

Vaccine Provider Incentive Program:

from Anthem/Blue Cross/Blue Shield COVID-19

ROBERT W MALONE MD, MS
AUG 14, 2023

This Substack provides the documentation and links demonstrating what many have believed to be going on with the clear obsession of physicians and hospitals to administer unlicensed medical “vaccine” products which have proven neither safe nor effective.

There were two main programs for “incentives” for this regulated biological product. The first was pretty straight-up; this many bucks extra per jabbed patient as an “incentive”. The government paid insurance companies, who then would reimburse providers. The amount of money for this program is staggering, although the government has not made the individual distribution amounts of insurance companies, pharmacies, etc. public. Most likely, it will take a FOIA request to obtain specific information (if anyone has access to those documents, don’t hesitate to email info@rwmalonemd.org with copies or links!)

To begin, Kentucky Anthem Blue Cross/Blue Shield kindly put many of their PDFs from their corporate managers regarding their various financial incentive programs distributed to providers on the web on a page titled, “[COVID-19 Information From Anthem Blue Cross and Blue Shield Medicaid \(Anthem\)](#)” The images and links below come from those sites. The individual incentive program for providers paid providers (physicians) \$50 per patient per COVID-19 vaccine dose (years 2021 and 2022). The program first only paid for adult immunizations, but then as age limits decreased for “vaccination,” the incentive program was expanded to those ages. The corresponding PDF links can be found [here](#) and [here](#), and images of the payout information are provided below.

Provider Bulletin
December 2021

COVID-19 Vaccine Provider Incentive program ages 5 to 11

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel that includes ages 5 to 11. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- December 31, 2021 — Initial incentive payment
- May 31, 2022 — Final incentive payment

How you can qualify for a bonus

As you continue to help guide patients toward COVID-19 vaccination, your practice will receive \$50 per Anthem member aged 5 to 11 vaccinated by May 31, 2022.

When you will receive your bonus

You will receive two payments. The first payment will include all Anthem members aged 5 to 11 vaccinated by December 31, 2021. The payment will be sent by electronic funds transfer or check based on the payment method used for claim reimbursement on or before January 31, 2022. Please allow 7 to 10 business days to receive payment. If you have not received it within that time frame, reach out to a Provider Experience Consultant at **800-205-5870, option 3**.

The second payment will be generated on or before June 30, 2022, and will include payment for all Anthem members aged 5 to 11 vaccinated between January 1, 2022, and May 31, 2022.

Anthem Blue Cross and Blue Shield Medicaid

Provider Bulletin
July 2022

COVID-19 Vaccine Provider Incentive Program ages 6 months+

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive Program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

Eligibility

The COVID-19 Vaccine Provider Incentive Program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel that includes members 6 months of age and older. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

How you can qualify for a bonus

As you continue to help guide patients toward COVID-19 vaccination, your practice will receive \$50 per Anthem member 6 months of age and older vaccinated by December 31, 2022.

When you will receive your bonus

You will receive payment on or before January 31, 2023. This will include payment for Anthem members enrolled in Medicaid 6 months to 4 years of age and ages 12 and older vaccinated between January 1, 2022, and December 31, 2022, and Anthem members enrolled in Medicaid ages 5 to 11 vaccinated from June 2022 through December 31, 2022. The payment will be sent by electronic funds transfer or check based on the payment method used for claim reimbursement on or before January 21, 2023. Please allow seven to 10 business days to receive payment. If you have not received it within that time frame, reach out to a Provider Experience consultant at **800-205-5870, option 3**.

Visit <https://providers.anthem.com/kentucky-provider/communications/covid-19-updates> for more information about the COVID-19 Vaccine Provider Incentive Program. We greatly appreciate your partnership and look forward to working with you in the future.

Documentation of COVID-19 Vaccine Provider Incentives for Individual Patients

The average number of patients any one family physician sees are somewhere in the range of [1800 unique patient visits per year](#).

- If 50% of those patients received a COVID-19 vaccine, that would equal roughly a \$45,000 bonus.
- If a physician increased their percent COVID-19 vaccinated to 75% of the patients seen, their bonus would be \$75,000 under this program alone

And people wonder why physicians everywhere were pushing these vaccines! No wonder specialty physicians as well as primary care physicians were pushing this product!

Note that this bonus program includes both the 2021 and 2022 years.

But the riches get even richer for physicians during COVID-19!

A second incentive program was based on a bonus system for percent of patients vaccinated during the 2021 year. That document is as follows:

COVID-19 Vaccine Provider Incentive program

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel size of 25 or more members. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- September 1, 2021 – Initial incentive payment
- December 31, 2021 – Final incentive payment

How you can qualify for a bonus

If your practice meets the below thresholds for vaccination with at least one dose by September 1, 2021, you will receive the initial incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$20 bonus per vaccinated member
- 40% Anthem members vaccinated – \$45 bonus per vaccinated member
- 50% Anthem members vaccinated – \$70 bonus per vaccinated member
- 60% Anthem members vaccinated – \$100 bonus per vaccinated member
- 75% Anthem members vaccinated – \$125 bonus per vaccinated member

The final incentive payment is calculated based on members who are newly vaccinated between September 1, 2021 and December 31, 2021 (see the *Appendix* for calculation examples). If your practice meets the below thresholds for vaccination with at least one dose by December 1, 2021, you will receive the final incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$100 bonus per newly vaccinated member
- 40% Anthem members vaccinated – \$150 bonus per newly vaccinated member
- 50% Anthem members vaccinated – \$175 bonus per newly vaccinated member
- 60% Anthem members vaccinated – \$200 bonus per newly vaccinated member
- 75% Anthem members vaccinated – \$250 bonus per newly vaccinated member

With an average patient to primary care physician ratio of 1800, lets do the numbers for the 2021 final incentive program for the seven month period (.58% of 12 months) beginning on January 1, 2021. Note: these are examples, based on 1800 a patient practice per physician.

- 30% of anthem members vaccinated within a practice x \$20 (x .58) = \$10,800.00
- 40% of anthem members vaccinated within a practice x \$45 = \$32,400.00
- 50% of anthem members vaccinated within a practice x \$70 = \$63,000.00
- 60% of anthem members vaccinated within a practice x \$100 = \$108,000.00
- 75% of anthem members vaccinated within a practice x \$125 = \$168,750.00

With a patient to primary care physician ratio of 1800, lets do the numbers for the 2021 final incentive program (which would have included children 12 and up) for the FIVE month period (.41% of 12 months) at the end of 2021.

- 30% of anthem members vaccinated within a practice x \$100 (x .41) = \$22,140
- 40% of anthem members vaccinated within a practice x \$150 = \$44,280.00
- 50% of anthem members vaccinated within a practice x \$175 = \$64,575.00
- 60% of anthem members vaccinated within a practice x \$200 = \$88,560.00
- 75% of anthem members vaccinated within a practice x \$250 = \$138,375.00

It appears that during 2021, the individual bonus plan and the percent vaccinated “incentive” program ran simultaneously.

If a practice managed to achieve a 75% vaccination rate, the bonus and incentive program would have yielded an extra profit somewhere in the range of \$382,125.00 for 2021!

My example calculations (each practice numbers would vary):

2021 ANTHEM Bonus/Incentive Program:

- \$75,000.00 (individual incentive program 2021)
- \$168,750.00 (First payment portion - 2021 group incentive Program)
- \$138,375.00 (Second payment portion - 2021 group incentive Program)

\$382,125.00 Total

Potential Physician Payment bonuses for 2021, if 75% of patients received at least one dose of vaccine for a “typical) practise

One simple explanation for why Physicians didn't speak up is because of the money to be made by administering these experimental products without informed consent.

In a sane world, this would be considered medical malpractice.

End of story.

JR Ewing Aug 14 · edited Aug 14

I spent a week in the hospital in August 2021 with severe covid. Everyone I dealt with in the hospital, and I mean EVERYONE, asked about my vax status and a few even implied that it was my own fault for being in the hospital. It was insane. And this was in addition to my own family members telling me for months how "selfish" I was being before I ever got sick.

Anyway, once I was released and mostly recovered, I went back for a followup with my pulmonologist about six weeks later (who was still wearing a mask and sitting 15 feet across the room) and he encouraged me to get the shot. I asked him why, now that I had actual acquired immunity and he just kind of stuttered and said, "Because you really should!" I haven't seen that clown since. It was very clear at that point that he had motives other than looking out for my well being.

I just want RFK Jr to get elected and Dr Malone to be appointed to a position of power to do something about these crimes. I know. Let me dream. Because:

Imagine being the person who's life is destroyed by myocarditis and finding out- you were sold for 50 bucks.

The term 'human trafficker' comes to mind.
