Judge Beryl Howell, a DC activist judge **appointed by Obama in 2010**, decided ON HER OWN that Rudy Giuliani was guilty of defamation against two election workers in Georgia for claiming that they helped steal the election for Biden. No jury found him guilty. The judge did, by default, simply because she wanted to.

Then, she sat back and laughed and told Rudy to pay **\$148 MILLION** to two former Georgia election workers, mother and daughter, Ruby Freeman and Shaye Moss.

Howell said Giuliani was guilty, by default, because he didn't turn over his personal financial records fast enough so she could see how much money he had!

The guilty verdict was decided by her and her alone - not by a jury. Rudy was not allowed to put on any defense. The jury

didn't see one single piece of evidence. The guilty verdict was determined before trial. Just like the Trump case in New York.

Howell is the judge who handed down **larger jail sentences** to January 6 defendants than what was requested by the prosecutors and has a **pending ethics complaint** against her for that. Is everyone paying attention?

Soros-funded and Obama-appointed judges now render the verdicts in America - the jury trials are irrelevant. They are staged in DC and just for show. Corrupt juries decide on damages,

without reviewing evidence, and awards are designed to bankrupt defendants. This is America, 2023. He will appeal.

Giuliani loses by default in defamation case brought by Georgia poll workers

WASHINGTON (CN) — A federal judge ruled that Rudy Giuliani forfeited his case in a defamation suit brought by two Georgia poll workers who Giuliani had falsely accused of mishandling ballots during the 2020 election in the state.

Why was the trial in DC anyway for a case in Georgia?

Remember Ruby Freeman and her mother? Remember the **water leak** in Atlanta on election night? Let's take a quick trip down memory lane and review just what happened in Georgia. If you understand what happened here - you will understand what's going on in every other swing state in America when it comes to litigating election fraud!

Before the 2020 election, legitimate polls showed Trump ahead of Biden by 1 to 5 percentage points in Georgia. Trump beat Hillary by 5.1 points in 2016 in Georgia.

On election night in Georgia 2020, Trump was ahead of Biden by around 300,000 votes or 7% - with 83% of the vote counted. Then they shut down the count

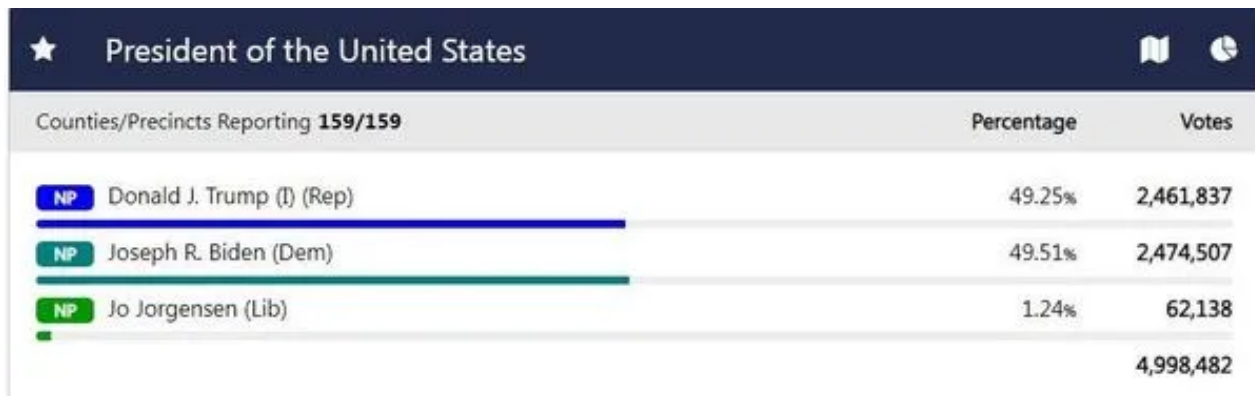

due to a “water leak” and Bret Baier of Fox News went on to declare Biden the winner in Arizona - which basically sabotaged election night right there.

Then, somehow, overnight Biden ended up also “winning” the red state of Georgia by .3 points or some 12,000 votes. Video showed that the counting room was shut down, poll watchers were sent away and suddenly election workers started pulling suitcases of ballots out from under the table, late at night, to scan them multiple times. It’s all on video.

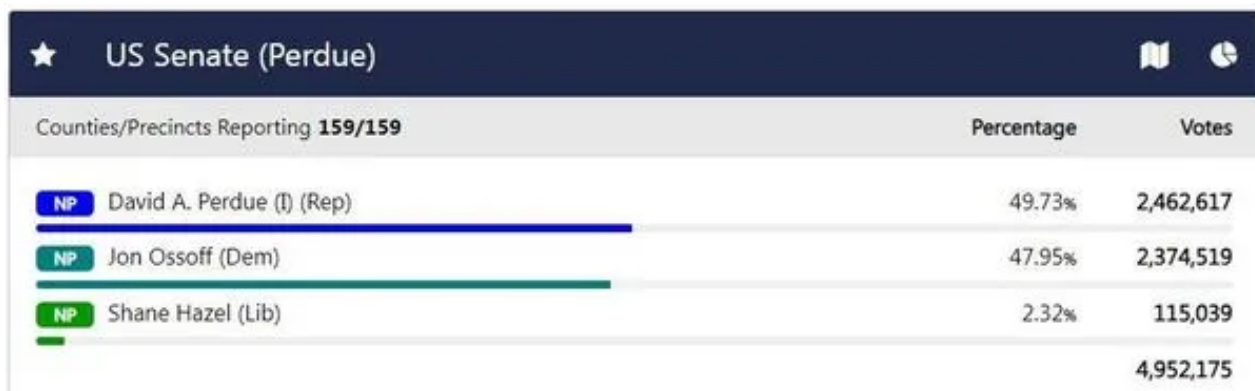

Biden went from 300,000 down to 12,000 up. It’s a miracle!

This is the final count. Biden allegedly “beat” Trump by 12,000 votes.

Strangely, in the end, Biden got allegedly 100,000 more votes in Georgia than his pal Democrat Jon Ossoff did for the US Senate. Pretty amazing and impossible. People don't vote that way up and down ticket.

No one could understand how this happened. They told us that the video of election workers like Ruby who were pulling out suitcases of ballots in the middle of the night and running them through tabulators multiple times didn't really happen. Don't believe your eyes!

Watch it again:

CAUGHT: Surveillance foota...

Later, they did recounts and kept finding “missing” ballots. But they refused to do a forensic audit so we could examine the ballots. In fact, there are STILL 150,000 ballots that have NOT been inspected and ballots were counted from tabulators that did NOT even exist.

It's worth
knowing.

OK - we all know that Ruby Freeman was caught on video scanning ballots multiple times RIGHT AFTER all poll observers were told counting was done and would resume at 8am in the morning. Months later, Ruby Freeman was caught on a police body cam admitting she reopened the seals on the ballots she took from under the table and she was scared because of what she did, and on her social media (later scrubbed by FBI) she bragged that her and her daughter delivered Georgia to Biden. Then, the FBI apparently convinced her she was wrong, and told her to lie, and Biden gave her

and her daughter a Presidential Medal of Honor.

Oh, and don't forget they impeached Trump for his phone call with the Secretary of State of Georgia asking him to document the missing ballots. And don't forget that the Soros-funded DA in Fulton County, Fani Willis, indicted Trump and 18 other Trump associates for "attempting to overturn the election" and racketeering for requesting the same.

All this for a state that handed the Presidency to Biden with 12,000 votes! If Biden really won - they would have done NONE of this!

2. ADDED TABULATOR RESULTS

In addition to the problems detailed above, the original Election Night vote count includes results for **ten (10) Advance Voting tabulators** for which Fulton County has **no records**. That is, **the tabulators do not exist** – there are no poll open tapes, no daily status tapes and no poll closing tapes.. We submitted Open Records Requests to Fulton County specifically seeking the 10 tabulator tapes, but Fulton County responded by saying that they had **“No such records”**.

To follow up, we sent two emails to the Fulton County Records Department and the Fulton County Custodian of Records, Steve Rosenberg, seeking clarification to determine if the records were missing or if they exist; the Records Department replied, **“The records do not exist.”** See attached emails and official certification of records.

These ten (10) tabulator tapes total **20,713 votes**, all of which were included in Election Night results:

But the fake news ignores all that and says Trump, not Biden, tried to rig the election. They flip the script and indict the innocent and glorify the guilty. This is what they do in Communist countries.

BREAKING: Ruby Freeman's daughter, Wandrea "Shaye" Moss, has been subpoenaed for deposition in Fulton County, GA.

On election night, Ruby, Shaye, and Ralph Jones were caught on video pulling out boxes of hidden ballots and shoving them through voting machines up to 3 TIMES each

Ralph Jones, the Registration Chief at Fulton County Government and the floor supervisor during the ballot count consulting with his crack team

7:22 AM · Jun 6, 2021 · Twitter for Android

Freeman was employed by the temporary agency Happy Faces Personnel Group, which is a contractor to the Fulton County, Georgia Elections absentee ballot department - and she was **linked to Stacy Abrams**.

In December 2020, the surveillance video was released to the public as part of a Georgia Senate Committee investigation and Ruby Freeman attempted to become a whistleblower. People forget that.

Explosive audio of Freeman speaking with mediators at the Cobb County Police Department in January of 2021 **emerged online.**

The 911 call transcript, audio recordings, and police report were obtained by **the Georgia Record** via Open Record Requests.

PRESIDENT TRUMP: “At first [Ruby] thought that they had been caught, got VERY nervous, and wanted to “spill the beans” on everyone. Then the SOS, GBI, FBI, calmed her down, helped CLEAN her social media, took her away (for two

months!). SHE THEN CHANGED HER STORY!”

Freeman said she had met with representatives from the Georgia Secretary of State’s office, Georgia Bureau of Investigation, the Federal Bureau of Investigation, and the Department of Justice in an apparent attempt to blow the whistle on the Georgia fraud. All this happened AFTER the election and before January 6th.

That activity included election workers apparently re-scanning absentee ballots and having improper access to voting computers via USB ports.

On January 4, 2021, Freeman agreed to speak with Trevian Kutti, a publicist who was working on the Perdue re-election campaign in Georgia, and Harrison Floyd, a former Trump Campaign worker, at the police station after she had called the police on Kutti for knocking on her door. He had come to her house to offer her his assistance after hearing through the grapevine that she was interested in becoming a whistleblower.

She later lied and made it sound like Giuliani was knocking at her door - not

Kutti.

After her unsuccessful meetings with State and Federal officials, Freeman told the responding officer she was uncertain of whom to trust, but ultimately decided to meet with Kutti at police headquarters and by phone with Harrison Floyd.

Freeman indicated in her 911 call and to the responding officer that she was interested in finding out what Kutti could do to help her clear her name, and expose the coverup by the Georgia Sec. of State and the FBI.

RUBY FREEMAN: “Yeah. Well yes. What I want to do when the officers come, the

people said they were close. They, I want them to come back and tell me what it is they can do for me while the officer is here.”

At the police station, she can be heard complaining about Secretary of State Brad Raffensperger’s and the FBI’s lack of action. She said that when she met the FBI and DOJ, all they did was tell her to scrub her social media.

RUBY FREEMAN: “It’s all a fraud. I know that I need an attorney. And even when I met with Secretary of State ...they didn’t ask nothing else about fraud, they didn’t ask about an attorney. So, I do want

an attorney. I know I need an attorney. I haven't answered any questions because I don't have an attorney.”

Freeman added that the FBI had not reached out to her except to wipe her social media accounts clean”

“They reached out to me only to uh clear my social media,” she said.

Ruby Freeman admitting it.

— Dr. PMS (@ps1ack) January 4, 2023

Freeman also seemed to admit that in the late-night hours of Nov. 3, 2020, she was

pressured by her supervisors to illegally scan ballots after observers had been removed from the absentee ballot central count at State Farm Arena.

And he said and they was saying the count was low, it was really low and is there ah are all of the ballots counted? And so we got like there was a few more and we can get those in the morning because there wasn't that many. They said well count as many as you can – count all of them you know. So my daughter said Mommy, get on the scanner. But I didn't scan so she said just do it so we could get on outta here. So that was when even nobody else was taking

because there were no more work to be done so we said we can't! And they said lucky – because nobody was here. And when they said that, BOOM under the table. Cut the zip ties to scan them so the number would go up, so that's how the number was created, by the ballots going through the scanner. So when all of them were done, we got the final count and we put them back in the bucket and the boxes and the bucket and zip ties and put 'em back under the table. So that's the reason the ballots came from under the table and we re-opened them up.

Ruby Freeman seemingly admits to rigging the 2020 election and the MSM doesn't

even mention it. Another conspiracy theory sounding like reality. Fulton County is so corrupt!

— *Laura K (@LauraKronen) January 5, 2023*

Freeman said there was a lot more she could tell them, but she needed to consult an attorney first.

RUBY FREEMAN: “It is serious. It is deep. It is so real ... They will believe it because I’m good at explaining myself if I’m right.”

Freeman said she was ready to go “live” with what she knew about the improper

use of USB ports at State Farm arena, but she would need to speak to a lawyer first.

But the USB ports, but really, I really, I would love to go live with that because the ballots is history. Even though my name is still lingering but if they want to do it (Inaudible) But now it's the USB ports, so I need an attorney, I want to go live, I'll go live on every platform. And it will blow your mind. And you are going to be amazed at that picture..." "I want an attorney and I want to go live. And I need an attorney and I can tell you then. But everybody needs to know how dumb they are.

“It is serious. It is deep. It is so real...the USB ports, I really would love to go live with that because the ballots is history... Now it’s the USB ports. So I need an attorney. I want to go live, I’ll go live on every platform because it is going to blow your mind.” pic.twitter.com/zS24boBDw9

After this, the lawyers swooped in and started suing everybody to shut them up. They sued any media outlet who reported the truth about that night, they sued Trump, they sued 19 people on Trump’s team, they sued Trump’s lawyers.

INTERNET

Georgia election workers suing conspiracy website over 'campaign of lies'

In a lawsuit filed Thursday, Ruby Freeman and her daughter allege how they became the target of a feedback loop of misinformation that included President Donald Trump.

Two Georgia election workers who became the target of conspiracy theories around the 2020 election are suing The Gateway Pundit, a far-right website that published false information about them as part of a sweeping effort to sow doubt about the integrity of the vote.

The election workers, Ruby Freeman, a retired 911 call center worker, and her daughter, Shaye Moss, allege in the lawsuit that Jim and Joe Hoft, twin brothers who operate and write for The Gateway Pundit, conducted "a campaign of lies" that "instigated a deluge of intimidation, harassment,

and threats that has forced them to change their
phone numbers, delete their online accounts, and
fear for their physical safety.”

Freeman eventually did get lawyered up with seven high-dollar attorneys and then claimed nothing was amiss to Pelosi’s J6 committee. Basically, it looks like she changed her tune and said what the FBI told her to say:

FREEMAN: “I’ve lost my name, I’ve lost my reputation, I’ve lost my sense of security—all because a group of people starting with No. 45 and his ally Rudy Giuliani decided to scapegoat me and my daughter Shaye, to push their own lies about how the presidential election was stolen.”

TRUMP: Wow! Has anyone seen the Ruby Freeman “contradictions” of her sworn testimony? Now this is “BIG STUFF.”

Look what was captured by Cobb County police body cameras on January 4, 2021.

“And everything they are saying is false. Everything from the quote unquote SUITCASES OF THE BALLOT BOXES, TO THE WHY WE OPENED THEM BACK UP. EVERYTHING THEY SAID WAS FALSE.THE FBI...REACHED OUT TO ME ONLY TO CLEAR MY SOCIAL MEDIA (evidence tampering?)...COUNT WAS LOW, IT WAS REALLY LOW.”

Now it gets really bad.

“BOOM under the table. Cut the zip ties to scan them so the number would go up... so that’s how the number was CREATED, by the ballots going through the scanner... I do want an attorney. IT’S ALL A FRAUD. EVERYTHING THEY ARE SAYING IS FALSE. FROM THE SUITCASES OF THE BALLOT BOXES, TO WHY WE OPENED THEM BACK UP. EVERYTHING THEY SAID WAS FALSE.”

They got Ruby 7 top D.C. lawyers and protection from the FBI (Again?). WHY? She then “changed” her statements - LIED? TROUBLE FOR RUBY!!!

- After the December 2020 coverage of the Fulton County election operations, we learn in the following body cam footage that Ruby Freeman met with representatives from the GA Secretary of State, GBI and FBI/DOJ in December 2020 and tried to blow the whistle on the improper re-scanning of absentee ballots and the improper access to voting computers via USB ports. She commented that what the Secretary of State and District Attorney were reporting was false and a fraud. When she met the FBI/DOJ, they did not ask her to tell what she knew and instead told her to scrub her social media.

The FBI told GA election worker Ruby Freeman to delete her social media posts

Ruby Freeman wanted an attorney at the
Cobb County Police Dept. She wanted to
“go live” about the USB ports because “it

will blow your mind.” The FBI then moved her from her house for 2 months.

She did end up with 7 attorneys. Led by Hunter Biden’s ex-law partner.

Freeman eventually did get lawyered up with seven high-dollar attorneys: Michael J. Gottlieb Partner, Willkie Farr & Gallagher, LLP, Eleanor Walker, Associate, Willkie Farr & Gallagher, LLP, Meryl Governski, Associate, Willkie Farr & Gallagher, LLP, John Tyler Knoblett, Willkie Farr & Gallagher, LLP, John Tyler Knoblett, Willkie Farr & Gallagher, LLP, Rachel; Goodman, Counsel, Protect Democracy, John Langford, Counsel, Protect Democracy, and David A. Schulz, Senior Partner, Ballard Spahr—before she testified before the January 6th Select Committee May 31, 2022.

Gottlieb and Hunter Biden were previously partners in the law firm Boies Schiller Flexner. In 2016, Romanian real estate tycoon Gabriel Popoviciu hired Hunter to run an influence campaign to persuade anti-corruption prosecutors to cut a deal after he was charged with bribery in his country. Gottlieb helped Biden execute the extensive propaganda and persuasion

campaign for Popoviciu, who was eventually convicted, while Hunter's father was Vice President.

Gottlieb is also an attorney for Aaron Rich, the brother of slain DNC employee Seth Rich.

Biden said that Freeman was a voting rights heroine who had been victimized by MAGA and gave her a medal!

“In the 2020 election, she upheld that sacred mission despite an orchestrated campaign to overturn the election, and that targeted and threatened her family. To the nation, she bore witness to the trauma and tragedy of that experience, and today, we the people honor Lady Ruby Freeman as part of our nation's voting rights history.”

Remember - the Republican Governor and Secretary of State of Georgia wanted Biden to win since they are in bed with the CCP - and Kemp rigs elections for himself - not to mention the fact that they murdered Kemp's future son-in-law to shut him up!

At the time of the 2020 election, the two women made little money. Shaye Moss's annual salary was reportedly about \$35,000 as an interim supervisor at the elections department. However, Moss's pre-tax income was \$259,000 during at least one of the years since the 2020 election. It's a miracle!

What does Rudy himself have to say about this? Let's listen to him directly instead of through the fake news:

Rudy Giuliani: “The case was brought in DC rather than in Georgia. The case was brought by an associate of Hunter Biden and a person who represented Burisma, the crooked oil company that paid the bribes to the Bidens. So it was obviously a Biden case. These two so-called poor

woman had about a \$10 million legal group.”

“I can tell you that this is an absurd verdict of \$148,000,000. And the case was even more absurd than the verdict because it wasn’t a case that anybody would recognize who is an American or English lawyer. **I never put on a defense. I was never allowed to put on a defense. The judge found me guilty, liable based on failure to turn over several documents after turning over thousands, none of which have a bearing on liability, but maybe on the ability to pay.**”

“I’ve never heard of a case like that where a judge finds liability based on the failure to turn over tangentially relevant documents. But that’s who the judge is. The judge is Beryl Howell. She was the chief judge. She’s the judge who intervened because she felt that January 6 defendants weren’t getting enough time in jail, which was unethical, unusual, and displayed a great bias. She’s made comments making it clear that she considers Donald Trump and those around him a danger to the republic, including me. Recently, she made a speech right in the middle of this case, I think, or right shortly before betraying her biases.”

“And all throughout the case, she didn’t conduct a trial. She conducted an inquisition to cut out every defense that I had. First, I couldn’t defend myself on whether I had committed libel or not, wasn’t allowed to put in the videotapes of them doing what I said they did, which I could have demonstrated to the jury. I couldn’t call witnesses who would support what I said. I couldn’t put documents on and reports from credible sources that said that fraud took place there. How am I going to defend myself? Then she decides we’re going to have a trial just on damages. So once again, I want to put these things in to show that I didn’t damage them. I put in no evidence

I wasn't allowed to. And when I said I would take the stand, she said to be very careful because she had already ruled that I was lying based on documents I didn't turn over, that she never saw, and that she could hold me in contempt. And I know she has a propensity to put Trump people in jail, even for longer periods of time than the prosecutors recommend. And she was sending me a clear signal that if she didn't agree with what I said, I might very well go into jail."

"If this ridiculous judgement is not the final proof needed for lawmakers to understand that a D.C. jury is beyond rehabilitation and a D.C. judge is NOT fit

to reasonably judge Conservatives or Trump supporters, I do not know what is.”

“The absurdity of the amount is indicative of the absurdity and unfairness of the entire proceeding. It bore no resemblance to a trial in a country with the rule of law. I wasn't able to offer any evidence in my defense. We'll have more to say and look forward to the appeal.”

“I've given them thousands of documents. 90% of the documents they ask for have nothing to do with the Ruby Freeman case. They're trying to discover something I did wrong or Trump did wrong, or somebody else did wrong. Most

of it I objected to. She overruled my objections.”

“And here's the best part of it. She says, I didn't turn over all of my electronic discovery. Well, I didn't have my electronic discovery, Judge. The FBI had it. I gave you everything I did have, and I gave you everything that I eventually gave to the FBI. And what I got back from the FBI, it's not my fault that it's not complete. I did not get back from them, I think, everything I gave them. Now, here's the real kicker. The stuff in there has nothing to do with this case.”

“They violated the law of Georgia in the way they counted those ballots. There's no question they did. They threw the public out. You see that on the tape. They then checked the arena twice and then they counted the ballots with no one in the public there. The law of Georgia, which the judge completely – the law doesn't mean anything anymore. The law of Georgia says that you have to have the public present to count ballots, and it's invalid if you don't.”

“It's clear that they were hiding the ballots because for the whole day, they were under a table with a big black cloth over it, it looked like a gigantic funeral, a

funeral setting. And then they waited until the people were thrown out to get the ballots out from under the – under the table.”

“Number one, first of all, you have to know that the law of Georgia requires the public to be present for the counting of ballots. In the corner of this big arena, you see, when you first see the tape, you see a large number of people, civilians.”

“Then you see them usher them out and then you see them check the arena to make sure there's nobody in the arena. There was no water break. It was a phony story.”

“They just threw these people out. And the law of Georgia is very strict. You can't do it. There are also two witnesses who witnessed them being thrown out. And then if you watched the way they counted the ballots, it looked extremely suspicious. They why would the ballots be there all day covered by a gigantic blanket? And only that blanket, it only opens up when the last member of the public is thrown out. And by the way, for the next three months, nobody would let me look at those ballots. They wouldn't let me look at a single ballot in Georgia. Georgia has gone through this. No one has ever done a forensic examination of

their ballots. And I guarantee you, they are filled with phony ballots.”

Giuliani: I didn't testify, the judge made it clear if I made any mistake or did anything wrong, she would consider contempt. This judge has a reputation for putting people in jail.

“I knew when she was assigned to the case, I knew we were dead. I didn't realize we were that dead. Do you realize that I never got a chance to put in a single bit of evidence in defense? My liability was based on the fact that I didn't completely comply with discovery, and I turned over thousands of documents, and I sat for a deposition and did not take the Fifth Amendment.”

“Which might have to do with whether I can afford the \$148 million, which I can't, but has nothing to do with whether I'm right or they're right. A lot more important would be all the videos at the time that all your viewers have seen. The

jurors never got to see those videos. We never looked at what happened at the arena.”

"They were told by the judge that, because of her ruling, that I lied. I never got a chance to say, 'Gee, would you like to take a look at what I saw? How about an independent decision on whether I lied or not.'"

"It's not a trial. I never had a trial. This is way beyond them. And my desire to move on with this case, it's really to save the republic. Trials like this do not happen in a country that's ruled by law. Trials like this happen in a country that's ruled by a

regime, which is what the Biden machine is, it's a regime. And this is not the only desecration of justice in this regime. It's one of many. It has to stop."

"The jurors never saw a single defense from me, so I don't blame the jurors, except the money is ridiculous. The amount of money they awarded is absurd. The money reflects the absurdity of the way the judge conducted the trial.

"Also, the lawyers here were Biden lawyers. These women could not have afforded these lawyers. Is it a coincidence that the chief lawyer worked with Hunter

Biden and represented the crooked
Burisma?”

**"Who's the guy who revealed that? Who?
Me. Why do you think they're coming
after me? Because if it wasn't for me,
nobody would know about Joe Biden. They
wanted me to “rat” on Trump.”**

For months, Trump has argued that he cannot receive a fair trial before a DC jury. He will cite this as evidence of that.

People forget that Rudy was a prosecutor who basically invented RICO and took down the New York mob with a racketeering case that he took 3 years to put together. Comey used to work for Rudy!

People forget that Rudy was the FIRST guy who first reviewed Hunter's laptop and researched its veracity all over the world BEFORE he presented it as evidence to the FBI in 2019. Then, they did nothing, and it was covered up by the swamp, social media & the fake news.

People forget that Rudy was Trump's lawyer who basically told Trump to walk away from the White House in early 2021 - even as people like Flynn & Powell & Byrne wanted Trump to call in the military, declare marshal law and seize the machines to prove fraud. **Rudy told Trump that the people weren't ready for the truth - that he would go to prison if he dared to defy the swamp back then in this way.**

Why did Rudy do that? Because, he said, the American people were too brainwashed to believe that the Deep State really existed. The American people were too brainwashed to stand up and

fight back. The American people were too brainwashed to believe that their nation could be that corrupt. The American people were too brainwashed to believe that their beloved institutions like the FBI and the DHS could be that bad. The American people were too brainwashed to believe that Trump was truly innocent. HE WAS RIGHT. PEOPLE WERE NOT READY FOR THE TRUTH BACK THEN. Many are still brainwashed - but the tide is turning.

In fact, Rudy said that even he was shocked at the filth and corruption that he uncovered about the Biden family on Hunter's laptop. He said that even he was

surprised at the web of money laundering and deceit he uncovered about the Globalist uniparty as he traveled the world talking to witnesses and reviewing files. I remember back then that Rudy said he expected to be murdered for uncovering all this - so he created a dead man's switch just in case.

RUDY: "They want to try and take me down and take me out because I know what's going on, and I'm not afraid to stand up and ask questions. I won't shut up, and I won't be bullied into silence! I'm the consummate happy warrior, and I'll continue to do the right thing. Thank you to everyone who has reached out with

support and encouragement this week. I thanked you last night, but I'm completely overwhelmed by the outpouring of love and support. I'll always do the right thing. From the bottom of my heart—Thank you.”

“Thanks for the outpouring of support. I'm humbled. I want everyone to understand—these trolls and nasty comments on social media don't get to me. These haters live sad, bitter little lives, and they derive happiness from the misery of others. I don't hate them. I pray for them.”

Ruby Freeman and Shaye Moss just sued Rudy *again* for defaming them after they were awarded \$148 MILLION!

3. Defendant Giuliani continues to spread the very same lies for which he has already been held liable in the *Freeman I* action. For example, on December 11, 2023, Defendant Giuliani held an impromptu press conference before a gaggle of reporters. Standing in front of the cameras, Defendant Giuliani stated that his forthcoming testimony would make: “definitively clear that *what I said was true*, and that, whatever happened to them—which is unfortunate about other people overreacting—*everything I said about them is true*.”² When asked whether he regretted his actions, Defendant Giuliani stated: “Of course I don’t regret it . . . *I told the truth. They were engaged in changing votes*.” Finally, when a reporter pointed out that there was “no proof of that,” Defendant Giuliani stated, “*You’re damn right there is . . . Stay tuned*.”

Georgia's electronic voting system was purchased from Dominion Voting Systems in 2019 and implemented statewide in 2020. That's the voting machine company that sued Fox News to

shut them up. I'm sure it's all just a coincidence.

So, the next time somebody tells you that Georgia fraud has been debunked, pull out this article and show them the documented truth. I put it all in one place so you can remember the details and do some research on your own. The fake news purposefully drips out one lie after the other so you finally give up because you have no idea what really happened and how to connect the dots! I'm sick of the lies. I'm sick of people who are afraid to speak out. I'm sick of the Communists who are rewriting history to justify destroying America. Aren't you?

GOD BLESS RUDY GIULIANI. A TRUE AMERICAN HERO.
