug cartels and human traffickers. Johnson accused the administration of "lying through their teeth" on the basis that their open border policy is for "humanitarian reasons," he told [The Epoch Times](#). "There is nothing humane about the sex trafficking, the drug overdoses, the human trafficking. We are probably putting somewhere around \$18 billion in the pockets of some of the most evil people on the planet because the Biden Administration is facilitating the business model of these people, it's a scandal." Johnson believes 4.5 million illegal aliens have entered the country since Biden took office in January 2021.

According to law enforcement, in Biden's first year in office, apprehensions of migrants reached the two million mark, a 140% increase from 2020. As a result, there was an increase in trafficking. [A Texas sheriff in a county along smuggling routes said that before 2021 his deputies encountered one or two trafficking cases a year; however, in 2021 they dealt with 77 cases.](#)

In addition to his open border policy, Biden terminated a Trump program that targeted pedophiles and child sex traffickers who are in the United States illegally, according to the [Geller](#)

[Report](#). Trump's Operation Talon deported sexual predators and Biden reversed it. Florida Attorney General Ashley Moody said that there was no reason for Biden to end this program. "We rely on the federal government to assist our local and state law enforcement and remove those that are lurking in our communities that are sexual predators and that are preying on our most vulnerable," Moody said. "To have an administration, Joe Biden, cancel an operation that is focusing on sex offenders in our country, as the attorney general of Florida certainly, but as a mother, it's horrifying."

In 2021, [Biden's Health and Human Services also terminated the Trump policy that required enhanced background checks for potential sponsors for unaccompanied migrant children](#). This made children more vulnerable to fall under the care of criminals including traffickers and child sex predators. In 2022, [a record number of 130,000 unaccompanied migrant children entered the United States](#).

Furthermore, a federal whistleblower told Project Veritas that Health and Human Services (HHS) is knowingly putting migrant children in the custody of criminals and sex traffickers in a [video released late last year](#). "The tax dollars of people who are listening are paying to put children in the hands of criminals," Tara Lee Rodas, who volunteered with HHS to assist with the processing of unaccompanied migrant children, told Project Veritas. "Our sponsors typically are not citizens. They're not permanent residents. They don't have a legal presence." GOP senators are demanding there be a hearing into this claim.

Secret Trafficking Operations

The Biden Administration has also gone to great lengths to keep the public in the dark about potential government-run trafficking occurring with illegal migrants. The [New York Post](#) reported last year that the administration is conducting secret flights off the books in the dead of night. A

whistleblower for Avelo Airlines said that three charter companies are raking in millions on the taxpayer dime to transport migrants around the country and the whistleblower believes there's human trafficking involved. "The charters are not on our paperwork, not on the [air-traffic] breakdown, not on the schedule, not on the flight plan," the source told the *Post*. "They're not listed anywhere." The source said that airline employees believe they're trafficking children. "We're trafficking children," the source said. "I am not OK with that happening...the company is saying it's not true but people don't believe that." Avelo planes shuttled migrants from El Paso, Texas to East coast airports.

Biden's conservative colleagues [have dubbed him the "Trafficker-in-Chief"](#) — a name that is bound to stick as mountains of evidence come to light that he's running a massive trafficking operation in this country right under the noses of all Americans and on their dime.
