17,000 Scientists and Physicians warn that the COVID vaccine, which they identify as an experimental gene therapy injection must end.

These doctors are concerned because they believe the data now clearly shows that the shots cause far more harm than good, with those who get vaccinated actually being more at risk of disease and death than the unvaccinated. They are concerned because they see a huge uptick in damage to the heart, brain, reproduction, lungs, and immune system directly linked to the vaccine.

Global COVID Summit – Declaration IV – Restore Scientific Integrity (full video of the press conference below)

17,000 physicians and medical scientists declare that the state of medical emergency must be lifted, scientific integrity restored, and crimes against humanity addressed.

We, the physicians and medical scientists of the world, united through our loyalty to the Hippocratic Oath, recognize that the disastrous COVID-19 public health policies imposed on doctors and our patients are the culmination of a corrupt medical alliance of pharmaceutical,

have infiltrated our medical system at every level, and are protected and supported by a parallel alliance of big tech, media, academics and government agencies who profited from this orchestrated catastrophe.

This corrupt alliance has compromised the integrity of our most prestigious medical societies to which we belong, generating an illusion of scientific consensus by substituting truth with propaganda. This alliance continues to advance unscientific claims by censoring data, and intimidating and firing doctors and scientists for simply publishing actual clinical results or treating their patients with proven, life-saving medicine. These catastrophic decisions came at the expense of the innocent, who are forced to suffer health damage and death caused by intentionally withholding critical and time-sensitive treatments, or as a result of coerced genetic therapy injections, which are neither safe nor effective.

The medical community has denied patients the fundamental human right to provide true informed consent for the experimental COVID-19 injections. Our patients are also blocked from obtaining the information necessary to understand risks and benefits of vaccines, and their alternatives, due to widespread censorship and propaganda spread by governments, public health officials and media. Patients continue to be subjected to forced lock-downs which harm their health, careers and children’s education, and damage social and family bonds critical to civil society. This is not a coincidence. In the book entitled “COVID-19: The Great Reset”, leadership of this alliance has clearly stated their intention is to leverage COVID-19 as an “opportunity” to reset our entire global society, culture, political structures, and economy.

Our 17,000 Global COVID Summit physicians and medical scientists represent a much larger, enlightened global medical community who refuse to be compromised, and are united and willing to risk the wrath of the corrupt medical alliance to defend the health of their patients.

The mission of the Global COVID Summit is to end this orchestrated crisis, which has been illegitimately imposed on the world, and to formally declare that the actions of this corrupt alliance constitute nothing less than crimes against humanity.

We must restore the people’s trust in medicine, which begins with free and open dialogue between physicians and medical scientists. We must restore medical rights and patient autonomy. This includes the foundational principle of the sacred doctor-patient relationship. The social need for this is decades overdue, and therefore, we the physicians of the world are compelled to take action.

After two years of scientific research, millions of patients treated, hundreds of clinical trials performed and scientific data shared, we have demonstrated and documented our success in understanding and combating COVID-19. In considering the risks versus benefits of major policy decisions, our Global COVID Summit of 17,000 physicians and medical scientists from all over the world have reached consensus on the following foundational principles:

1. We declare and the data confirm that the COVID-19 experimental genetic therapy injections must end.
2. We declare doctors should not be blocked from providing life-saving medical treatment.
3. We declare the state of national emergency, which facilitates corruption and extends the
