Vaccine studies find a comprehensive catalogue of harm

One study investigated musculoskeletal disorders (injuries or disorders of the muscles, nerves, tendons, joints, cartilage, and spinal discs): 'All Covid-19 vaccines were identified as significant risk factors for each inflammatory musculoskeletal disorder. ...

2.

This cohort study found individuals who received any Covid-19 vaccine were more likely to be diagnosed with inflammatory musculoskeletal disorders than those who did not.

The studies looked at all vaccines delivered. Pfizer/BioNTech, Moderna, Janssen, Novavax and AstraZeneca.

3.

The lead author, Dr Jee Hyun Suh from the Department of Rehabilitation Medicine at Ewha Womans University, examined the incidence rate and risk in several medical areas including gynaecology (reproductive system disorders), haematology (blood disorders), ...

4.

...dermatology (skin-related diseases), ophthalmology (eye-related disorders), otology (ear-related disorders), and dental problems. They said that vaccination significantly increased the risks of all non-fatal AEs, with the risk of inner ear disease being the highest.

5.

Many complain that they developed tinnitus post vaccination, and it is already accepted that medication can cause a constant ringing in the ears, described by some as white noise. These include antidepressants, some antibiotics and anti-malaria medications.

6.

Kyung Hee University Hospital, Seoul looked at blood disorders in more than 4.2million people. They found many abnormalities affecting the production of red and white blood cells as well as damage to the bone marrow.

These include nutritional anaemia, which is iron deficiency, hemolytic anaemia, when your red blood cells are destroyed faster than they are replaced, aplastic anaemia, a rare condition that stops the body producing enough new blood cells which usually develops because of ...

8.

...bone marrow damage, coagulation defects, the most common is VITT. Neutropenia, which is an abnormally low count of white blood cells called neutrophils also caused by damage to the bone marrow. Neutrophils help your immune system fight infections and heal injuries.

9.

They said that the risk of coagulation defects increased regardless of whether someone received mRNA vaccines such as Pfizer and Moderna, or viral vector vaccines such as AstraZeneca, Novavax, and Janssen (Johnson and Johnson).

10.

Korea University Guro Hospital in Seoul looked at inflammatory musculoskeletal disorders in more than 2.2million. The team noted that earlier research into Covid-19 vaccines identified a range of adverse reactions that caused inflammation and an excessive immune response.

11.

They also discovered increased incidence of plantar fasciitis, a painful condition of the foot in the soft tissue connecting your heel bone to your toes, rotator cuff syndrome, adhesive capsulitis or frozen shoulder, herniated intervertebral disc or slipped disc...

12.

...spondylosis, a term used to describe osteoarthritis of the spine, bursitis, inflammation of the cushions at the joints, Achilles tendinitis and De Quervain tenosynovitis, a painful condition affecting the tendons on the thumb side of the wrist.

13.

They concluded: 'All C-19 vax were identified as significant risk factors for each inflammatory musculoskeletal disorder. This study found individuals who received any C-19 vaccine were more likely to be diagnosed with inflammatory musculoskeletal disorders than those who didnt.'

REFUSED COMPENSATION DESPITE BRAIN INJURY | AZ batch PV46664 gave Mark Kerry life-threatening VITT. After a stroke, a thrombectomy, brain injury, and fatigue that can cause him to sleep for 24hrs, VDPS say he doesn't meet the 60% injury threshold. 1. conservativewoman.co.uk/vaccine-destro...

Family applied for compensation in April 2021. The VDPS medical assessor accepted AZ's v as causation. They only pay if it is decided that a patient is 60% injured, and do not consider Mr Kerry reaches the threshold. 'The final disablement would be 18 to 35%.' They said. 2.

Mark's batch is AZ's second most toxic batch. The VDPS rejected his claim because after a 'telephone consultation', a consultant haematologist wrote: 'Mr Kerry is clinically very well, and his platelets are extremely stable. He has no bleeding or bruising

MAYDAY MAYDAY Distress calls made by pilots were up 386% in the first 3 months of this year! Last year there was 272% increase. These 7700 mayday calls are reserved for dire emergency that put passengers and crew in danger. @GCFlightAlerts 1. conservativewoman.co.uk/pilot-warns-of...

Between 2018, and 2019, the mayday average was 29.1 per cent of all distress calls. The graph shows there was an instant, steep increase when the va. cc. ines were mandated to pilots 3 years ago today. @AussieFlyers @JoshYoder @USFreedomFlyers 2.

Plus, the number of multi-crew licences issued by Australia's regulator CASA has increased by 126%. This restricts pilots to operating with multiple crew members and is issued when their medical status shows a possibility that they may become

HUMAN SHIELDS The flu jab is 'about marketing not science.' So why give it? UKHSA said: 'Vaccinating kids protects others vulnerable to flu, such as babies & older people.' Introduced in schools in 2014, deaths increased by 140% in 2015 @cochranecollab 1 conservativewoman.co.uk/children-are-g...

2. When the flu spray was first introduced for 2to16-yr-olds in 2014, the NHS said that the vaccine was expected to prevent 2,000 deaths in the population. There had or has never been anything close to 2,000 deaths from influenza in the population in the last 22 years.

3. In 2013 there were 161 deaths, 118 in 2014, and in 2015, the year after the mist was introduced, there were 284, a 140% increase. See numbers here. ons.gov.uk/peoplepopulati...

 **NO JUSTICE FOR THALIDOMIDE VICTIMS.** This illustrates how perpetrators of horrendous medical crimes evade justice. It also shows how victims were betrayed by political interference in the trial. Thalidomide maimed 20,000 babies and killed 80,000. 1. theguardian.com/society/2014/n...

2. Until covid it remained the greatest manmade global disaster. Papers, examined and authenticated, speak to political interference that violated the constitutional division of power between the legislative, the executive and the judiciary.

3. The criminal trial of employees of Chemie-Grünenthal, the German company that created and marketed thalidomide, opened in May 1968. It promised to be comparable in scale and emotional intensity to Nuremberg. Thousands of deformed babies had died or been allowed to die.
