

# What does Haiti have to do with the New World Order?

TIERNEY'S REAL NEWS

This is a difficult and complicated topic that I have tried to condense into a ten minute read. I hope I'm successful and you understand what I'm saying. God Bless America!

Haiti has descended into chaos, the acting President, Ariel Henry, has left and the Europeans who were there to keep the peace have all fled the country as the situation gets worse.

Criminals and violent gangsters now reportedly control 80% of Haiti's capital of Port-Au-Prince.

The situation in Haiti is now so bad that the U.S. evacuated its embassy staff. There are even reports of people turning to cannibalism - gangsters are enslaving people, murdering people, roasting them and eating them on the street.

Why should you care? Because this is the end result of Globalist (Communist) policies put in place by the elite grifters and banksters who run the world. These are the inconvenient truths that the tree huggers and bleeding hearts forget to mention or teach you in school.

In fact, slavery and cannibalism still goes on in **modern-day** Africa, in places like Libya, and other 3rd world countries - where, after the Hillary & Globalist-engineered fall of Gaddafi, the Horn of Africa opened up, illegals flooded Europe and gangsters took over Libya and now enslave, sell and roast their brothers and sisters for dinner - all thanks to the policies of the New World Order.

This is what they want for America. These are the folks they want to import to America so they can destroy America like they're doing to Europe & Africa. It looks like the

## George Floyd riots before the 2020 election - doesn't it?

Armed gangs attacked the prison in Port-au-Prince after Haiti's new President left the nation to visit Kenya to seek help from the UN in dealing with the gang violence - at the suggestion of the Biden regime.

After a gun battle between police and gangs that spanned days, nearly 4,000 inmates managed to get out of Haiti's largest prison and take over the country. Four police

officers were killed. A state of emergency was declared and an immediate "renewable 72-hour curfew" is in effect.

Remember that Haiti's former President Jovenel Moïse was assassinated in July 2021.

More on that later. His replacement, Biden-backed Ariel Henry, had said he would hold new elections in August 2025 but declared **gang violence** needed to be dealt with before an election could be held fairly.

One of the gang leaders, Jimmy Cherizier, called Bar-b-Que for short, called upon all gangs to work together to overthrow Henry's regime.

“All of us, the armed groups in the provincial towns and the armed groups in the capital are united.”

The fake news LOVES Bar-b-Que! He's their guy! He's probably a CIA operative!

Ariel Henry was successful in negotiating for law enforcement assistance from **Kenya**, securing 1,000 police officers to provide help to Haiti. A previous plan, that was agreed upon in October 2023, would have provided a U.N.-authorized international police force to Haiti but it was deemed unconstitutional by the Kenyan High Court.

The Biden administration wants to deploy a Multinational Security Support force, or MSS, that has been in the works for over a year and a half. The Biden administration has been pushing Henry to resign because he's not doing as he's told.

“Haiti's National Police has only 9,000 officers to provide security for more than 11 million people, according to the U.N. They are routinely overwhelmed and outgunned by gangs, which are estimated to control up to 80% of Port-au-Prince.”

**Ah - so that is the real motivation behind letting criminals out of prison and defunding the police. To justify a One World Order Army!**

Where do you think the 300,000 “displaced” Haitians are going to go? To America and we'll pay for it!

While the situation in Haiti seems far removed from America, it might not be so distant. America is slowly getting closer to the same reality that is being witnessed in Haiti. As both foreign gangs pour over the border undeterred and domestic gangs slowly amass more strength from soft-on-crime policies failing to disrupt their operations, conditions for Haiti-like criminal chaos keep improving here.

We might be even worse off than Haiti in such a scenario, as gangs here wouldn't need to bust out their compatriots as **Soros-backed district attorneys** push for **catch-and-release** policies.

Of course, many would claim that America, the strongest nation in the world, could never descend into the chaos seen in Haiti.

But with the nation being pushed to its limits with rampant inflation, international turmoil, a continuous border crisis, attacks on citizens' Second Amendment rights and, most of all, a lack of capable leaders, what realistically is stopping things from spiraling?

*I heard a chilling comment the other day: “We don’t even know if an election will be held in 2024.”*

*That wasn’t said by a conspiracy theorist or a doomsday prophet. No, former U.S. national security advisor Lt. Gen. Michael Flynn said that to the founder of The Western Journal, Floyd Brown.*

*Gen. Flynn’s warning means that the 2024 election is the most important election for every single living American. If we lose this one to the wealthy elites who hate us, hate God, and hate what America stands for, we can only assume that 248 years of American history and the values we hold dear to our hearts may soon vanish.*

*The end game is here, and as Benjamin Franklin said, “We must all hang together, or assuredly we shall all hang separately.”*

Remember how Hollywood celebrities hailed Haiti as a “great” country to live in after President Trump called it a shithole and basically blamed Hillary and her left-wing CIA pals for ruining it? Yeah - how’s that going?

In response to Trump’s comments, various left-wing celebrities including Bill Maher, Susan Sarandon & Conan O’Brien all leapt to the defense of Haiti by wearing t-shirts

with the phrase “Haiti is Great Already.”

Sadly, people are surprised by what’s going on in Haiti, don’t think it could happen here, and don’t remember that under Stalin, Mao & Communism that TENS OF MILLIONS of people were deliberately, cold-bloodedly murdered by forced famines.

Why do you think they are making food unaffordable, seizing farms, selling farmland to the CCP, pushing bugs and burning down food factories in America! Forced famine!

In fact, it was not uncommon during the forced famines of Stalin and Mao for parents to cook and eat their own children. Stalin & Mao both decided to “collectivize” farming, seized all land, expelled landowners and left people with nothing to eat—except, sometimes, themselves. In the face of starvation families often kill their weakest members, usually children, and use the meat for eating. Starving people ate their friends, relatives, and even their own children.

At the height of the frenzy of China’s Communist “Cultural” Revolution, victims were

eaten at gross “flesh banquets.” Teenaged Red Guards beat teachers to death for being “counter-revolutionaries” and cut out their hearts, livers and genitals and ate them.

The cannibalism in Communist China & the Communist Soviet Union was not only due to starvation but also due to a class struggle being whipped up, and was used to express a kind of hatred. The murders were ghastly & beastly. There were beheadings, beatings, live burials, stonings, drownings, boilings, group slaughters, disembowelings, digging out hearts, livers, genitals, slicing off flesh, blowing up with dynamite, and more.

Think about all the beatings and gang violence going on right now in America at the hands of juveniles! History is repeating itself!

This is no conspiracy. It's documented in records:

"Ma Waiyou, of Maiji commune, Xinmin village. Status: common peasant. He ate Chen Zaxi. Relationship: spouse. He ate his own wife. He dug up her body and cooked it. Yang Wenyi and Yuan Shuying of Houxiyan village together with eight people in total, dug up the body of a child, cooked and ate it."

This was an era of cannibalism. One job in Communist forced labor camps was to sell dead bodies.

"Their bodies were stripped of flesh, which was taken back to the front of the brigade office to be boiled in two big pots. Twenty or thirty people participated in the cannibalism. Right out in the open, they boiled human flesh in front of the local government offices. It was state sponsored cannibalism."

There was even state-sponsored cannibalism at county fairs!

“Thousands of people participated in the fairs. A fair was used as an occasion to organize struggle sessions against so-called class enemies. And they just kill those victims and they cut their chests they pried the hearts and livers out and just eat them. At least 10.000 people participated.”

I know it's awful to contemplate - but the truth is important to know!

**Remember when President Trump warned about Hillary and her destructive policies in Haiti at the 2016 Al Smith Dinner:**

"Everyone knows, of course, Hillary's belief that - it takes a village - which only makes sense, after all, in places like Haiti, where she has taken a number of them."

This was documented in a book called The Destruction of Haiti by Bill and Hillary Clinton

The history of the Clintons involvement in Haiti started in 1975 when they took their honeymoon there. President Bill Clinton, in October of 1993, ordered warships into Haitian waters to enforce a U.N. trade embargo to pave the way for the return to power of Marxist leader, Jean Bertrand Aristide.

The American government, under Clinton, supported the U.N. embargo cutting off Haiti's lifeline of food and medicine.

Bill Clinton's agricultural policies in Haiti destroyed the country's rice industry and the Aristide-Clinton connection was a pathway for hard drugs and cocaine to enter the U.S. with the support of drug kingpin Pablo Escobar. Some estimates were that over \$20 million a month was trafficked through Haiti while the Clinton Government turned a blind eye and exported death to American youth.

The pillage of Haiti was further underway after the 2010 earthquake, with over 300,000 people dead and 2 million people left homeless. The Clinton "Con Game" began through the I.H.R.C, Interim Haiti Recovery Commission. Using her position as Secretary of State, Hillary and the Clinton Foundation led the fund-raising efforts for relief in Haiti.

**Bill Clinton had long been perceived as the 'shadow governor of Haiti,' and the Clintons were the power brokers in the Haiti relief effort. If you wanted to do business in Haiti, you needed to have a relationship with The Clintons.**

The hidden truth is that Haiti has a wealth of hidden resources such as gold and oil and **iridium**. The VCS Mining Company received a gold permit and after the permit was issued, VCS put Hillary's brother, Tony Rodham in charge.

The global communications provider, Digicel, run by Clinton Foundation contributor made millions in revenues. Caracol Industrial Park, a \$300 million investment that the Clinton State Department claimed would produce 65,000 jobs, never met that goal and the anchor tenant was a Korean manufacturer and Clinton Foundation supporter. The list of corporate donors involved in the Clinton scheme in Haiti runs deep.

It is estimated that the IHRC collected over \$5.3 billion over two years and \$9.9 billion in three years. The failed agricultural policies under Clinton made sure Haiti, a country that produced its own rice, would be reliant on US food.

Foreign aid is continuously pumped into Haiti, and no plan is made to bolster the country's own capacity to rebuild and produce. Haiti is still run on which business finds favor with the US, and while the Clintons were in charge of the US, they presided over all these failed policies.

Mike Benz says that the CIA-FBI murdered the former President of Haiti. So does Bukele, the current President of El Salvador.

MIKE BENZ: Hurricane Hillary has returned to Haiti...

Mind you this is happening one year after a team of FBI informants, plus DEA, CIA & DOD-linked mercenaries all marched into the home of Haiti's President and shot him dead. The assassinated-by-FBI-informants President of Haiti had been trying to clean up the drug trade, the same thing the current President of El Salvador, Nayib Bukele, is doing.

BUKELE: Funny that the DOD, State Department & CIA don't seem to like leaders cleaning up the drug trade. The CIA funds its coups with money from the drug trade...

Especially when there are hard-to-explain US military occupations directly over the area where the drugs are being trafficked out of. Amazingly, the drug trade that Haiti's President seems to have been assassinated by CIA-linked mercenaries for trying to shut down was originally set up by the CIA itself. Kind of an amazing coincidence there.

And wow, coincidence of all coincidences, the new President after the CIA-linked assassination of the last one was a lab-grown incubated political leader from a CIA/NED front group. Anyway, this is why DOD, CIA, State & DHS all dug in to stop Trump from building a border wall. We lose the cartels, we lose Latin America.

**Nayib Bukele**   @nayibbukele · 1h 

We saw similar images in El Salvador a few years ago. Gangs bathing with the skulls of their victims.

All the “experts” said they couldn’t be defeated, because they were an “intrinsic part of our society”.

They were wrong.

We obliterated them.

The same must be done in Haiti.

**BREAKING NEWS:** Here is disturbing footage of the Haitian cannibal gang eating body parts of one of their victims as he cooks in the fire. The Haiti Cannibal Gang leader is named ‘Barbeque’ and is now the most powerful man in Haiti after their Prime Minster Ariel Henry fled.

This is why there's so much funny business with the border politics of Arizona. That Arizona border is Sinaloa territory, with a multi-decade history of links to US intelligence.

The goods are shipped from Arizona straight to Pritzker's & Obama's Chicago.

### License to Kill - History of The Sinaloa Cartel

The DOJ sealed off & classified the evidence of CIA/FBI involvement in the Haiti President assassination plot "in the interest of national security." Those on trial can't see evidence of CIA involvement because it'd damage US national interests.

The undercover work of former U.S. government informants suspected of plotting to kill Haiti's president has compelled Miami federal prosecutors to seal off evidence about their past activities in the interest of U.S. national security, saying the information is classified and cannot be turned over to the defense in the widening investigation.

The decision means that the U.S. criminal case, which has run parallel to a faltering probe in Haiti, could become even more secretive in the United States and leave a trail of unanswered questions about how a group of Colombian commandos, a former FBI informant connected to a Miami-area security firm and two ex-Drug Enforcement Administration informants all came to be accused of participating in the deadly assault.

The U.S. move to protect classified evidence comes as the separate case in Haiti has stalled: the mandate of the fourth investigative judge expired on Monday with no formal charges brought against any of the roughly 40 suspects still jailed in Port-au-Prince months after the Haitian president's murder last July.

But one suspect who is not in custody is Arcángel Pretel Ortiz, believed by Haiti National Police to be "one of the heads" of the presidential assassination plot. Pretel, a Colombian with reported links to his native country's military dating back to the 1990s, is believed to be a former FBI informant — a potentially embarrassing relationship for U.S. authorities.

Oh, no, what could ever possibly explain this! 🙄

Alex Jones says he believes they'll pull a Haiti on America before the 2024 election (just like they did George Floyd before 2020) and try to intimidate the American people into rolling over and accepting whoever the CIA tells us should be in charge. Will you be terrorized into submission?

“They’re planning to torch the country when he’s president-elect before he’s in and try to intimidate everyone.”

“So, Black Lives Matter and Antifa, and all of this Hezbollah, Hamas protests...They’re hyping that up now as their third rail... to burn the country down within weeks of him being president-elect. Thinking they can terrorize the American people and the establishment into removing Trump somehow during that period.”

It's time to rid America of those who hate us and want to destroy us! God Bless America! Please give us the courage and strength to stand up against evil and awaken those who are sleeping through the fire!

Trying to help people understand what's going on right now is like going back into a burning building to pull someone out. Only to have them keep punching you in the face and demand evidence that the building is on fire. Even after they admit they can see the flames.
