## Big Pharma Is Double-Dipping by Manufacturing Meds to “Cure” Injuries Caused by Their Own Covid “Vaccines”

by **Belle Carter, Natural News** — January 31, 2024 in **Commentary, Curated**

(**Natural News**)—On Jan. 12, Congresswoman Marjorie Taylor Greene held, on behalf of the House Select Subcommittee on the Coronavirus Pandemic, a **hearing on adverse events**, including increasing rates of myocarditis, pericarditis and blood clots post-Wuhan coronavirus (COVID-19) vaccination.

Drs. Peter McCullough, Ryan Cole and Kirk Milhoan, who were the most outspoken medical professionals on the inefficacy and unsafety of mRNA inoculation, presented their testimonies that day. Over the past few years, they got canceled by insurance companies, got fired from their jobs and faced massive public scrutiny and the danger of losing their licenses.

At one point in the testimonials, Greene raised a concern apart from the given and proven fact that the “shots” **contained foreign spike proteins** that harm the body systems and create blood clots. The three doctors have cited several studies proving these are true but lamented how President Joe Biden’s government agencies ignored them. Another point is that the Big Pharma companies seem to have manufactured medications and vaccines that would “cure” the adverse reactions brought about by the SARS-CoV-2 vaccine.

---

*Dr. Joseph Mercola **said**, “Synthetic meat is the epitome of ultraprocessed food, and it seems naïve to think it won’t have health effects similar to other ultraprocessed junk foods.” For All-American REAL beef raised in pastures, sous vide, then freeze-dried for long-term storage, visit **Whole Cows** and use promo code “**no junk**” at checkout.*

---

Green even quoted the pharmaceutical companies to “Sell the disease and then sell the cure. And their friends in Congress, in turn, force Americans to pay for it. This is how Washington works in many cases.” “Is it fair to say then that these vaccine manufacturers created these vaccines with synthetic mRNA that has created heart disease, strokes, neurological problems and everything that you’ve talked about, do these same manufacturers sell the cures for the diseases that they’re creating?” she asked.

Cole, a board-certified anatomic and clinical pathologist, did not answer directly but said he finds it ironic that major drug manufacturer Pfizer just spent \$40 billion on a cancer treatment company. According to reports, since the commencement of COVID-19 vaccines, there has been an unprecedented rise in the deaths of young people between 2021 and 2022 from rapidly **metastasizing and terminal cancers**, according to data from the U.K.’s Office for National Statistics. Also, Pfizer’s mRNA vaccine was found to be contaminated with cancer-causing DNA fragments.

McCollough, an internist and cardiologist, chimed in saying that following the roll-out of the mRNA vaccines, “I’ve never prescribed so many blood thinners in my career. This is extraordinary. All day long, I’m confronted with blood clots of different scenarios,” he said. Elsewhere in the meeting, the early treatment proponent for coronavirus also revealed how the prices are skyrocketing for medical procedures. Recently, he has been ordering more and more cardiac magnetic resonance images (MRIs) and electrocardiograms (ECG or EKG) and seeing recurrent visits to the emergency room, especially those who are military servicemen.

## Medical government arms earned from Big Pharma

Halfway into the two-hour hearing, the floor was turned over to Congressman Andy Biggs, who named some of the 1246 unique medical conditions that arose since the inoculation drives have been mandated. He reminded all attendees that before Prizer was mandated by a Freedom of Information Act (FOIA) request to release the results of their clinical trials, the pharma company intended to **keep these side effects a secret for 75 years**.

---

He asked the doctors what drove the establishment to basically ignore these. “Is this because of money? Are there kickbacks available to government officials?” Biggs asked.

Cole answered this first by saying, “If we go back historically, unfortunately, a lot of laws that have been passed over time built up this machine that’s almost unstoppable,” he said citing the Public Readiness and Emergency Preparedness Act (Prep Act) and the Bayh-Dole Act, formerly known as the Patent and Trademark Act Amendments, which allowed universities to make billions of dollars off their patents. “Does the government work for the people or does the government work for industry? That’s the big question and you know there’s so much lobby money,” he pointed out. “The [Food and Drug Administration] FDA is captured by pharmaceutical companies in terms of what percentage of their budget they get from pharma for drug approval and fast-tracking.”

He also mentioned the CDC Foundation, which also makes billions of dollars off vaccine patents. It now holds the patents for up to 58 vaccines. Another government agency is the National Institutes of Health (NIH), which has officials who make \$150,000 a year for the rest of their lives if they have a patent on a drug that goes to market.

“There are intertwining corrupted and financial interests, certainly. When we as a nation value money over our freedom and when we value our own self-interest over having a constitution that matters to each one of us, then we’re on the wrong track,” Cole emphasized.
