In anticipation of viewer speculation, Carlson made it clear that he and RFK Jr. wouldn't be discussing the "V word" (vaccine). But he did make it clear that these three topics would be discussed in detail:

- Ukraine
- Biolabs
- Who Killed JFK

Clip 1 - Coup D'état: RFK Jr. Exposes How the US Overthrew the Ukrainian Government in 2014

During the Ukrainian riots in 2014, Kennedy asserted that the U.S., through USAID, covertly funded the unrest, leading to the overthrow of Ukraine's neutral, democratically elected government.

A month prior to the overthrow, a now-public secret call between Victoria Nuland and Ukraine's U.S. ambassador occurred, "where she [Nuland] is picking the new cabinet for the Ukraine." "So they're picking the new government a month before the old government is overthrown."

Clip 2 - RFK Jr. Accuses the US Government of Killing Peace Efforts Between Russia and Ukraine

Zelensky, an actor, and comedian with no prior political experience, won the 2019 election with a staggering 90% of the vote. He campaigned on a peace platform, promising to sign the Minsk Accords to bring peace with Russia. However, upon taking office, he unexpectedly changed his stance.

"The rational assumption is that the US government told him he [Zelensky] could not do that," asserted Kennedy. "So Victoria Nuland and Anthony Blinken ... told him, 'You cannot have peace with Russia.'"

Clip 3 - RFK Jr. Reveals What The Media Will Never Tell You About the Ukraine War

- According to Kennedy, President Zelensky had intentions of signing the "Minsk Accords 2.0," a peace agreement with Russia, in March 2022.
- The agreement left Ukraine intact but provided protections for ethnic Russians in Ukraine.
- Putin started withdrawing his troops. However, British Prime Minister Boris Johnson was sent to Ukraine to "torpedo the agreement."
- The US marketed Ukraine as a humanitarian crisis. Yet, when pressed, US leaders said the objectives were regime change in Russia and the exhaustion of the Russian army.

"So, again, that has nothing to do with Ukraine," argued Kennedy. "What that means is the Ukraine is a proxy in essentially a struggle between two superpowers, between Russia and the United States. And we've now committed \$113 billion over there."

Clip 4 - RFK Jr. Reveals to Tucker Carlson Who He Thinks Really Killed His Uncle

Despite laws requiring the release of all related documents by 2017, many documents remain classified. The implications are that this secrecy might protect institutional interests rather than individuals. RFK Jr. highlights that the Warren Commission, initially responsible for investigating the assassination, was majorly influenced by Alan Dulles, former CIA lead who had been fired by JFK.

The commission's findings favored a lone gunman theory. However, a subsequent investigation by the House Assassinations Committee in 1979 determined there was a conspiracy behind JFK's murder.

RFK Jr. believes that a group within the CIA, primarily those associated with the Miami station (which was essentially the Cuban station), played a significant role in the assassination of JFK.

Clip 5 - RFK Jr. Unveils Mike Pompeo's Chilling Confession About the CIA

"He ... looked me dead in the eye, and he said, 'The entire upper echelon of that agency [CIA] is made up of individuals who do not believe in the democratic institutions of the USA.' That's a quote."

 **BOMBHELL:** @TuckerCarlson asked @RobertKennedyJr about the shadowy biolabs in Ukraine. RFK's jaw-dropping answer, if proven true, could shake the very foundations of trust and demands unparalleled consequences for both Anthony Fauci and Ralph Baric.

RFK's jaw-dropping answer, if proven true, could shake the very foundations of trust and demands unparalleled consequences for both Anthony Fauci and Ralph Baric.

RFK: "Anthony Fauci got all the responsibility for bio-weapons development. [...] In 2014, 300 scientists wrote to

President Obama and said 'you've gotta shut down Anthony Fauci, because he is going to create a microbe that will cause a global pandemic.' And so Obama signed a moratorium and shut down the 18 worst of Anthony Fauci's experiments, where most of them were taking place in North Carolina by a scientist called Ralph Baric (@Baric_Lab).

Instead of obeying that law, Anthony Fauci shifted lots of his operations offshore. And those operations ended up mostly in Wuhan Lab, which is a military lab [...] and many of them went to Ukraine."

Where is the outcry from the mainstream media? New York Times, Washington Post - anyone?

Clip 7 - RFK Jr: The Govt Has Funds for Wars and Bank Bailouts, but It Doesn't Have Funds for Americans In Need

- The same month the U.S. govt increased financial contributions to Ukraine (now \$113 billion in total), it cut food stamps for 30 million Americans.
- The Fed printed \$300 billion to cover bank failures.
- 15 million Americans have been removed from welfare.

- 4 million have been taken off Medicare.
- Rising food prices and inflation has crippled Americans. The average wage is now \$5,000 less than the cost of basic necessities.
- Accumulated credit card debt in the U.S. has surpassed \$1.1 trillion.
- And because of economic hardship, many parents are now assessing the severity of their child's illness before seeking medical care.
