Watch out! There's a growing consensus among some experts that US intelligence agencies are chomping at the bit to play a significant role in the 2024 election. In their eyes, they're the final barrier preventing President Trump from returning to the White House. Many believe that they will pull off a 9/11-style attack on the US election system, and 2024 will be a complete and total wipeout.

“They basically conducted these simulations of what types of hacks and events could trigger the cancellation of a U.S. Presidential Election...It’s very likely there’s going to be some sort of cyber 9/11 style event next year [2024] and that’s unsettling.”

BILL O'REILLY PRESENTS:

TOP 5 WAYS TO PREPARE FOR A RECESSION

GET YOUR FREE GUIDE

The advertisement features a photograph of Bill O'Reilly, a man in a dark suit and blue tie, speaking and gesturing with his right hand. To his left is a graphic with the text 'TOP 5 WAYS TO PREPARE FOR A RECESSION' and a large yellow dollar sign over an American flag. Below the photo is a green button with the text 'GET YOUR FREE GUIDE'.

You can watch the entire compelling discussion here:

NEW: Leave The World Behind and Build a New One...

The burning question now is: why are intelligence agencies conducting these simulations if not to election-meddle on an even broader scale? And also, who's bankrolling this research? Probably some left-wing radical group disguised as "election integrity."

Also, it's fair to note that this isn't just a theory being kicked around by a few random people. Even a former CIA analyst believes the US intelligence agencies are gearing up for big involvement in 2024. It seems logical from their standpoint—allowing President Trump back into office is something they're determined to avoid at all costs. It's a do-or-die situation for them, and nothing is off the table.

[Fox News:](#)

A Georgetown University professor who spent 12 years as a CIA intelligence analyst is warning that diversity, equity and inclusion (DEI) efforts and the overall politicization of the intelligence

community have become a “significant” problem and that he is confident those agencies will attempt to interfere with the 2024 election similar to their efforts in 2020.

“My guess is that the the proverbial deep state within the intelligence community will reemerge because presumably a Republican candidate will again be seen as a threat to the internal policies that many intelligence people like,” Dr. John Gentry, author of the new book, “Neutering the CIA: Why US Intelligence Versus Trump Has Long-Term Consequences,” told Fox News Digital.

Within days of the bombshell New York Post story that detailed the contents of Hunter Biden’s laptop in the lead-up to the 2020 election, 51 former intelligence officials signed onto a letter in an attempt to discredit the laptop, saying it “has all the classic earmarks of a Russian information operation.”

[...]

Gentry told Fox News Digital that downplaying the Hunter Biden laptop was “clearly political” and that a highly placed source told him “in no uncertain terms” that it was done “explicitly” with the “intent to help the Biden campaign.”

They literally coordinated in order to lie to the American public with their favorite scapegoat: the “Russian boogeyman.” It’s a tried-and-true tactic they know will work flawlessly with their low-info supporters, who accept these laughable narratives without question.

There’s a clear political divide in our country. On one side, left-wingers, the former “anti-government” types, now back the US intelligence agencies. On the other, Republicans are wary of a weaponized big government and its expanding surveillance capabilities.

However, it’s worth noting that a staggering 70 percent of Americans are concerned about potential interference by US intelligence agencies in this year’s elections, since we’ve seen them do it before.

[The Cradle:](#)

An overwhelming majority of US voters say they are concerned about law enforcement and intelligence agencies interfering in future elections, according to a new Harvard CAPS-Harris poll.

When asked whether they were concerned “about interference by the FBI and intelligence agencies in a future presidential election,” 37 percent of respondents said they were “very concerned,” while 33 percent said they were “somewhat concerned.”

The only real cure for all this interference and cheating? Good old-fashioned paper ballots. No electronic voting or mass mail-in ballots, just trusty paper. Isn't it curious how the left steers clear of this very simple solution? They're all in for a month-long voting spree, electronic ballots, and a flood of questionable mail-in votes. It's like they're fighting tooth and nail to control elections, and they've got plenty of firepower to back them up.

No one can explain whats going on better than Alex Jones. He was the first to speak out over 30 year today! Is it any wonder the government and the NWO wants to smear, silence him, and ruin his life?

Political correctness, fear, and division are the weapons of choice being used to silence the people. This has been happening over the years. Covid was the fear that was used to control us. Most people happen to this country.

Who approves their budgets??!! Every single agency that's been violating our rights and laws nonstop IRS etc, has been CAUGHT at least multiple times.

The American people elected a Republican Party majority in the House for a reason.

The ONLY power they have is over the purse. The Republicans form countless committees to investigate rights violation Y. They obtain proof of wrongdoing/criminal acts, every single time. They spend 90% of their findings in painstaking detail. Then write a letter, hold another hearing on the matter or my favor the criminal organizations charged with carrying out justice.

The people are awake now!

We see through your slow rolling impeachment to nowhere!

Defund them, disband them or consider yourself one and the same in the minds of the American people your sins- whatever you want to call it, is coming for each of us someday soon.

One of the primary goals of the Russians and the CCP and internal Communist Party of America is to law and order forces. The FBI, Police and courts. Unfortunately the FBI has done a lot to help this along to Congress top the list. Local police are smeared with the fraud cases like George Floyd. WE NEED to not some of their leaders.
