Adding validity to Konrad’s report, the vessel’s Friday night – just before the 13,700-foot suspe navigational status is “anchored.”

The incident comes nearly two weeks after a [collision](#) on the Francis Scott Key Bridge in Baltimore, Mar

“While the Verrazzano shares some characteristics with the Key Bridge, there are significant differences,” an opinion piece in the [Wall Street Journal](#)

***“First, its massive vertical supports are 1,000 feet away from the bridge’s—1,000 feet away from the bridge’s—considerably less likely to be hit by a ship, and by rock islands, which would force a ship to***

The collapse of the Baltimore bridge has sparked a debate over vulnerable infrastructure. Within government, crippling the nation through a series of infrastructure projects, and the influx of foreign crews of commercial vessels entering A
