Hours after House Speaker Mike Johnson released a portion of the thousands of hours of J6 footage Congress withheld for years, the bogus narrative propagated by the government and mainstream media surrounding the “insurrection” is crumbling.

Cops are seen standing idly by as demonstrators peacefully walk through the building.

Catturd™ @catturd2 · Nov 17

I'm falling asleep from boredom watching this "worse than Pearl Harbor" Insurrection. None of these people belong in prison. Free them all.

I Meme Therefore I Am @ImMeme0 · Nov 17 ·

Remember Kamala Harris said that January 6 will 'echo' in U.S. history like Pearl Harbor and 9/11

Taylor Swift's concert gets wilder than this.

Footage of the most investigated demonstration in FBI history shows rioters trying to overthrow the most powerful government on earth armed with cameras, selfie sticks and flags in an attack that federal judges, the Department of Justice and Democrat lawmakers claim was worse than 9/11 and Pearl Harbor.

Benny Johnson @bennyjohnson · Nov 17

Capitol Police were giving handshakes to protesters.

Now ask yourselves this;

In which “insurrection” or “Rebellion” in history would this have happened in?

None — because this is not an “insurrection “

The first batch of videos was released Friday afternoon. Just 90 videos with no sound, comprising approximately 15 hours of over 41,000 hours of the fedsurrection, are now available to review on the [Committee on House Administration website](#). Rep. Johnson has promised to upload more in the days ahead.

BREAKING NEWS

11/17/2023 3:34 PM PT

It's unclear whether the total video dump will include body cam footage from DC Metropolitan Police Officers or Capitol Police, but it is unlikely. When *The Gateway Pundit* went to the House Administration media room, we were told we could only access footage from Capitol security cameras and various police divisions hold the police bodycam footage.

As the GOP conspicuously stalls a full release of the footage, J6 political hostages are being sentenced to years in prison for misdemeanor trespassing and non-violent crimes at the federal courthouse across the street from the Capitol building in a totalitarian inquisition against wrongthink and the First Amendment.

The DOJ has secured nearly a 100 percent conviction rate against January 6 defendants in jury trials.

The existential fate of the United States hangs on the line as the seditious Justice Department and activist federal judges threaten to throw former President Donald Trump in solitary confinement alongside the political prisoners for “his role in the Capitol riot.” What is the government hiding?

Meanwhile, Sedition Hunting, an international fascistic operation assisting the FBI with the arrest of every America First “chud” on the Capitol ground during the riot, is steadily underway.

Sedition Hunters compile CCTV footage and police body cams diligently following January 6 and credit themselves with “building entire cases” against J6ers “for the FBI from soup to nuts.”

The alleged-volunteer army of “internet sleuths,” including data scientists, academic researchers and software engineers, have created at least a dozen websites and sophisticated databases dedicated to identifying J6ers for Uncle Sam, even utilizing facial recognition software to incarcerate its political opposition in the name of “protecting democracy.”

Here is a trove of links to J6 police body camera footage Congress has yet to release:
