## Japan's Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as 'Evil Practices of Science' Highlights

*I am the most senior medical oncologist in Japan. I was the first to open a cancer outpatient clinic at Kyoto University, and before that, in Kyoto University, in 2020, I was the head of a section at the Aichi Cancer Center, all positions were at the Aichi Cancer Center Hospital. I established the first course in pharmacoepidemiology at Kyoto University in Japan.*

...

*People are saying about what's being called "turbo cancer," a type previously unseen by doctors, characterized by its incredibly fast speed. **By the time it's discovered, it is already in stage four, advanced cancer,** and such cases are starting to sporadically appear in consultations. Thus, doctors began sharing information about these extraordinary cases that are different from before. So, this has gradually become the situation since last year or the year before that. **Indeed, doctors have been sensing from the field that something unusual related to cancer may be happening. They were feeling it on the ground.***

...

*Moreover, the results of our analysis show, surprisingly, that specific types of cancer, in relation to the vaccination, seem to be experiencing excess mortality. Firstly, **cancers such as breast cancer, ovarian cancer, thyroid cancer, and then statistically, esophageal and lung cancer.** These are, and another one is prostate*

cancer in men. Such cancers are specifically observing excess mortality. This phenomenon cannot be simply explained by disruptions such as early screenings being unavailable due to the pandemic, or lost opportunities for treatment. ...

**It's as if we've opened Pandora's box and are now encountering all sorts of diseases. We're facing them. Autoimmune diseases, neurodegenerative diseases, cancer, and infections. All of these, including rare and difficult diseases, even those rare conditions are happening. Even diseases unheard of are being encountered by ordinary doctors.**

...

**This isn't science; it's more akin to faith, hysteria, or even cult behavior, in my opinion. Opposing vaccines doesn't make one a heretic like Galileo; it's become like being treated as a complete outcast. That's the situation. This is madness. ...**

We really must take these damages seriously and address them earnestly. Any efforts to dismiss these damages as if they didn't happen are, **frankly, the work of evil. This is a quintessential example of the evil practice of science.**

...

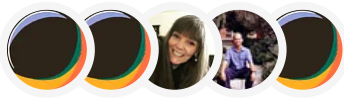

**Therefore this vaccine was from the beginning based on misconception, misconduct, and evil practices of science, totally defective, founded on misconceptions, leading to a totally false production, a false product, I believe.**

...

*We must confront this directly again and shine the light of science on it, so the WHO should lead a comprehensive outcome research on this gene vaccine used on humanity on a large scale for the first time, and all countries should cooperate with it. We should never again use such vaccines. This is a shame for humanity. It's a disgrace!*

At the end of the day we're all going to die, whether that be by accident or some scumbag/s lying to us about vaccines. I believe totally that the powers that be, being either western or eastern, democratic or socialist have devised a plan to use said vaccines to depopulate the planet & if we refuse, they crash the stock market, turn off

our electricity & water, blame a foreign power & let us strave. Mass immigration is just another part of their arsenal, every second a person ends up homeless, hooked on drugs, ends up on a slab & yet the rest of us walk around with our heads in the clouds hoping none of this is true. We live in a very stupid society/ies where you have to be a complete moron to not see what they are doing & it's been going on for centuries if not longer.

The disasterous government and NGO body policies was analyzed and published years ago. Here is a reposting from another substack that I copied a couple of years ago. It seems the textbook author's plan for the destruction of America has been followed exactly as laid out in the Textbook.

I am a student of Law whose age is 85. My first year of college was 68 years ago. One class I took was political science. A half page of my textbook essentially outlined a few steps to overturn a democracy.

1. Divide the nation philosophically.
2. Forment racial strife.
3. Cause distrust of police authority.
4. Swarm the Nation's borders indiscriminately and unconstitutionally.
5. Engender the military strength to weaken it.

6. Overburden citizens with more unfair taxation.
7. Encourage civil rioting and discourage accountability for all crime.
8. Control all balloting.
9. Control all media.

What was printed in 1954 as a possible diabolic nightmare has become an emerging reality. I hope that Americans will unite enough to pen a good finish.

Go dwelling.

Keith M. Alber, California

Those who fail to learn from history are condemned to repeat it. Winston Churchill, 1948.

If you google it you will see even the fact checkers confirm its authenticity.

It's all going to plan perfectly, what with black life's matter, transgenda, drag queens story hours, these Palestinian marches, just stop oil, vaccines, the leader of the Scottish national party & his whites whites speech, he's now resigned. Mass immigration, homelessness, rents & house prices out of most peoples reach, you've got people working 3 jobs or more just to keep a roof over their heads. We've got ulez in London, I heard one woman driver saying the £300 she had

spare each month now goes on paying the clean air tax whilst I heard another gentleman complaint that after he paid his mortgage & various bills he only had £600 a week left to spend on luxuries. We've got British big issue sellers having their badges taken away so that immigrants can have their patches. As you say all of this planned decades ago, divide &

I've been a prepper for at least thirty years & I've meet people that have a large number of knives, crossbows, bows, shotguns, yet when the shtf they'd probably end up blowing their own heads off, rather than live in a world that's returned to the stone age. I have no problems in defending myself, why should someone else take what little I have & no I won't be sharing with even one.

All your points are true. A hungry populace is VERY dangerous. For that reason I live in the country away from cities however I know when people get hungry they will come searching for food and their morals will disappear. The garden I am restablishing this year will only feed us here so long as we are not raided by starving people.

I grow a bit of fruit & veg myself on an allotment not far from me. In the last couple of years several plot owners have experienced theft, I put this down to the steady rise in food costs & the big rise in people using food banks, desperate people that haven't ever committed a crime in the life, take what they need to feed their families. I live outside of a major city, it's fairly rural, but we still a lot of crimes, such as theft from charity

shops & recently the coop was robbed of £500 of tobacco products. The police were called but refused to come as the thief was not armed. They finally turned up two days

So,...I Heard last evening that a contact-friend of mine from our painting group has missed work, since our meeting last

month! Apparently no one at her office has any idea what's going on. I know she was a big believer in boosters, etc and I do know she has had "Covid" a couple or more times ? a few days sick....~~~I can only imagine this has all caught up with her and likely not going well? indeed, i continue confused and angry that like her, millions of otherwise smart people are poised to make up their own diagnosis rather than dig for the answers, because to do so is to believe "the other side" ..... what do-dos, please, put away your intellectual pride...not doing you much good here. And, it would seem.....way too late

"At the end of the day we're all going to die'???? You would think so.....

WHATIF the injected synthetic covid genetic construct actually biologically NEVER DIES, and produces the SPIke into a neverending infinity, given the supplies are out there? Here I mean the ribosomes, the single amino acids building that protein?? That scenario only showed up after viewing some very conspiratorial videos of people with EMF detectors during scanning the cemeteries for a presence of 'special signals' from the newest graves. Hope A LOT, I'm joking!

Civilisations have come & gone & yet we're still here. The black death reared its ugly head up numerous times & at one point killed half the world's population. Then there was that dwarf star that entered our galaxy 70,000 years ago & according to scientists reduced the human population down to just a few thousand breeding pairs, how they know that I don't know but anyways some of us survive, somehow. Then you've got the polar shift which according to some scientists could happen as early as the mid 2030-2040 & there's plenty of evidence in lava flows to back that one up. This time we have two problems the virus & the vaccines & the number of people that were vaccinated. In Africa they faired much better,

some natural immunity from the virus & a deep mistrust of big pharma, though if the WHO, UN,

I totally agree. The Covid-19 vaccine was Satanic, it stopped natural care for flu and cold care, on a lie the vaccine would stop you getting the flu or spreading it. Some people must be put in prison because of this lie and because so many mRNA or DNA jabbed are sick or have died.

In reading these 7 comments, people are stating that Fauci and Gates must be put in prison. Why not hang them with witnesses at GITMO? GITMO has never been taken down, and we know that these "people" are guilty as sin. Why pay to keep them in prison when they have deliberately murdered people? Hang them so they can't escape as Jeffrey Epstein did, and get it over with.

Edward Dowd interview April 27: Shocking Number of Excess Deaths, Disabilities, and Injuries Revealed:

[https://www.theepochtimes.com/epochtv/shocking-number-of-excess-deaths-disabilities-and-injuries-revealed-edward-dowd-5633806?utm\\_source=ref\\_share&utm\\_campaign=copy](https://www.theepochtimes.com/epochtv/shocking-number-of-excess-deaths-disabilities-and-injuries-revealed-edward-dowd-5633806?utm_source=ref_share&utm_campaign=copy)

“Every regulator, every health authority, every government should be screaming from the top of their lungs: ‘This is a problem. This is a national [and] global crisis. We should look into it.’ But there’s silence on it, and I believe they’re silent because they know the answer.”

..we’ve tracked excess mortality in many different countries; UK, all of Europe, Australia, Ireland, Germany, but not Canada because their death data seems to be lagging quite a bit. But in country after country where excess deaths occurred, it was very well correlated to vaccination uptake.

 LIKE (4)  REPLY (2)  SHARE ...

Deathrock, Vanguard, CDC, Federal Reserve, Vaxx companies, all have a common denominator.. However, as they gloss over the deaths that just happened to happen with vaxxes, it was interesting to hear, For every vaxx death, there are 4 vaxx injuries. I imagine that is higher as many suffer quietly

 LIKE (2)  REPLY  SHARE ...

**Steve O** May 3 · *edited May 3*

Dowd is controlling the narrative, after all he "did" work for Blackrock (do you ever leave?).

He was interviewed about Lahaina, he was asked if there really was a hurricane to whip up the winds and really get the fire going, he lives on the Islands and should know right? He answered absolutely, no fowl play.

Watch the video and pay attention to the water, according to the mainstream news the winds were 80KM/h plus that would put the waves too high for anyone to jump in the water and be safe.

It seems that (mostly) the retired or end of career doctors and scientists find the courage to speak up. I guess the younger generation are either scared to ruin their career, are corrupt or just plain ignorant. Sad.

P.S. Thanks to all the doctors and scientists that are speaking up, and I hope that more will find the courage to speak up in the near future.

"Silence in the face of evil is itself evil. God will not hold us guiltless. Not to speak is to speak. Not to act is to act." Dietrich Bonhoeffer

And I might add: In today's internet world those who silence the courageous are guilty of a greater evil than those cowards who just choose to remain silent.

The COVID poison would have already been incinerated if more people spoke out.

Fukushima, everyone remember 3-11 the day that changed Japans course forever. Do you believe the narrative?

Do you believe Arnie Gunderson from  
Fairewinds Energy and all the lies he was  
spewing?

Have you carefully watched videos of the  
fake earthquake?

Have you watched videos of the so called  
tsunami?

Have you ever put into google search  
"Fukushima black bags"?

All the stories about seepage into the pacific  
are straw man reports that are out there to  
hide the bigger reality - millions of times as  
much radiation is getting into the Pacific via  
rainwater runoff from all over Eastern Japan,  
where reactor 3 is now laid out like pepper.

What country was doing maintenance on the  
reactors just before 3-11?

What country was in charge of clean up after  
3-11?

the point is, this GENE THERAPY applied a synthetic patented THE SAME GENE on billions of people, before every single one with OWN INDIVIDUAL GENETIC FOOTPRINT, AND NOW SHARING a COMMON HUGE chunk of FOREIGN genetic information!!!! So the question now is, since genes determine your SHAPE AND FUNCTIONS within the entire body, given to everyone by the Creator at birth, what was/is the purpose of that change??? To what shall everyone turn into???? The Spike sequence shares ~37%

IDENTITIES with the patented SWINE flu vaccine, with MANY snakes portions, and so much more..... As said, nanoparticles can kill, but never turn anyone into a porcine hybrid.... Did the preparation for that started long time ago?? Maybe, when kind of looking into the intentions of the modern molecular biology:

[https://ashpublications.org/blood/article/140/Supplement 1/8430/490866/Escaping-Ability-of-Human-Porcine-Hybrid-Factor](https://ashpublications.org/blood/article/140/Supplement%201/8430/490866/Escaping-Ability-of-Human-Porcine-Hybrid-Factor)

Since MD's know very well what mRNA is
