

What the heck is really going on? This explains it all.

TIERNEY'S REAL NEWS

NOV 1, 2023

This is an edited and shortened version of one of the **best articles** I've ever read about how they built a "police state" in America and what we face in 2024. It was written by **Sundance** of the **Conservative Treehouse** long ago. If you don't follow him - you should.

What better way to rig the 2024 election than launch **another terror attack** or bioweapon attack to take away our remaining liberties?

How did we get here? Sundance explains:

SUNDANCE: Shortly after 9/11, Vice President Dick Cheney instructed the

National Security State to view all Americans as potential threats.

The Department of Homeland Security (DHS) and the Office of the Director of National Intelligence (ODNI) were created specifically for this purpose. The Department of Homeland Security (DHS) came along in 2002, and within the

Intelligence Reform and Terrorism Prevention Act of 2004 the Office of the Director of National Intelligence (ODNI) was formed.

The DHS, ODNI, DOJ and FBI became the four pillars of a NEW institution. Atop these pillars is where you will find the **Fourth Branch of Government - the Intelligence Branch.**

After September 11, 2001, the US electronic surveillance system - that was originally created to monitor threats from abroad - was retooled to monitor threats inside our own country. That is when all of our electronic 'metadata' came under

federal surveillance. That's exactly what Edward Snowden tried to point out.

Later, Barack Obama and Eric Holder weaponized that national surveillance system so that their political opposition became the MAIN targets. [I believe

Obama hired Podesta to complete this task.]

The preexisting Federal Bureau of Investigation (FBI) and Department of Justice (DOJ) were then repurposed to become two of the four pillars of the domestic national security apparatus: a domestic surveillance state.

The problems we face now as a country are directly tied to the actions of Bush and Obama. First, the Bush administration monitored the communication of American citizens; and, secondly, Obama's team fine-tuned and used that system against their

political opponents and American citizens - and finally Trump and MAGA.

The DHS, ODNI, DOJ and FBI became the four pillars of this new institution - which is the **Fourth Branch of Government - THE INTELLIGENCE BRANCH**. Presidents **Dwight D. Eisenhower** (military) to **John F. Kennedy** (CIA) to **Richard Nixon** (FBI) all warned against this happening. [The coup against Trump is actually a repeat of the **coup against Nixon** - by many of the same players.]

The 4th Branch controls our Government and influences every facet of our life. **We**

The People are under surveillance. ***We The People*** are the target. This is what Trump means when he says “They aren’t after me - they are after you. I’m only standing in the way.”

The ODNI was created and originally intended for the CIA, NSA, DoD, DoS, and DIA to deposit their unique intelligence in ONE PLACE - so that agencies like the DOJ and FBI could access threats when needed to analyze threats to the U.S. This, they hoped, would ensure the obvious flags missed in the 9/11 attacks would not be missed again. However, it is now used by the Intelligence Branch to target Trump and

American citizens and hide information
from one agency to another.

The Intelligence Branch is an independent functioning branch of government, it is no longer a subsidiary set of agencies within the Executive Branch as most would think. The Intelligence Branch functions much like the State Department, through a unique set of public-private partnerships that support it. They use corporations to do their dirty work - like those in Silicon Valley. [That's called fascism.]

The Intelligence Branch holds power over the ODNI through their influence and partnership with the body that authorizes the power within it, the Senate Select Committee on Intelligence (SSCI.)

The people behind Obama, those same people now behind Joe Biden, knew from years of strategic planning that ‘radical transformation’ would require control over specific elements inside the U.S. government. Eric Holder played a key role in his position as U.S. Attorney General in the DOJ.

AG Holder recruited ideologically aligned political operatives who were aware of the larger institutional objectives. One of those objectives was weaponizing the DOJ-National Security Division (DOJ-NSD) a division inside the DOJ that had no inspector general oversight.

The second larger Obama/Holder objective was control over the FBI. Why was that important? Because the FBI does the domestic investigative work on anyone who needs or holds a security clearance. The removal of security clearances could be used to hire BAD GUYS.

Hillary Clinton, and her operatives in the Obama State Department, began working on their first steps to use Big Tech to spy on and control us all. The Obama administration used the “Arab Spring” as a beta test. The Obama administration recruited Facebook and Twitter to support rebellions in the Middle East that the White House and DoS supported and to hide those they didn’t. This was the modern merge between the U.S. intelligence community and Big Tech social media.

In many ways, this coordinated effort was a test run for how they rigged the 2020 U.S. presidential election. The U.S. intelligence community worked with social media platforms and political operatives.

Many people say that Congress is the solution to eliminating the Fourth and superseding Branch of Government, the Intelligence Branch. This is an exercise in futility because the Legislative Branch, specifically the SSCI, facilitated the creation of the Intelligence Branch.

The United States Senate Select Committee on Intelligence (sometimes referred to as the **Intelligence Committee** or **SSCI**) is dedicated to overseeing the **United States Intelligence Community**—the agencies and bureaus of the **federal government of the United States** that provide information and analysis for leaders of the executive and legislative

branches. The Committee was established in 1976 by the 94th Congress.

The Committee is "select" in that membership is temporary and rotated among members of the chamber. The committee comprises 15 members. Eight of those seats are reserved for one majority and one minority member of each of the following committees:

Appropriations, Armed Services, Foreign Relations, and Judiciary. Of the remaining

seven, four are members of the majority, and three are members of the minority. In addition, the Majority Leader and Minority Leader are non-voting *ex officio* members of the committee. Also, the Chairman and Ranking Member of the Committee on Armed Services (if not already a member of the select Committee) are *ex officio* members. The Select Committee on Intelligence was preceded by the **Church Committee**.

All of President Obama's 2009 intelligence appointments required confirmation from the Senate. The nominees had to first pass through the Democrat controlled SSCI, and then to a

full Senate vote where Democrats held a 60-vote majority. Essentially, Obama got everyone he wanted in place easily. Rahm Emmanuel was Obama's Chief of Staff, and Valerie Jarrett was Senior Advisor.

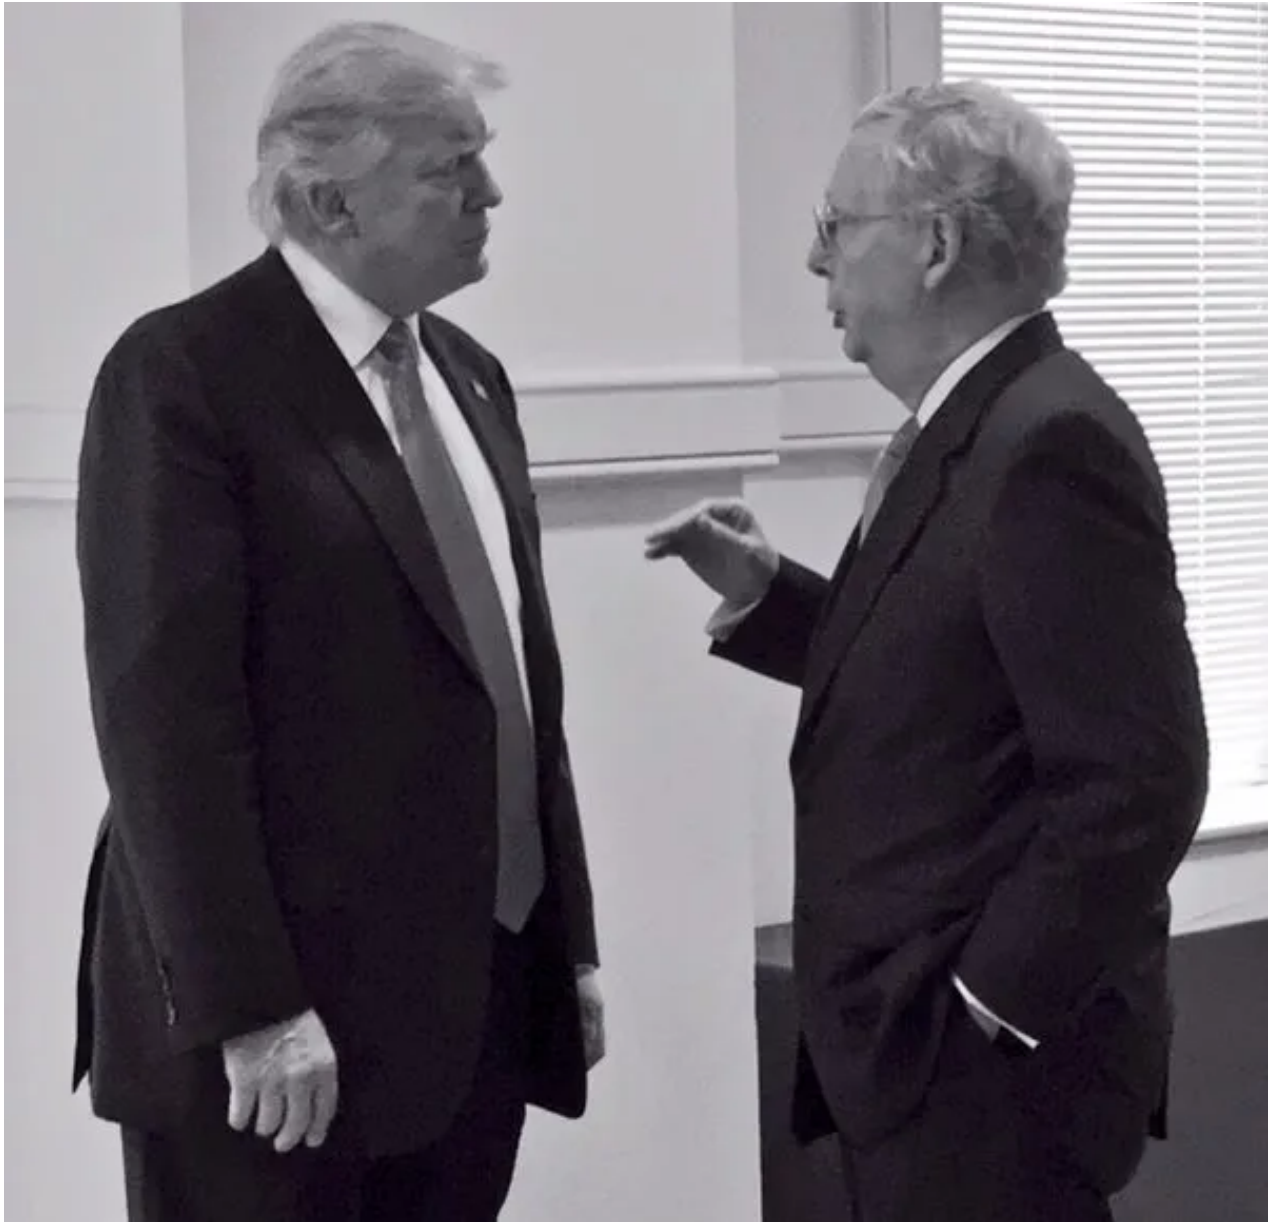

[Over the past 10 years, all these Senators have been on the SSCI. Now do you see why they act they way they do? They

protect each other AND those in the SSCI Committee.

Republicans were in control of the Senate Intelligence Committee (SSCI) in 2015 when the Intelligence Branch operation to TAKE DOWN candidate Donald Trump was underway.

Feinstein's staffer, Dan Jones, left the SSCI so he could act as a liaison and political operative between private-sector

efforts (Fusion GPS, Chris Steele) and the SSCI.

The SSCI was a participant in the Fusion GPS/Chris Steele fake Dossier operation, and as a direct consequence Republicans were inherently tied to the problem with President Trump taking office in January of 2017. They didn't expect him to win. They thought their efforts would be covered up.

Bottom line: When it came to the intelligence system targeting Donald Trump during the 2015/2016 primary, the GOP was just as much at risk of

being exposed as their Democrat counterparts.

When Trump unexpectedly won the 2016 election, the SSCI was shocked more than most. They knew countermeasures would need to be deployed to protect themselves from any exposure of their prior intelligence conduct.

Immediately Senator Dianne Feinstein stepped down from the SSCI, and Senator Mark Warner was elevated to Vice Chairman. Indiana Republican Senator Dan Coats was a member of the SSCI.

Indiana's own Mike Pence, then Vice President, recommended fellow Hoosier,

SSCI Senator Dan Coats, to become President Trump's Director of National Intelligence (ODNI) - as part of the cover up. President Trump would have no way of knowing this.

The SSCI facilitates the corrupt existence of the Intelligence Branch, so the

Intelligence Branch only cooperates with the SSCI. It really is that simple.

The Intelligence Branch carefully selects its own members by controlling how security clearances are investigated and allowed through the FBI. The Intelligence Branch also uses compartmentalization of intelligence as a way to keep each agency, and each downstream branch of government (executive, legislative and judicial), at arm's length as a method to stop anyone from seeing the larger picture of their activity. I call this the “*silo effect*“ and it is done by design.

Any appointee to the intelligence community must first pass through the SSCI, before they get a full Senate vote. If the SSCI rejects the candidate, they simply refuse to take up the nomination. The president is then blocked from that appointment. This is what happened with President Trump over and over again.

Additionally, the Intelligence Branch protects itself, and its allies through the formal classification process.

The Intelligence Branch gets to decide unilaterally what information will be released and what information will be

kept secret. There is no entity outside the Intelligence Branch, and yes that includes the President of the United States, who can supersede the classification authority of the Intelligence Branch. This is something 99.9% of the people on our side get totally and frustratingly wrong.

No one can declassify, or make public, anything the Intelligence Branch will not agree to. Doubt this? Ask Ric Grenell, John Ratcliffe, or even President Trump himself.

The *classification process* is determined inside the Intelligence Branch, all by themselves. The Intelligence Branch has

full control over what is considered classified information and what is not. The Intelligence Branch defines what is a “national security interest” and what is not. A great technique for hiding fingerprints of corrupt and illegal activity. The Intelligence Branch does all redactions.

They didn't like it when President Trump did this.

Statement on Presidential Memorandum signed tonight

STATEMENT FROM THE PRESS SECRETARY

Today, at the request and recommendation of the Attorney General of the United States, President Donald J. Trump directed the intelligence community to quickly and fully cooperate with the Attorney General's investigation into surveillance activities during the 2016 Presidential election. The Attorney General has also been delegated full and complete authority to declassify information pertaining to this investigation, in accordance with the long-established standards for handling classified information. Today's action will help ensure that all Americans learn the truth about the events that occurred, and the actions that were taken, during the last Presidential election and will restore confidence in our public institutions.

I have fully authorized the total Declassification of any & all documents pertaining to the single greatest political **CRIME** in American History, the Russia Hoax. Likewise, the Hillary Clinton Email Scandal. No redactions!

For their own self-preservation, the Intelligence Branch has been interfering in our elections for years. The way to tear this apart begins with ***STATE LEVEL election reform*** that blocks the Legislative Branch from coordinating with the Intelligence Branch.

This also explains why Joe Biden has instructed Attorney General Merrick Garland to use the full power of the DOJ

to stop state level election reform efforts. The worry of successful state level election control is also why the Intelligence Branch now needs to support the federal takeover of elections.

Facebook, Twitter, Google and Microsoft are all partnering with the intelligence

apparatus to surveil us, control us,
brainwash us and rig elections.

When the Intelligence Branch within
government wants to conduct
surveillance and monitor American

citizens, they run up against problems due to the Constitution of the United States. They get around those legal limitations by sub-contracting the intelligence gathering, the actual data mining, and allowing outside parties (contractors) to have access to the central database.

The biggest names in Big Tech have a partnership with the Five Eyes intelligence network, ultimately controlled by the NSA, to: (1) monitor all activity in their platforms; (2) identify extremist content; (3) look for expressions of Domestic Violent Extremism (DVE); and then, (4) put the content details into a

database where the Five Eyes intelligence agencies (U.K., U.S., Australia, Canada, New Zealand) can access it.

The government cannot conduct electronic searches (4th amendment issue) without a warrant; however, private individuals can search and report back as long as they have access.

Our elections have been usurped by the Intelligence Branch. Both Democrat AND Republican corruption is dependent on manipulated election results. Start at the state level. Start there.... everything else is downstream.

This is what what We the People are up against in DC. Preserving this system is also what removing Donald Trump is all about. The targeting of President Trump in order to preserve the system, the system that was created by Bush-Cheney and weaponized during the Obama administration - this is what the actions of the DOJ and FBI are really about.

What would powerful people in DC do to stop the American people from finding this out?

Would they use every lever they have to destroy President Trump's reputation, would they impeach him twice for no reason, frame him for an insurrection, drive him from office, raid his home or arrest him? Would they indict him multiple times, gag him, try to destroy his family, bankrupt him, toss him in prison or remove him from the ballot.

Would they start a war or launch a terror attack to control the next election to make sure he didn't win - or even worse?

Yes, they would.
